FROM THE NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS AND THE WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION

The National Federation consists of the fifty individual state high school athletic and/or activities associations and the association of the District of Columbia. Also affiliate, are ten interscholastic organizations from the Canadian Provinces of Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland-Labrador, Nova Scotia, Ontario, Prince Edward Island, Quebec, and Saskatchewan as well as the Canadian School Sports Federation and the associations of the Republic of the Philippines, Okinawa, Guam, and St. Thomas. These associations have united to secure the benefits of cooperative action which eliminate unnecessary duplication of effort and which increase efficiency through the pooling and coordinating of ideas of all who are engaged in the administration of high school athletic and activities programs.

ORIGIN AND GROWTH

The national organization had its beginning at a meeting at Chicago on May 14, 1920. L.W. Smith, secretary of the Illinois High School Athletic Association, issued invitations to neighboring states and state association representatives came from Illinois, Indiana, Iowa, Michigan, and Wisconsin. The primary purpose of the meeting was to discuss problems which had resulted from high school contests which were organized by colleges and universities or by other clubs or promoters. In many cases, little attention was paid to the eligibility rules of the high school associations or to other school group regulations and chaotic conditions had developed. At this first meeting it was decided that the welfare of the high schools required a more active part in the control of such athletic activities be exercised by the high schools through the state associations, and this control necessitated the formation of a national organization. A Constitution and Bylaws were adopted and the group decided on the name "Midwest Federation of State High School Athletic Associations." In 1921, four states, Illinois, Iowa, Michigan, and Wisconsin, continued their interest and became charter members through formal ratification of the Constitution. Largely due to their efforts the national organization grew during the early years. In 1922, the Chicago annual meeting was attended by representatives from 11 states, and the name of the National Federation of State High School Athletic Associations was adopted. A number of college and university representatives who attended the meeting expressed sympathy for an interest in the efforts to introduce a high degree of order in the regulation of interscholastic contests. Since that time, the National Federation has had a healthy growth to its present nationwide membership. By 1940, a national office with a full-time executive staff became necessary and such office was established in September of that year. The Wyoming High School Activities Association has been a member of the National Federation since February 24, 1936. The legislative body is the National Council made up of one representative from each member state association. Each representative must be a state association executive officer or member of the state board of control. The executive body is the Board of Directors of at least eight members from the eight territorial sections as outlined in the Constitution. Their election is by the National Council at its summer meeting.

STATEMENT OF PHILOSOPHY

The purpose of the National Federation of State High School Associations is to coordinate the efforts of its member state associations toward the ultimate objectives of interscholastic activities. It shall provide a means for state high school associations to cooperate in order to enhance and protect their interscholastic programs. In order to accomplish this, the National Federation is guided by a philosophy consistent with the accepted purposes of secondary education. Member state associations' programs must be administered in accordance with the following basic beliefs: Interscholastic activities shall be an integral part of the total secondary school educational program which has as its purpose to provide educational experiences not otherwise provided in the curriculum, which will develop learning outcomes in the area of knowledge, skills, and emotional patterns and will contribute to the development of better citizens. Emphasis shall be upon teaching "through" activities in addition to teaching the "skills" of activities. Inter-school activities shall be primarily for the benefit of the high school students who participate directly and vicariously in them. The interscholastic activity program shall exist mainly for the value which it has for students and not for the benefit of the sponsoring institutions. The activities and contests involved shall be psychologically sound by being tailored to the physical, mental, and emotional maturity levels of the youth participating in them. Any district and/or state athletic meet competition to determine a so-called champion shall provide opportunities for schools to demonstrate and to evaluate the best taught in their programs with the best taught in other schools and in other areas of the state. Participation in interscholastic activities is a privilege to be granted to those students who meet the minimum standards of eligibility adopted cooperatively by the schools through their state associations, and those additional standards established by each school for its own students. The state high school associations and the National Federation shall be concerned with the development of those standards, policies, and regulations essential to assist their member schools in the implementation of their philosophy of interscholastic activities. Non-school activities sponsored primarily for the benefit of the participants in accordance with a philosophy compatible with the school philosophy of interscholastics may have values for youth. When they do not interfere with the academic and interscholastic programs and do not result in exploitation of youth, they shall be considered as a worthwhile supplement to inter-school activities. The National Federation headquarters building is located at 1802 Alonzo Watford Sr. Drive, P.O. Box 690, Indianapolis, IN 46206; Phone: 317-972-6900. The National Federation is the major rules writing body for interscholastic sports in the United States. Playing rules for junior high and high school competition as written, published, and printed by the National Federation have been adopted by the WHSAA in all sports except golf, tennis, and skiing.

HISTORY AND PURPOSE

Originally founded in the 1920s to regulate athletic competition, the WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION has become much more than a regulatory agency. The WHSAA has survived on the premise of providing service to all member schools while promoting, coordinating, and controlling interscholastic activities in Wyoming. The purpose of the WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION is to ensure that interscholastic activities in Wyoming are administered in a manner that is safe and fair to all. The Association is matched in every state and Canadian province by their own particular associations, all belonging to the National Federation of State High School Associations, which provide a means for State High School Associations to coordinate, to enhance, and to protect their interscholastic programs. The WHSAA is a private nonprofit association that is funded by membership dues and the gate receipts from the various culminating events in each activity. Membership is voluntary.

MISSION AND PHILOSOPHY

The mission of the WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION, both as a service and regulatory organization, is to coordinate the efforts of the member schools toward the ultimate objectives of interscholastic activities. Unification through the WHSAA provides the means for member schools to cooperate in protecting and enhancing their interscholastic programs to more effectively serve students. The WHSAA recognizes that the academic program must have top priority in the educational process. While promoting the importance of the activities program, the Association recognizes that activities should not overshadow the emphasis placed on classroom work, but that the two should go hand-in-hand.

MEMBERSHIP

Any public or private high school accredited by the Wyoming State Department of Education or which meets requirements designated by the WHSAA Board of Directors may become member schools of the WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION, which is guided by a Board of Directors and managed by a commissioner. Elected by the vote of member schools for a three year term, the Board members represent each classification and each of four geographic administrative regions. In addition, two members elected by the Wyoming School Boards Association and a staff person from the Wyoming State Department of Education are voting members. Rules pertaining to academic standards, transfer, awards, season limitations, as well as other policies which govern WHSAA activities, are adopted by the Board of Directors, and are part of the By-Laws. Amendments to the Constitution are voted on by each member school.

SCOPE

The WHSAA fosters leadership for students through activities in fine arts, vocation education, and athletics. The activity programs of the WHSAA are available to all Wyoming high school students belonging to a member high school or affiliate member school. The programs include art, basketball, cross country, drama, football, golf, indoor track, journalism, music, skiing, soccer, softball, speech and debate, spirit groups, student council, swimming, tennis, track & field, volleyball, and wrestling. In addition, the WHSAA acts as the coordinating agency for the vocational activities DECA, FBLA, FFA, FCCLA and SkillsUSA.

The WHSAA sponsors culminating events leading to the determination of team and/or individual champions in these activities and provides trophies, medals, and certificates for the teams in these events.

VALUES

The WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION believes that interscholastic activities programs are essential to the education of youth, and therefore, are an integral part of the school curriculum. By promoting activities, the WHSAA establishes its belief that Wyoming youth gain immeasurable values from these programs and reaffirms its conviction that excellence in education can be achieved through activities. The values of high school activities and their impact upon the lives of Americans are immeasurable. The experiences and lifelong lessons provided by participation have earned interscholastic activities an integral role in the educational process. Not only do interscholastic activities benefit and directly influence participants, but they also instill pride and unifying spirit among students, fans, schools, and communities throughout the nation. The inherent values of activity programs are both realistic and vivid. Participation provides the opportunity to build strong minds and bodies, fosters a cooperative spirit and sportsmanship, creates poise and confidence and teaches discipline and the self-satisfaction of accomplishing goals.

SERVICES

Over the past years, the WHSAA has experienced an ever increasing demand from schools, students, and communities to provide them with the necessary services to meet the needs of growing activities programs and the information required to manage them effectively. In addition to coordinating all culminating events, the Association serves as a clearing house for all activities, rules information, records, and Association information. Acting as the representative for high school activities, the WHSAA also works with other education-related agencies to ensure the place of co-curricular activities in the education spectrum.

In addition, a \$60 base fee per activity will be assessed. Schools that participate in activities that lose money will be assessed an additional fee in the succeeding fall. A member school which does not re-enroll in an activity that experiences a financial shortfall during the year that it is enrolled, shall be assessed the amount of the shortfall for the subsequent year only. The Board will review these fees yearly at their April meeting for possible revision. Dues and/or fees per activity may be adjusted by the Board of Directors based on the needs of the WHSAA.

7. If a member high school or affiliate member school does not offer a sport or activity it may apply for a combination school agreement with a member high school that offers that sport. If such an agreement can be worked out, the visiting school's enrollment figure of all eligible students of the gender of the sport concerned shall be added to the host school's spring enrollment figure to determine classification. Administrators of both schools must agree to such participation. Only the host school will be assessed the fee for participation when combining school's activities.
8. The Board of Directors may levy special assessments as deemed necessary to finance and conduct activities of the Association, but shall not exceed 20 per cent of annual dues.
9. The Board of Directors will act upon all applications at its next regular meeting after the applications and dues have been received in the office of the Association and will notify the applicant school of acceptance or rejection by return mail. In case of rejection, the school so rejected shall be notified of the reason within ten days. If membership is rejected, the school is entitled to a hearing.
10. The Association will maintain a list of approved schools. This list should be made and sent out to the concerned schools from time to time.
11. Member schools may not participate in any activity with non-member schools except with written permission of the Commissioner.
12. Permission to participate with out-of-state schools shall be approved only if the host out-of-state school is a member in good standing of its state association.

A nomination for this award must be made by a Board of Director's member or the Commissioner. This nomination must be in writing and must receive a favorable vote by the Board members. Presentation of this award may be through the mail.

2.4.0 CONTAGIOUS DISEASE POLICY

In order to address concerns about the spread of contagious diseases, (AIDS, hepatitis, etc.) the WHSAA Board of Directors has adopted the following policy:

- 2.4.1 Before competing in a practice or contest, a student/athlete must cover any open wound on his/her body. This will reduce the risk of transmission of a blood-borne pathogen from his/her open wound to the open wound or mucous membrane of another person or vice versa.

If the bleeding resumes, the practice or contest must be stopped again and any potentially contaminated surfaces cleaned. It is up to the discretion of the official in charge of the competition (i.e. referee in football and basketball, etc.) as to how many times the competition should be stopped due to a student/athlete's bleeding before that student/athlete is disqualified from further participation in that contest.

Whenever a participant suffers a laceration or wound where oozing or bleeding occurs, the practice or game should be stopped at the earliest possible time, and the player should be escorted from the area for the appropriate treatment. The student/athlete should not return to the game/practice until bleeding has been arrested and the open wound properly covered.

- 2.4.2 The referee should stop the contest as prescribed by National Federation rules if it is necessary to clean blood-spill and/or provide first aid. The referee must NOT clean up the blood spill.

If the contestant must change uniforms, he/she will be allowed to do so without penalty as provided by National Federation rules for that sport.

- 2.4.3 Whenever possible, the individual should give themselves first aid to avoid getting blood into another's mouth, eyes, or open sore. If such exposure occurs, rinse exposed body area thoroughly with water.

1. If the individual has any breaks in the skin, use an antibacterial to cleanse the wound and cover it with a dressing.
2. If the participant's uniform is soaked with blood, the uniform should be changed.

- 2.4.4 The host school is responsible for cleaning the area in the following manner:

1. A solution made from 1 - 10 dilution of household bleach or similar commercial product should be used.
2. While wearing rubber gloves, personnel should wipe the area clean with towels and then dispose of the towels into a plastic bag.
3. While wearing rubber gloves, personnel should then scrub the area with a solution of disinfectant. Rubber gloves should be disposed into a plastic bag. The user should then wash his/her hands immediately.
4. The referee should then restart the contest as prescribed by the National Federation Rules.

- 2.4.5 UNCONSCIOUS ATHLETE

Any student who loses consciousness during an event will not be allowed to participate for the remainder of that day. In order to return to practice or play in the future, the student must be cleared by an appropriate health care professional.

- 2.4.6 CONCUSSIONS

Any student who exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the contest or practice and shall not return to play until cleared by an appropriate health care professional.

Each School District should determine which appropriate health care professionals will be allowed to clear students to return to play (RTP).

2.4.7 EMERGENCY ACTION PLANS

Emergency action plans are required for all practice and competition venues/locations. Plans are required to be shared with all pertinent school personnel, including, but not limited to students, coaches, athletic trainers, school nurses and administrators in case of an emergency.

- 2.5.0 EQUITY IN WHSAA OFFERINGS

The Wyoming High School Activities Association fully supports equal opportunity for the youth of Wyoming.

- 2.6.0 TEAMS/INDIVIDUALS UNABLE TO ARRIVE FOR SCHEDULED COMPETITION AT A CULMINATING EVENT

The WHSAA believes that all teams/individuals that earn the right to participate in culminating events should have those rights protected as much as possible.

A culminating event shall be defined as the event(s) of post-season competition, inclusive of regional and state competition.

It shall be the responsibility of the competing school(s) to notify the WHSAA office or the event manager if the school is having difficulty traveling to the event site and may not arrive in time for the scheduled event(s). Notification shall be made as soon as possible after it becomes evident that the team/individual is having difficulty.

School personnel have the responsibility of making alternative travel plans to tournament sites based upon weather forecasts and any other pertinent information. As a common factor, input and recommendations are to be sought from the Highway Patrol and/or the Department of Transportation.

Specific circumstances not covered by this policy are left to the discretion of the Commissioner of the WHSAA and/or the WHSAA Executive Council.

1. If a team/individual is unable to arrive at a culminating event site for their scheduled competition due to circumstances beyond their control, that team/individual will be allowed to participate in their scheduled event provided they arrive at the event site and are able to compete on the day of their scheduled event. The WHSAA Commissioner, in cooperation with the event manager, shall adjust the schedule of the event for the purpose of allowing maximum participation for all qualified schools.

If the team/individual is unable to arrive to compete on the day of its event, a forfeit is recorded and that team/individual shall move into the consolation bracket or be dropped from competition, whichever is applicable to the particular event.
2. When the number of teams/individuals unable to reach the event site for their scheduled event exceeds 25% of those participating, the event manager, the WHSAA Commissioner, shall consider postponement or cancellation of all or part of the day's activities. An alternative schedule shall be determined by the events manager after consultation with the WHSAA Commissioner and a representative of the participating schools.
3. Should the need arise for the schedule of a culminating event to be altered, the WHSAA rule regarding the ban on Sunday activities may be waived. However, such action should be taken only as a last resort.
4. For the purpose of this policy, the TOTAL number of schools/teams scheduled to attend the event shall be the number used from which to obtain the percentage of those needed, regardless of the number of classifications scheduled to attend the event.
5. For the purpose of this policy, when the percentage used results in a number that is not a whole number, the number shall be rounded up to the next whole number. For example, if a tournament is being held for 30 teams, 25% of the total would be 7.5 which would be rounded up to 8.
6. In football, should one team be unable to arrive at a culminating site due to circumstances beyond its control, the contest shall be rescheduled to allow maximum participation for all qualified schools.

2.6.1 OUTDOOR EVENT PLAYING CONDITIONS

The WHSAA believes that the safety of participants is of the utmost importance and at the same time realizes that many times teams/individuals participating in outdoor events, particularly football playoffs, have traveled a great distance. Therefore, site managers must take these concerns into consideration while determining if a playoff contest shall be held if weather conditions are poor.

The site manager shall consider the temperature, the wind and its effect on the temperature, and the condition of the playing surface. The site manager shall also receive input from individuals representing both competing schools and the WHSAA Commissioner.

2.6.2 POLITICAL DISPLAYS AND/OR SOLICITATION

The WHSAA shall not allow any political displays and/or solicitation at the site of its regional or state events. In addition, all commercial displays and/or solicitation shall be prohibited unless prior approval has been granted through an agreement with the host school and/or the WHSAA.

2.6.3 BANDS AT CULMINATING EVENTS CRITERIA

1. The tournament manager will determine the availability of space, and if space is available, will assign seating for bands.
2. A school's band will be admitted free only for those sessions during which its team is playing.
3. The band director accompanies and vouches for each member
4. Music may not be played during live ball.
5. Drums may be used only to accompany a musical selection.
6. If two bands are attending, bands will alternate selections or play the same selection together.
7. The home team's band will play the National Anthem if a singer is not assigned.
8. Bands are limited in size to 45 participants or less.

2.6.4 WHSAA AFFILIATE MEMBER PARTICIPATION PROGRAM

The WHSAA recognizes two types of affiliate members. Those students that are home schooled and those students that attend a State Department of Education accredited virtual school in which their home district has chosen not to sign a memorandum of understanding (MOU).

Home School Definition

Home school is a program of educational instruction provided to a child by the child's parent or legal guardian or by a person designated by the parent or legal guardian. An instructional program provided to more than one (1) family unit does not constitute a home school.

These home school Affiliate Members:

1. Must apply for Affiliate WHSAA Membership each year before the first practice of the appropriate fall, winter or spring season.
2. Have no voting powers within the WHSAA.
3. Must pay the enrollment fee each school year as outlined below:

- a. One hundred dollar affiliate membership fee per home school.
 - b. The Catastrophic Insurance Fee
 - c. The assessed WHSAA activity fee for each activity in which the Affiliate Member wishes to participate. (The fee is not charged to Affiliate Member Home Schools that enter into a combination school agreement as the visiting school.)
 - d. If the Affiliate Member enters into a combination school agreement as the visiting school, the host school becomes the student's school of choice for all sports and activities offered by the host school. If there is a change from the original agreement to an agreement with a different host school, all transfer rules will apply.
4. Must satisfy the statutory requirements of the State of Wyoming as specified for home school educational programs while an Affiliate Member of the WHSAA.

Virtual School Definition

Those students in which their home district has chosen not to sign a memorandum of understanding (MOU) with a State Department of Education accredited virtual school will be eligible to apply as an Affiliate Member.

These virtual school Affiliate Members:

1. Must apply for Affiliate WHSAA Membership each year before the first practice of the appropriate fall, winter or spring season.
2. Have no voting powers within the WHSAA.
3. Must pay the enrollment fee each school year as outlined below:
 - a. One hundred dollar affiliate membership fee per virtual school family.
 - b. The Catastrophic Insurance Fee
 - c. The assessed WHSAA activity fee for each activity in which the Affiliate Member wishes to participate. (The fee is not charged to Affiliate Member Virtual Schools that enter into a combination school agreement as the visiting school.)
 - d. If the Affiliate Member enters into a combination school agreement as the visiting school, the host school becomes the student's school of choice for all sports and activities offered by the host school. If there is a change from the original agreement to an agreement with a different host school, all transfer rules will apply.

WHSAA Rules and Regulations

Affiliate Member schools must abide by the WHSAA Constitution, and all bylaws, rules and regulations of the association.

The Affiliate Member's schools student must meet the guidelines for activity participation required for all other students as defined in the current WHSAA Handbook.

2.6.5 WHSAA REIMBURSEMENT POLICY

The WHSAA realizes the financial impact that providing quality activity programs has upon local districts' budgets and makes this opportunity available to help districts continue in their efforts to provide the best learning environment possible for Wyoming students.

Reimbursement is available for sanctioned school sponsored student activity group travel to WHSAA State Tournaments and Events according to the following schedule.

Over 300 miles one way = \$100.00

Over 380 miles one way = \$150.00

Over 420 miles one way = \$200.00

Mileage is determined by the distances as recorded by the Wyoming State map of the Wyoming State Highway Commission.

Member schools must submit the WHSAA Reimbursement Form within thirty (30) days of the State Culminating Event in order to qualify.

2.6.6 Lightning Policy Recommendation

A chain of command and designated decision-maker should be established for each organized practice and competition. It is recommended to assign staff member(s) to watch the weather. This could be administration, athletic trainer, and/or coach, etc. The person(s) identified shall actively watch/monitor the weather and must be able to see 360 degrees around without any obstructions as lightning can strike up to 10 miles from the location of the main storm

Establishing a Lightning Safety Plan

A thorough, documented lightning safety plan is the most effective way for high schools to prevent lightning related casualties or injuries in their activity programs. The information in the plan must be disseminated to the correct, qualified personnel and practiced on a routine basis.

It is important to formulate and implement a proactive, comprehensive lightning emergency plan that should include:

- Advance Planning
- A systematic approach for monitoring local weather conditions
- Education of staff to recognize signs of nearby lightning activity
- Criteria for suspension and resumption of play
- Evacuation plan including nearby safe shelters
- Periodic review and practice of the plan by appropriate high school personnel

Criteria for Suspension and Resumption of Activity

A distance of ten miles, which should provide ample opportunity to remove any athletes from the outdoor playing field, area and indoor/outdoor swimming pools, and get them into a fully enclosed building with wiring & plumbing. The plumbing and electricity within a building act as a conductor to direct the electricity away from the building and use of these should be avoided during an

electrical storm. For the same reason the use of an indoor pool should be avoided, unless proven otherwise by the engineer of the pool. If building is not available then a fully enclosed vehicle or bus would be recommended. Unsafe locations also include tents, dugouts, screened porches, storage sheds, gazebos, press boxes, and open garages.

After suspension, the plan should include strict, documented criteria for the resumption of activities. It is recommended to wait 30 minutes after the last flash of lightning is witnessed or thunder is heard, or once lightning has been more than 10 miles away for 30 minutes. Any subsequent lightning or thunder after the beginning of the 30 minute count should restart the clock and another count should begin.

Lightning detection equipment is available on the market and could be included and used as a supplement in a lightning policy.

Recommended reliable means of monitoring the weather:

- www.weather.gov
- Internet link to the NWS Forecast office
- Weather radios with continual updates on the most recent forecasts
- Commercial real-time lightning detection network
 - US National Lightning Detection Network
 - US Precision Lightning Network
 - Weather Bug Total Lightning Network
 - Thor Guard
 - Perry Weather

Supplemental devices to be used in conjunction with the above recommendations

- Pager, cell phone, smart phone, or email can transmit via automatic notification
 - (Please note these only work with already formed active thunderstorms moving into the area).
- Handheld lightning detectors
 - (Performance of these have not been independently verified & should not be used as the sole source for determining when to move to a safe location).

3.0.0 GENERAL ASSOCIATION RULES AND REGULATIONS

3.1.0 CLASSIFICATION OF SENIOR HIGH SCHOOLS

3.1.1 All member senior high schools shall be divided into classes, There shall be five classifications in football and four in basketball, track and volleyball. The number of classifications in all other activities shall be divided from the four classification system. Please see sport specific information in Rule 7.0.0 for each sport's classification.

3.1.2 The WHSAA Board of Directors will review classification at least every two years in all activities based upon the member schools' enrollments figures. For the purpose of clarification, the enrollment figures shall be based on the ADM figure provided by each member school to the State Department of Education in the spring of the school year prior to discussion on reclassification. Spring 2023 ADM figures will be used to determine classifications for 2024-25 and 2025-26, and spring 2025 ADM figures will be used to determine classifications for 2026-27 and 2027-28, and so forth. Ninth grade students in WHSAA member schools are counted in their ADM when figuring WHSAA Classifications. A school may petition to change classification if it feels its classification is unjust. This request must be made in writing to the WHSAA office and should be made before the November WHSAA Board of Directors Meeting of the year that the reclassification cycle is finalized.

3.1.21 WHSAA Board of Directors Meetings on First and Second Readings of the Reclassification Proposal developed by the Reclassification Committee will be First Reading at the April WHSAA Board Meeting during the cycle and Second Reading at the September WHSAA Board Meeting during the cycle.

3.1.22 Participating Outside The Classification Determined by the WHSAA Board of Directors

All schools will compete in culminating events in the classification their enrollment figure (as per ADM count as per WHSAA Rule 3.1.2) dictates as determined by the WHSAA Board. A member school may petition the WHSAA Board to move up in classification in a sport or activity for the two years of the reclassification cycle and if that request is granted, they will also compete in the culminating event in that new classification. This request must be made before the November WHSAA Board Meeting of the year that the reclassification cycle is finalized. A member school must participate in its assigned classification or petition to move up a classification to be eligible to participate in the WHSAA culminating event in that activity.

3.1.23 Reclassification When Closing A School

When a member school is closed or discontinued, the total number of those students who enroll in another member school shall be added to the most current ADM of the receiving school. As soon as students enroll in a receiving school they shall be added to the receiving school's most current ADM figures and if this moves the receiving school up into a higher classification the move shall happen immediately. The WHSAA office shall notify the member school of such a move. The member school(s) involved in a move up because of adding new students will be the only school(s) to change classification.

Reclassification When Adding A School

When a school district plans to add an additional school involving students in grades 9-12, they should work with the WHSAA office in developing a plan concerning classification for this new school and their existing school(s) well in advance of the reclassification cycle that will be in effect when the new school opens. Any school opening with less than the traditional 9-12 grade levels, will be classified by prorating their current enrollment to the equivalent of four grade levels. For example: a school with a class of 125 sophomores, and 130 freshman would be classified the same as a school of 510 students.

3.1.25 POLICY ON HANDLING OF CULMINATING EVENT PROPOSALS WITH RECLASSIFICATION ITEMS

Proposals that would affect WHSAA regional and state culminating events by necessitating changes in any of the following list of items will be considered during the April and September Meetings of the reclassification year:

1. Date of Culminating events
2. Number of qualifiers
3. Bracketing format
4. Size of tournament
5. Changes in qualifying procedures from regional to state
6. Schools changing regionals
7. Class size for tournament

Member schools and groups should plan ahead and present proposals well in advance to district groups for discussion and final revisions before sending them on to the WHSAA Board of Directors for placement on the agendas of the meetings listed above.

3.1.26 POLICY ON DISTRICTS COMBINING FOR A REGIONAL TOURNAMENT

Two WHSAA administrative districts are allowed to combine to determine their qualifiers to the WHSAA State culminating event. This can be done by class and by sport. The number of state qualifiers from a regional tournament will not exceed the combined total for both of the original district allotments.

In the event that two districts combine, the WHSAA will establish appropriate state first round pairings.

A request to combine must be submitted to and approved by the WHSAA Board on or before the February meeting prior to the desired school year. This request must first be approved by a simple majority of each of the combining administrative district's class membership and signed documentation must be included with the request.

3.1.3 COMBINATION SCHOOL

3.1.31 A member school or affiliate member school can combine with another member school only for those activities not sponsored by one of the member schools.

3.1.32 The principal from the visiting school shall complete the portions of the Combination School Agreement form that pertains directly to his/her high school and forward to the host school. The host school principal shall complete the remaining portions of the Combination School Agreement and return it to the WHSAA office.

The Combination School Agreement form is to be submitted to the WHSAA office before the first date of the competition of the season in which the team competes as a combined team.

3.1.33 The visiting school must count the enrollment of all eligible students of that gender for that activity at the time of the combining. When an enrollment figure is not available for fall activities, the last day's enrollment of the preceding school year shall be used. (if combining for boys cross country, then only boys would be counted.) This figure shall be added to the home school's projected (8-11) spring enrollment figure to determine if there will be a move up in classification. The host school shall be the larger of the two schools when entering into a combination agreement.

3.1.34 Enrollment notification and number of students eligible for each activity will be sent to the home school and the WHSAA.

3.1.35 Encouraging participation may be done only after approval for the combining has been secured from all schools involved, and after the WHSAA has reviewed the request. Contact may be made only with approval of each school's administration. Encouraging participation may be done only if no other conflicting activities are offered at the visiting school.

3.1.36 Visiting schools may send students to only one school for each activity. An exception to add another school for the same activity may be made by the Commissioner if he deems a hardship exists that would prohibit a student's participation in the activity. If the activity is an individual sport such as wrestling, track, indoor track, swimming, skiing, cross country, tennis, golf, and all fine arts and vocational education programs, the combined school team must compete as designated for the regular season as well as culminating events.

3.1.37 All WHSAA rules involving transfers, hardships, and scholastic eligibility will apply.

3.1.38 The Commissioner will review the agreement on all combination school requests and place the combined school's team in the appropriate classification. If the Commissioner determines that a combined team will adversely affect the classification structure, the Commissioner will deny the request for combining.

3.1.39 Once an agreement is reached to combine, reapplication must be made annually to the WHSAA. If a visiting school chooses to enter into a combination school agreement with a different host school in the same activity, all transfer rules will apply. An exception may be made by the Commissioner if he deems a hardship exists.

3.1.391 Combining schools should resolve issues that address the following:

1. Expenses normally associated with issues that address the following
2. Expenses associated with travel such as meals and lodging, and travel expense to and from home school
3. Gate receipts and student and adult activity passes
4. Practice time that affects loss of school time
5. Scheduling, development, and enforcement of eligibility rules, and the rights of visiting schools students
6. Geographical location of combining schools
7. Medical and catastrophic insurance
8. Cheerleaders
9. Use of team uniforms
10. Copy of local school board action from all participating schools that stipulates the action taken.

3.1.4 WHSAA member schools may compete against only those schools that are members of the WHSAA or are a school allowed to compete with members of another state's association. Students are allowed to compete in cultural exchange programs. EXCEPTIONS: Member schools may participate against the Worland Industrial Institute and the Sheridan Girls School. Students from these two schools participating against other Wyoming high school teams shall meet WHSAA age rule (6.3.1) requirements.

3.2.0 NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

3.2.1 All athletic contests shall be conducted under the official rules of the National Federation of State High School Associations or as modified by the WHSAA.

3.3.0 DATES AND LOCATION OF SITES

3.3.1 The Board of Directors will select sites for all culminating events. Communities desiring to host culminating events should submit a proposal to the WHSAA office. The Board will accept multi-year proposals of state culminating events up to a maximum of four years.

3.3.2 All Wyoming culminating events will be held in Wyoming.

3.3.3 The Board of Directors will develop and maintain a seven year calendar for the purpose of establishing continuity in scheduling.

3.3.4 At each April meeting of the Board of Directors, the dates of the eighth year on the long term calendar will be set.

3.4.0 ENTRY FEES, TICKET PRICES, AND FINANCIAL ACCOUNTING

3.4.1 Entry fees and ticket prices for culminating events shall be set by the Board of Directors.

3.4.2 Local managers appointed by the WHSAA shall conduct WHSAA activities. Itemized statements of income and expenses shall be submitted to the WHSAA by the local managers.

3.4.25 High school pupils must present their WHSAA identification cards or high school ID card in order to purchase tickets at the student price. If no identification card is presented, adult prices will be charged. High school graduates and older are considered adults.

3.4.3 Established ticket prices.

3.5.0 UNSPORTSMANLIKE CONDUCT

3.5.1 Participants are guests of the host school/community, and as such, should conduct themselves in an exemplary manner. Prior to, during, or following any activity, unsportsmanlike conduct will not be tolerated. In athletic events, officials are directed to take action to control such conduct, even to the point of forfeiture of the game.

3.5.2 Any player who has been disqualified from a contest for committing an unsportsmanlike act shall be disqualified for the remainder of that contest, activity, or tournament. In addition, for football, soccer, indoor track, track, cross country, tennis, golf, skiing, and swimming, the player shall be disqualified from the next contest at the level of play from which the player was disqualified. The basketball, softball, volleyball, or wrestling contestant shall be disqualified from the next two contests. In all sports, this disqualification shall include all contests at any level until the contestant has served the suspension at the level of play from which the player was disqualified and successfully completed the NFHS "Sportsmanship" course located on www.nfhslearn.com. (See 3.5.25 below). Unsportsmanlike acts either prior to or following a contest will result in similar penalties. A contest shall be defined by the criteria developed by the national governing body whose rules are utilized for the sport in which the disqualification shall be enforced. If the disqualification occurs in the last contest of the season, the player will be required to serve their suspension in the next sport in which they participate. A student may not go out for another sport just to serve the suspension penalty unless the student successfully completes the entire season for that sport.

3.5.25 WHSAA STUDENT GOOD STANDING BUY BACK PROGRAM

All ejected students must successfully complete the NFHS "Sportsmanship" course located on www.nfhslearn.com before becoming eligible for any further interscholastic competition. The WHSAA member school must fax or email the certificate of completion to the WHSAA office.

3.5.3 Should a participant be ejected from more than one contest during any one school year, that participant's suspension, as described in Rule 3.5.2, shall be doubled for each additional ejection.

3.5.35 COACHES BUY BACK PROGRAM

Any coach who has been disqualified from a contest for committing an unsportsmanlike act shall be disqualified for the remainder of that contest, activity or tournament. In addition, for football, soccer, indoor track, track, cross country, tennis, golf, skiing, and swimming, the coach may be disqualified from the next contest at the level of play from which the coach was ejected. The basketball, softball, volleyball, or wrestling coach may be disqualified from the next two contests. In all sports, this disqualification shall include all contests at any level until the coach has served the suspension of the level of play from which the coach was ejected. Unsportsmanlike acts either prior to or following a contest will result in similar penalties. A contest shall be defined by the criteria developed by the national governing body whose rules are utilized for that sport. The coach shall be prohibited from attendance at any contests during the disqualification period.

In addition, the coach will be required to complete the "Teaching and Modeling Behavior" course. The course is available online at www.nfhslearn.com. Once the suspension is served and the WHSAA receives the certificate of completion for the course, the school will be notified.

Once the Commissioner has been notified of an incident, he/she will be in contact with the school's administration and will ask for a written account of the situation.

The Commissioner will render a decision as soon as he/she has received and reviewed all relevant information. A school may appeal the official's decision to the Commissioner, and a decision the Commissioner renders may be appealed to the WHSAA Board of Directors.

3.5.4 Unsportsmanlike conduct by coaches, student body, and/or spectator(s) may also cause the offending school to be warned and/or placed on probation for the first offense. The second offense may cause probation and/or suspension for a one year period.

3.5.5 A coach's ejection from a contest may result in his/her school or sport being placed on warning, probation or suspension according to policies established by the Board of Directors in WHSAA Rule 1.4.0.

When a lone coach is ejected from a contest and no other qualified coach who has been assigned to that sport by that school is present to coach the team, the game will end and the contest will be forfeited.

3.5.6 The game official who disqualifies an individual through an unsportsmanlike act must notify the Wyoming High School Activities Association. In addition, the WHSAA office must notify the school of the disqualification and confirm that it has acknowledged the official report.

3.5.7 Any player who physically assaults a referee or other official in connection with an association contest shall immediately become ineligible for further interscholastic competition. It shall be the responsibility of the tournament manager or principal of the school hosting the event to notify the WHSAA Commissioner as soon as possible. The official involved must report the incident in writing to the WHSAA office within three days of its occurrence.

The coach and principal of the student involved are responsible for keeping that student from further interscholastic participation pending a ruling by the WHSAA Commissioner. The Commissioner shall have the power to suspend the violating participant from further interscholastic competition for a period not to exceed one calendar year from the same calendar week of the infraction. Should an infraction occur during a culminating event, the Commissioner may withhold the student from the entire corresponding event in the succeeding school year.

- 3.5.8 The school may appeal the disqualification of a player or coach for the unsportsmanlike conduct or the assault of an official to the Commissioner.

3.6.0 SUPERVISION OF PUPILS

- 3.6.1 A school is responsible for the conduct of its team, coaches, students, and fans at any interscholastic event in which the school is participating.
- 3.6.2 Failure to uphold proper standards of conduct is responsible for much of the criticism and adverse publicity given toward interscholastic events. Furthermore, it is one of the reasons why the potential educational values of interscholastic athletics are not achieved. Only with a conscientious effort of everyone involved can we achieve the most worthwhile objective of interscholastic competition.

One of the prime functions of interscholastic competition is to foster the traits of good sportsmanship. The WHSAA strongly urges administrators to stress to their athletes, student bodies, and fans the importance of sportsmanlike conduct during all WHSAA contests, and to make them aware of WHSAA rules, policies, and bylaws concerning crowd control.

The WHSAA places the primary obligation upon the administrators of member schools to control their students, staff members, and fans at all WHSAA contests.

When a violation of the principles of good sportsmanship occurs so as to endanger the personal safety of any individuals involved, hinder the normal progress of an WHSAA contest, or create situations that may lead to restriction or discontinuance of interscholastic competition, the Commissioner of the WHSAA shall contact the administration of the school(s) involved to discuss the situation and attempt to cooperatively formulate a solution to the problem.

If the violation is flagrant or the situation persists, the Commissioner shall have the power to invoke penalties upon the member school(s). The penalties that may be imposed against the school(s) may consist of those listed in the penalty section (1.4.0).

3.7.0 CROWD CONTROL AT WHSAA CONTESTS, RECOMMENDED GUIDELINES

Believing that working toward prevention is better than seeking a cure, the WHSAA offers the following guidelines to aid in planning crowd control strategy which will help insure the safety of contestants and fans. Good sportsmanship must become a common goal.

- I. Schools should understand the true purposes of athletic contests and educate their patrons to that purpose. Athletic contests are not to become rivalries to the point of losing the primary objectives of the game.
 - A. Provide worthwhile educational experiences for all students, players, and spectators.
 - B. Provide enjoyable recreation regardless of whether the game is won or lost.
- II. A full knowledge of each game's rules applying to sportsmanship which have their purpose to enhance the educational values of interscholastic athletics should be taught. How these are taught will depend upon the innovation of the school personnel. Schools might be wise to insert in their eligibility rules some concern over the misconduct of players.
- III. Copies of game rules pertaining to sportsmanship should be made available to fans. These rules could be printed in the game programs, along with the sport's recent rule changes. In the buildings where contests are being held, bulletin boards and other means of conveying the information can be used to inform the public.
- IV. Leadership must be provided by the high school faculty with the superintendent or principal leading the way and delegating authority. However, they are completely responsible for the entire program.
- V. Ample help, even involving law enforcement officers, stationed at strategic points and alerted to potential problems will help prevent the initial onset of any conflict.
- VI. All schools should inform their people involved in any contest that there is a specific role for the visiting participants to play as well as the host school. Amenities and courtesies should be displayed and extended to the visiting organizations without flaunting of rivalries.
- VII. Spectators should not be allowed to enter a building where a contest is being held if they are observed in the possession of alcohol or other mood altering substances or are believed to be under the influence of these substances.
- VIII. Schools should eliminate possible confrontations by close observations of people who might contribute to any confrontation such as people under the influence of these mood altering substances.
- IX. In the event a spectator assaults a referee or other official in connection with a WHSAA contest, he/she should be prosecuted to the full extent of the law. To save the status of interscholastic competition, schools will have to work together and be alert to potential dangers in their own communities and when they are visiting other communities.

The coach bears the greatest burden of responsibility for sportsmanship. His/her influence upon the attitudes and behavior of the players, the student body, and the community is unequalled. In order for good sportsmanship to become a reality, it is essential that the coach subscribe to the values of sportsmanship and teach its principles through word and deed. Specifically, it is recommended that the coach:

1. Always set a good example for others to follow
2. Instruct the players about their sportsmanship responsibilities
3. Discipline those players who display unsportsmanlike behavior. If necessary, forfeit their privileges of representing the school
4. Be a good host to opponents; treat them as guests
5. Provide opportunities for social interaction among coaches and players of both teams before and after the contest
6. Select only officials who have demonstrated the highest ethical standards
7. Respect the officials' judgment and interpretation of the rules. Question them with respect and dignity only when the game rules permit
8. Publicly shake hands with the officials and opposing coach before and after the contest.

Players

The responsibility of the players for sportsmanship is second in importance only to the coach. Because players are admired and respected, they exert a great deal of influence over the actions and behavior of the spectators. Desirable behavior for players would be as follows:

1. Treat opponents with respect that is due them as guests and fellow human beings
2. Shake hands with opponents and wish them good luck before the contest
3. Exercise self-control at all times, accepting decisions and abiding by them
4. Respect the officials' judgment and interpretations of the rules. Never argue or make gestures indicating dislike for a decision
5. Do not communicate with the officials regarding the clarification of a ruling. This is the captain's responsibility.

Students

Students' habits and reaction as spectators determine the quality of sportsmanship which reflects upon the reputation of the school. Profane and abusive language and obnoxious behavior have no place at an athletic contest.

Spectators

Fan behavior whether at home or away at athletic contests reflects on the entire community. Hometown fans should treat out-of-town guests with respect. Similarly, visiting fans should treat their hosts - both individuals and property - with the proper appreciation.

1. Know and demonstrate good sportsmanship
2. Be positive. Cheer for your team rather than against the opposition
3. Refrain from booing and name calling
4. Respect the official's point of view. He/she is in charge and is doing his/her best
5. Remember athletic contests are, in one respect, just like driving; they do not mix with mood altering substances.

Officials

1. Know the rules and accepted officiating procedures
2. Make decisions promptly and fairly
3. Be consistent
4. Be neat and friendly, but businesslike
5. Be on time and start the game on time
6. Refrain from placing hands on players during an athletic contest
7. During the pregame conference make reference to the fact that you expect captains to exhibit sportsmanlike behavior and demand it from all team members.

Police and Staff Supervisors

1. Check with the athletic director prior to the contest time for assignments
2. Arrive on time
3. Discourage small groups from gathering near entrances and exits
4. Keep playing area clear of spectators before, during, and after the contest
5. Move with the crowd
6. Have adult violators escorted to the police station. Call parents of youthful offenders to escort them home

 - c. Establish traffic patterns in and around the contest site. Use community volunteers or student groups.
 - d. Erect restraining fences and/or rope off areas appropriately.
 - e. Man gates at all times and prohibit free entry to anyone during the entire contest.
 - f. Check the physical facility to see that it is in the best possible condition to accommodate crowds.

Athletic Director

1. Review game management responsibilities.
2. Explore crowd control ideas with other schools in your conference.

10. Provide a check of the facilities after the contest.

6. The WHSAA Board will act on the Handbook Committee's recommendation at the next regularly scheduled meeting.
7. The request for sanctioning would have to pass readings at two WHSAA Board Meetings.
8. The implementing of any new activities sanctioned by the WHSAA would have to follow the guidelines of WHSAA Rule 3.1.25

3.9.3 SANCTIONING OF OUT-OF-STATE EVENTS

3.9.4 If an event involves schools from non-bordering states or is sponsored/cosponsored by an organization outside the school, then the appropriate National Federation sanctioning form must be completely filled out and submitted, with attachments or fees if necessary, to the WHSAA for approval.

Hazing, by definition, is "Any humiliating or dangerous activity expected of a student to belong to a group, regardless of their willingness to participate." It is of utmost importance on all teams, but especially on those teams with underclassmen, that there be absolutely no hazing or so called initiation rites. To that end, coaches should not make negative comments about contest officials or their officiating to the media, social media, facebook, twitter, etc.
- 4.5.5.5 PUBLIC CRITICISM OF OFFICIALS OR COACHES

The Commissioner may revoke the license of an official for cause which shall include, but not be limited to, the violation of the policies, purposes, rules and regulations

of the WHSAA and any conduct, both on or off the field or court which would have a negative or detrimental effect upon the WHSAA, its member schools, students or the public.

- 4.6.8 Officials must adhere to the uniform requirements as specified by the National Federation rule books, or as adopted by the Board of Directors.

Failure or refusal to play a contest or event where the officials are agreed upon shall result in a forfeiture by the individual or team failing or refusing to play.
- 4.6.14 When teams agree on an official, the official's decision during the period of time they are in charge of a contest or event shall be final. A school or participant cannot protest a decision made by an official during the time they are in charge of the contest or event. If a school feels an official has set aside (not followed correctly) a rule, the official WHSAA Representative from that school may contact the WHSAA to lodge a complaint. The WHSAA will decide if disciplinary action is necessary against the official(s). For more information about the Wyoming Sports Officials Association, please see section 9.0.

Furthermore, the Board has this same authority in cases in which a rule causes undue hardship pursuant to Article VI (5) of the Constitution, the Board of Directors may delegate its authority to set aside any eligibility rule to the Commissioner when a decision must be made prior to a regularly scheduled Board meeting.  - The Commissioner is responsible for the interpretation and enforcement of the eligibility rules. This interpretation and enforcement must be uniform and consistent. The Commissioner does not have power to modify eligibility rules or to make new eligibility rules. At times, the enforcement of these rules may appear to result in injustice to a student or a school in a situation arising from lack of familiarity with the rules, misunderstanding of the rules, or negligence on the part of some individual. In such a case, it must be recognized that the Commissioner cannot, through sympathy, permit exceptions to the rules. He/she has no such power. When appealed to for an interpretation, the Board of Directors will make a decision in the light of the facts and the intent of the rule.

Should a member school administrator misapply a WHSAA eligibility rule as determined by the Commissioner in conjunction with the Board of Directors, the member school shall be held responsible for such action.

As a member of a National Team (and the actual, direct tryouts therefore), which is defined as one selected by the national governing body of the sport on a national qualification basis either through a defined selective process or actual tryouts for the purpose of international competition which requires the entries to officially represent their respective nations, although it is not necessary there be team scoring by nation; or
2. In an Olympic Development Program, which is defined as a training program or competition:
 - a. Conducted or sponsored by the United States Olympic Committee (USOC); or
 - b. Directly funded and conducted by the USOC member national governing body (NGB) on a national level (e.g. NGB national championship competition and the direct qualifications therefore); or

- 5.3.3 The use of high school gymnasiums and other athletic facilities between the close of one season and the opening of the next season is permitted. However, there shall be no compulsion for athletes to participate in any out-of-season training program as a qualification for being on a high school team. Between seasons, student/athletes shall be encouraged to participate in a broad range of activities and shall not be compelled to participate in pre-season or post-season programs in lieu of succeeding activity programs. Athletes shall be permitted to choose their activities in the off-season without compulsion of coaches.
- 5.3.4 School team practice during the WHSAA calendar year (Week 5, or week 4 for 4A football, tennis and golf, through Week 46) outside of the sport season is a violation of the out-of-season rule and cannot be included in an out-of-season training program. Coaches may work with individuals on individual sports techniques out-of-season at a participant's request. However, team concepts may neither be taught nor practiced through support of a member school. Coaches may coach non-school teams.
- 5.3.5 Each sport is allowed fourteen (14) days of practice between WHSAA calendar week 47 and Week 5, Week 4 for 4A football. Practice leading up to team camps would count toward the fourteen day limit, however the team camp will not count toward the fourteen day limit. As per our open gym rules, these practices must not be mandatory and are to be for students to participate on a voluntary basis without pressure from the coach.
- 5.3.6 Except for supervision of open gyms as provided in WHSAA Rule 5.5.0, the teaching of sport specific techniques or team concepts must cease and desist two weeks prior to the first allowable practice date. Exception: A coach may run a camp for the youth (non-high school) of their community and use their high school players to assist, during the two weeks prior to the beginning of a sport season, provided there is no direct instruction to the high school players. The Commissioner, or his designee, may approve exceptions to Rules 5.3.5 and 5.3.6 when deemed not to be in violation of the intent of said rules.
- 5.3.7 Intramural programs organized in between regular seasons must be conducted in a manner which may not be construed as organized practice.
- 5.3.8 Schools offering instruction in any sport as a part of their regular physical education program must be certain that classes are conducted in a manner which may not be construed as organized practice.
- 5.3.9 A summer weight program is not a violation as long as it is handled as an activity in a program and is open to all youngsters in a given area.
- 5.3.9.5 As designated by rule, each season ends on the last day of the state culminating event for each respective sport. Seasons in addition to the designated seasons by rule are not permitted (for example, spring football is prohibited).

5.4.0 SPECIALIZED (Individualized technique) SPORTS CAMPS

- 5.4.1 Specialized sports camps for all athletic activities are permitted with no stipulation concerning the number of participants from any single school.
- 5.4.2 A high school student may attend any individual or team specialized sports camp(s)/clinic(s) of his/her choice.

- 5.5.3 A coach violates the intent of the open gym/facility when he/she has mandatory or "so-called" voluntary attendance at open gyms/facilities. "So-called" voluntary attendance is an implied requirement for an individual to attend open gyms/facilities as a prerequisite to team membership.
- 5.5.4 Coaches cannot use the open gyms/facilities to coach team techniques of activities provided in the school's interscholastic athletic program.
- 5.6.0 AWARDS STANDARDS - Only awards with values not greater than \$250.00 may be accepted by a student/athlete as a result of participation in school or non-school competition in a sport that is sanctioned by the WHSAA, except for golf, which will follow the rules of the USGA(Rule 7.8.41).
- 5.6.1 A student may receive the following without violating this standard: unattached school letters or emblems, medals, ribbons, plaques, trophies, certificates, or other similar symbolic awards.
- 5.6.4 Any award presented by a non-school person or organization must have the approval of the school administrator and meet the \$250.00 retail value limit. This limitation does not apply to any high school participants at WHSAA member schools who receive an Operation Gold Award.
- 5.6.5 A non-school sponsored banquet shall not constitute a violation if arranged with the approval of the school administrator.
- 5.6.6 Awards in the form of high school scholarships or concessions on tuition because of athletic ability shall cause the student to become ineligible for future competition in all interscholastic sports.
- 5.6.7 Individual students may receive monetary rewards for participation in luck-of-the-draw or lottery type programs. This type of competition must be limited to individual type competition and not pit one contestant against another. There is no limit on the amount of monetary award for this type of competition. (Examples: Shooting baskets at half time at professional basketball games; shooting hockey pucks at goals during intermissions at hockey events.)
- 5.6.8 The student and the school shall be held accountable to the WHSAA for any violation of this rule by individuals or groups before, at, or after graduation.
- 5.6.9 This standard shall not prevent a student from signing an agreement which binds him or her to play only for a particular team or an athletic letter of intent with a university or college.
- Application for reinstatement to eligibility may be filed with the commissioner 365 days from the date of violation. However, the Commissioner shall not reinstate to eligibility any student who has received a scholarship, concession on tuition, or direct or indirect financial aid because of his or her athletic ability.
- 5.7.0 AMATEUR STANDARDS - A student who represents a school in an interscholastic sport shall be an amateur in that sport. An amateur athlete is one who engages in athletic competition solely for the physical, mental, social, and pleasure benefits derived from such participation.
- Operation Gold award recipients are exempt from this rule.
- 5.7.1 An athlete forfeits amateur status in a sport by:
1. Competing for or accepting money or other monetary compensation (it is permissible for a student to accept necessary meals, lodging, and transportation in connection with playing a contest)
 2. Receiving any award or prize of monetary value which exceeds the amount that has been approved by the WHSAA
 3. Capitalizing on athletic fame by receiving money, gifts of monetary value, or merchandise
 4. Signing a professional playing contract in that sport
- 5.7.2 Accepting a nominal standards fee or salary for instructing, supervising or officiating in an organized youth sports program or recreation or playground activities shall not jeopardize amateur standards.
- 5.7.3 Violation of either the Awards or Amateur Standards shall result in the student becoming ineligible in the sport concerned.
- 5.8.0 OUTSIDE COMPETITION (INDEPENDENT TEAM)
- 5.8.1 An independent team shall be defined as any team not directly sponsored by a WHSAA member high school.
- 5.8.2 A student who is a member of a school athletic squad may not participate as a member of an outside team or as an independent competitor in the same sport during the same season.
- 5.8.3 Students may not participate in a WHSAA sanctioned activity (non-athletic) and with an independent group in the same activity during the season for the activity.
- 5.8.4 Violation of this rule shall make the student ineligible for the remainder of that sport's (non-athletic included) season unless he/she is reinstated by the Commissioner.
- 5.8.5 EXCEPTIONS: 1. Students may participate in the individual sports of skiing, tennis, track, indoor track, cross country, golf, swimming/diving and wrestling while a member of the high school team with outside affiliations as long as permission has been given by the local school district. During the season, skiers are allowed the opportunity to ski USSA point races. 2. Participate with non-athletic teams at the same time. 3. College on campus individual tryouts. 4. Olympic tryouts.

- 5.8.6 A pupil may take part in a civic theater production and still retain eligibility for interscholastic competition provided that permission has been obtained from his/her high school principal.
- 5.9.0 **ALL-STAR COMPETITION**
Member school facilities or equipment shall not be used for any all-star team, contests, or exhibitions involving undergraduate students in any sport unless approved by the Wyoming High School Activities Association Board of Directors.
- 5.10.1 **PRACTICE RULE**
- 5.10.2 A player must participate in a minimum of the required number of practice sessions of at least one practice session per day on as many different days for the respective sport prior to the first day of his/her participation. A day shall count as no more than one practice. No practice is permitted on any Sunday. Two days of practice are required for golf, five days for tennis and nine days for each remaining sport. Nine days of practice are required for football, the first three of which must be without contact for each participant. (Please see Rule 7.7.12.) A participant becomes eligible once he/she has practiced the required number of days. A contest in which an ineligible participant participates shall be forfeited as per WHSAA Rules 1.4.0 and 5.0.7.
- 5.10.3 A pupil moving from one sport to another will be allowed to count the completed practices from the first sport to meet the practice number requirements for the second sport. To satisfy the required number of practices, there must be no break in participation between sports other than the normal weekend. If an athlete does not attend the first scheduled practice of the new sport following the athlete's departure from the initial team, the required number of practices for the new sport must then be met. An athlete must compete in at least one contest in the new sport before being eligible for any culminating event in the sport. No additional contests may be added to an existing schedule to meet this requirement. It shall be the responsibility of the local school district to determine the pupil's readiness to compete in the new sport.
- 5.10.4 For the purpose of the practice rule, practice is defined as a physical fitness activity designed for the preparation of athletes for the ensuing sports season and must be conducted under the supervision of a coach certified by the Professional Teaching Standards Board. Supervision must be direct, with both coach and athlete at the same site at the same time. FaceTime, Skype and other electronic methods will not fulfill the requirements of a supervised practice. Participation in physical education classes does not constitute practice.

- 6.1.0 **BONA FIDE STUDENT (HIGH SCHOOL PUPIL)**
- 6.1.1 A student comes under the jurisdiction of the WHSAA upon completion of eighth grade requirements.
- 6.1.2 The student shall be a bona fide undergraduate member of his/her school. Bona fide is defined as proceeding in a satisfactory manner toward the educational graduation standards established by the member school.
- 6.1.3 Every student who represents his/her high school in interscholastic activities must be in attendance in that high school in which he/she participates or be under an approved, combined school program. Ninth graders who attend a separate junior high may qualify under WHSAA Rule 6.7.1 and 6.7.4.
- 6.1.4 Each member school shall establish participation criteria for all activity participants which may extend beyond, but not supplant the existing WHSAA rules. This criteria shall address specific academic expectations, use of tobacco, substance abuse, acceptable conduct, and all other standards for eligibility.
- 6.1.5 Any student under penalty of suspension, or who is ineligible according to the school criteria for participation or WHSAA regulations, may not participate.
- 6.1.6 Any student who deliberately falsifies information for eligibility purposes, will lose one year's eligibility.
- 6.2.0 **ACADEMIC REQUIREMENTS**

- 6.2.2 A pupil must be passing in five solid subjects at the time of contest. A passing grade is considered to be the passing grade of the individual school. As defined, a solid subject meets five days a week or its equivalent for the entire semester and for which one-half Carnegie units are granted.
- 6.2.3 The scholarship eligibility of a transfer student must be established by school records or verification from the sending school. The responsibility for establishing eligibility rests with the receiving school.
- 6.2.4 A student shall be permitted to make up work after the close of the semester for the purpose of becoming eligible. Deficiencies, including incompletes, conditions and failures for the previous semester may be made up during a subsequent semester, summer session, night school, correspondence, or tutoring for qualification purposes. The makeup work must match the class where the failure occurred (ex. If an online class is taken, Algebra I for Algebra I, etc.). Credit needs to be approved by the student's school district. The student will not become eligible until all deficiencies from the previous semester have been made up to meet Rules 6.2.1 – 6.2.2.
- 6.2.5 Whenever WHSAA scholarship requirements are in conflict with the OBE (Outcome-Based Education)/Mastery Learning process, that member school shall submit a proposal and request an interpretation from the Commissioner.

- 6.2.7 A pupil who is suspended or expelled from high school during a semester and who does not finish the semester is ineligible during all of his/her next semester since his/her record for the previous semester is incomplete.
- 6.2.8 High school students taking college classes will be allowed to count the college classes toward the required five solid subjects, if the student has the approval of the school.
- 6.2.85 A special education student is eligible to participate upon verification by the student's high school principal that he/she is proceeding in a satisfactory manner towards the educational goals established for him/her.

6.2.90 WHSAA AFFILIATE HOME SCHOOL STUDENT PARTICIPANT ACADEMIC ELIGIBILITY REQUIREMENTS

The Affiliate Home School Student may establish academic eligibility through one of the following:

- a. Attaining a composite score, not less than the twenty-fifth percentile, on a nationally norm referenced achievement test administered according to the guidelines established by test in question. The test score will be used to determine academic eligibility for one calendar year from the date of the results being received in the WHSAA office from the testing company.
- b. Grades and assessments given by a teacher currently certified by the Professional Teaching Standards Board meeting 6.2.1 through 6.2.4 above. The certified teacher must have a minimum of twenty (20) class hours of contact with the Affiliate home school student per week.

6.2.91 WHSAA AFFILIATE HOME SCHOOL STUDENT PARTICIPATION ACADEMIC ELIGIBILITY REQUIREMENTS UNDER COMBINATION SCHOOL AGREEMENT

Submit proof of work in agreement with and to host combination member school that demonstrates compliance with subject and class hour requirements at the same frequency as the academic eligibility of other students is determined at the member school. Proof of work agreement may include requirements from 6.2.90 a. or b.

6.3.0 AGE REQUIREMENTS

- 6.3.1 A student must be under twenty years of age on August 1 for fall sports, November 1 for winter sports, and March 1 for spring sports. Member school administrators should be alert to apply for an early start for the eligibility of students who might be affected by this rule.

6.3.9 Bylaw Regarding Eligibility for Foreign Exchange and International Students

1. Foreign Exchange Students
 - a. A foreign exchange student is an international student who attends high school in the U.S. To be eligible for interscholastic athletics in the U.S., such student must be under the auspices of and be placed with a U.S. host family by an international student exchange program that has been accepted for listing by the Council on Standards for International Educational Travel (CSIET) and be recognized by the U.S. Department of State. The foreign exchange program must assign students to host families by a method that ensures that no student, or his/her athletic interests or abilities were a component of the placement process.
 - b. A foreign exchange student is considered to be placed with a host family when written notice of placement is provided by the exchange organization to the student and his/her parents, and to the host family.
 - 1) Neither the school the student attends nor any person associated with the school shall have input into the selection of the student.
 - 2) No member of the school's coaching staff, paid or voluntary, shall serve as the host family.
 - c. The foreign exchange student must possess a current J-1 or F-1 visa, issued by the U.S. Immigration and Naturalization Service.
 - d. The foreign exchange student must comply with all eligibility requirements set forth by the Wyoming High School Activities Association.
2. Other International Students

An international student who is not under the auspices of and placed by a CSIET listed exchange program must meet the following requirements in order to be considered for interscholastic athletic eligibility in Wyoming.

 - a. The student must possess a current F-1 visa, issued by the U.S. Immigration and Naturalization Service.
 - b. The student must provide to the principal of the school he/she attends an official untranslated transcript and a transcript that is translated to English, by an acceptable agent or agency, which indicated work taken in all grades in which the student was enrolled.

 - d. No member of the school's coaching staff, paid or voluntary shall serve as the resident family for the student.
 - e. The international student must comply with all eligibility requirements set forth by the Wyoming High School Activities Association.

Non-compliance with one or more of the foregoing provisions shall render the international student ineligible for interscholastic athletics at any high school which is a member of the Wyoming High School Activities Association.

6.4.0 TRANSFER

The purpose of the Transfer Rule (Rule 6.4.0 thru Rule 6.4.93) is to protect, not inhibit students who participate in athletic competition. The Transfer Rule is preventative in nature and is devised to eliminate the incentive to transfer schools when a

motivation is for athletic purposes and after a student has initially chosen the school of his/her choice. The Transfer Rule protects students who have previously participated in athletic competition at a member school from being replaced by students who transfer for athletic purposes and further protects students at other member schools from the affects of "school shopping" by students (Rule 4.1.2) and "recruiting" by member schools and their agents (Rule 4.1.1 and Rule 4.1.2). The Transfer Rule encourages fair play, discourages the excesses and abuses of over enthusiastic promotion and protects the integrity of interscholastic athletic programs for the member schools and their students. The eligibility of a transfer student must be established by school records or verification from the sending school. The responsibility for establishing eligibility rests with the receiving school. A student's residence is the home in which the parent(s) or legal guardian actually, physically live. Residence can be changed only by the union of "act and intent." The residence of a person is where his habitation is fixed and to which, whenever he is absent, he has the intention of returning. A change of residence can only be made by the act of removal joined with the intent to remain in another place. There can be only one residence. The only legal guardianship that is recognized by the WHSAA for transfer rule purposes is that legal guardianship which has been established at least 12 months prior to the student's moving to a new school and the fact that the student has been living with that legal guardian in their previous school setting.

- 6.4.1 The principal must submit an "athletic residence" record of transfer form to the WHSAA office. All information included on the certificate must have been verified. If the Record of Transfer or Foreign Exchange Student form is not posted or is posted by the member school following the participation of a student who is eligible under all WHSAA eligibility requirements, the member school shall be assessed \$50 per form.

In addition, if the Record of Transfer or Foreign Exchange Student form is not posted or is posted by the member school following the participation of a student who is ineligible under any WHSAA eligibility requirement, the member school shall be assessed \$50, and the member school shall forfeit any contests in which that student participates in accordance with WHSAA Rule 5.0.7.

- 6.4.2 Upon completion of the requirements of Rule 6.4.1, a student shall be immediately eligible for all interscholastic athletic competition under the following conditions:
1. A student moving from a two year junior high school to the ninth grade of a senior high school for the first time.
 2. A student moving from a three year junior high to the tenth grade of a senior high school in the same attendance area for the first time.
 3. A student assigned to a foster home by court order.
 4. A student returning home from a correctional institution.
 5. A foreign exchange student from a foreign exchange program approved by the Council on Standards for International Educational Travel (CSIET) or the WHSAA. All students under any foreign exchange program must meet all other WHSAA eligibility rules and must be reported to the WHSAA office on the appropriate form. A foreign exchange student who becomes a participant shall be eligible for three consecutive sports seasons. Any part of any season shall constitute one complete season.
 6. A student transferring from a closed or discontinued school.

EXCEPTION: A student who has graduated from a school in his/her home country may be ruled eligible if semester eligibility has not been met.

- 6.4.3 A student who transfers from a school in the United States, a U.S. Territory, or U.S. Military Base (to be referred to as School A) to School B without a change of residence on the part of the parents or legal guardian from school attendance area A to school attendance area B, shall be eligible for athletic competition, except varsity level competition for one year from the date of enrollment, in School B, in interscholastic sports in which the student has participated at any level and/or grade during the 12 calendar months preceding the date of such transfer.

- 6.4.31 Dual Residence and Divorced/Separated Parents

The transfer bylaws are based upon the place of residence of the parents. With cases of pending divorce, legal separation, or dual residences (only applies to divorce or legal separation situations) the student shall be eligible either at the school in the district in which the home last occupied by both parents is located, or the WHSAA member school where the student has established eligibility, or with the parent with court designated physical custody of the student. After a finalized divorce, and after enrollment in the ninth grade, a student is granted one move from parent to parent involving a WHSAA member school with immediate eligibility for all interscholastic athletic competition.

- 6.4.4 The eligibility of a student who transfers from one school to another before a move by his/her parents shall be determined as provided in Rule 6.4.3. The student may be declared eligible as soon as the family's new residence has been established within the school's attendance area if, at the time of the student transfer, notice is given to the member school that the parent or WHSAA recognized legal guardian will be moving to the school's attendance area prior to the expiration of one year from the date of enrollment, in School B, as referred to in Rule 6.4.3.

- 6.4.5 Students who transfer from one attendance center to another within the same unified district (USD) when initiated by the school, may be declared eligible without a move on the part of the parents, provided policies on such transfers are clearly defined in board of education policy and provided both principals approve the "special" transfer.

The status of a student who transfers from one school to another without a change of residence on the part of his/her parents, providing two or more high schools operate within the same district whether under the same or different authority, will be considered the same as changing school districts and the same rules will apply.

This applies to 9-12 grade students who transfer from one school to another whether it is a member school or an affiliate member school.

- 6.4.6 The high school which a student elects for his/her first high school attendance, School A, shall be considered his/her choice. If for any reason the student transfers to another school, School B, he/she shall be ineligible for varsity level athletic competition for one

year from the date of enrollment in School B. This rule applies to interscholastic sports in which the student has participated at any level and/or grade during the 12 calendar months preceding the date of such transfer.

- 6.4.7 Except as provided in rules 6.4.1 through 6.4.6, all other students who transfer to a member school shall be eligible for athletic competition, except varsity level competition for one year from the date of enrollment, in School B, in interscholastic sports in which the student has participated at any level and/or grade during the 12 calendar months preceding the date of such transfer.

6.4.71 High School Closure and Charter Schools

If a high school is closed and students are forced to attend a high school elsewhere and the following year a charter school is granted to the school that was closed the students could return to the charter school and be eligible to participate in all WHSAA sanctioned activities at the beginning of the school year.

6.4.8 TRANSFER RULE - HARDSHIP

If, after determination of a student's eligibility with regard to transfer, the member school administrator determines that a potential hardship exists on the student as defined in Rule 6.4.81, the member school administrator may petition the Commissioner for a waiver of the transfer rules. Such cases must be filed under and in accordance with the proper form. The Commissioner will rule upon the petition for waiver on an individual case basis utilizing the hardship standard set forth in Rule 6.4.81. The Commissioner's ruling on hardship is subject to appeal to the Board of Directors as provided in Article XII of the WHSAA's Constitution.

6.4.81 HARDSHIP DEFINED

A hardship is an unforeseeable, unavoidable AND uncorrectable act, condition or event which causes the imposition of severe and nonathletic burden upon the student or his/her family.

1. This is to include the case of orphans, children of overseas military transfers, and children from broken homes.
2. No consideration for waiver may be granted if by doing so the action will result in a student who was ineligible in the sending school becoming eligible in the receiving school.
3. Hardship appeals must be processed by the principal of the receiving school on the appropriate WHSAA form and in concert with the specific guidelines.

6.4.82 DESCRIPTION OF PROCESS FOR WAIVER OF THE TRANSFER RULE.

1. Petition for waiver completed by the petitioning school
2. Petition forwarded to superintendent or principal of school from which student transferred
3. Waiver form completed by superintendent or principal of school student last attended
4. Completed form returned to the WHSAA office for a ruling from the Commissioner

6.4.9 INELIGIBLE TRANSFER STUDENT

- 6.4.91 Any student who deliberately falsifies information for eligibility purposes will lose one year's eligibility.

- 6.4.92 If by domicile outside Wyoming, a student is or would have become ineligible, he/she cannot become eligible by transferring to Wyoming.

- 6.4.93 A student who would be ineligible in a member school because of disciplinary reasons or expulsion, may not become eligible by transferring to another member school.

A student who is ineligible for any reason in a member school or affiliate member school may not become eligible by transferring to another member or affiliate member school.

6.5.0 SEMESTER REQUIREMENTS

- 6.5.1 A pupil shall not be eligible for more than four fall and four spring semesters, for a total of eight semesters. These semesters will be counted consecutively after the student enters the ninth grade. NOTE: If a student does not participate or is ineligible due to transfer, scholarship, etc., the semester(s) during that period shall be counted toward the total number of semesters possible.

- 6.5.2 Enrollment of 20 or more school days shall constitute a semester of eligibility when applied to participation in school activities.

- 6.5.3 Students who are forced to drop out due to injury or illness may present their situation to the Commissioner for special consideration.

- 6.5.4 Students ineligible because of scholastic deficiencies from the previous semester shall not be eligible until all grades have been verified by a school official on or after the last day of the current semester provided they have met requirements.

6.5.5 SEMESTER RULE - HARDSHIP

- 6.5.6 If after determination of a student's eligibility with regard to semester, the member school administrator determines that certain conditions beyond a student's control exist which create a hardship on the student, the member school administrator may petition the Commissioner for a waiver of the semester rule. Such cases must be filed under and in accordance with the proper form. The Commissioner will rule upon the petition for waiver on an individual case basis.

- 6.5.7 The semester hardship rule applies only to those students who, because of illness or other justifiable emergencies, are not able to complete a semester after twenty days of attendance. The Commissioner may waive portions of this rule for special cases.

6.5.8 DESCRIPTION OF PROCESS FOR WAIVER OF THE SEMESTER RULE

1. Petition of waiver (front side) completed by petitioning school
2. Petition sent to WHSAA office for a ruling from the Commissioner

6.6.0 PHYSICAL EXAMINATION, IMMUNIZATION AND PARENTAL CONSENT

- 6.6.1 Forms shall be signed by the physician and parents. Forms for married students over 18 years of age shall be signed by both the student and his/her spouse with the statement that the student may participate. See form A7 and A8 on the WHSAA web page (Forms Link) for the suggested physical examination form.
- 6.6.2 The earliest acceptable date for a current physical examination is May 1. Medical doctors, osteopaths, physicians assistants who are operating in a program approved and licensed by the Wyoming State Board of Medical Examiners, Licensed Advanced Practitioners of Nursing with a specialty area of either School Nurse Practitioner, Family Nurse Practitioner, Pediatric Nurse Practitioner or College Health Nurse, and Chiropractors are eligible to give physicals for the purpose of high school eligibility. In addition and unless the Wyoming State Board of Medicine denies the authority, any licensed health care provider whose state licensing board has verified that its practitioners are qualified and trained to give physical exams covering all the exam areas set forth on the recommended Physical Exam Form, which is attached to and made a part of the WHSAA Handbook (APPENDIX A), shall be eligible to give physicals for the purpose of high school eligibility.
- 6.6.3 No pupil shall be eligible to compete in any interscholastic sport or activity unless, within the current school year and preceding any practice, he/she shall have filed a certificate of physical fitness with his/her high school principal. The medical examination form is also a parental permission form and must be signed by the parent/legal guardian.
- No pupil shall be eligible to compete in any interscholastic sport or activity unless, within the current school year and preceding any practice, he/she shall have provided proof of immunization as defined in Wyoming Statute 21-4-309.
- 6.6.4 Activities that require yearly physical examinations are basketball, competitive marching band, cross country, football, golf, indoor track, skiing, soccer, spirit squad, swimming, tennis, track, volleyball, and wrestling.
- #### 6.7.0 THREE YEAR JUNIOR HIGH SCHOOL
- 6.7.1 Schools may certify a ninth grader as either a junior high or high school participant. A ninth grader whose ninth grade team's starting practice date is earlier than the WHSAA approved date cannot take part in the high school season at the conclusion of the junior high season. He/she may wait until the official WHSAA starting date, and after completing the mandatory number of practices, become eligible for athletic competition.
- 6.7.2 In schools which have a separate three year junior high, seventh and eighth grade pupils may compete with or against ninth graders on a junior high school team without forfeiting a year of eligibility for such participation.
- 6.7.4 Ninth grade students will be permitted to participate in activities that are sponsored by the WHSAA if they are attending a WHSAA member school (WHSAA Rule 6.1.3). Because Ninth grade students in a Wyoming public three year junior high school are counted in ADM toward WHSAA classification, those students may participate at the senior high level. Ninth graders who have competed on a high school team must attend the high school at which they competed as a ninth grader or they will be treated as transfer pupils who must comply with WHSAA Transfer Rule 6.4.0.
- 6.7.5 Junior high or elementary school pupils may participate in all music, FFA and FCCLA activities as members of a high school group without affecting their high school eligibility.
- 6.7.6 Eighth graders are not eligible to play with or against high school teams. If such is done, games are forfeited and the pupil loses a corresponding number of semesters of high school competition. EXCEPTION: Elementary pupils may participate in all music activities as members of high school groups without penalty.
- #### 6.8.0 GENDER IDENTITY PARTICIPATION
- If a State of Wyoming Statute establishes law regarding Transgender participation in sports and activities, the WHSAA shall adhere to and comply with such state Statute.

7.0.0 SPECIFIC SPORTS RULES AND REGULATIONS

- 7.1.0 The Wyoming High School Activities Association, in order to effectively provide equitable athletic opportunities for all students, offers a comprehensive athletic program.
- #### 7.2.0 OFFICIAL CONTEST RULES
- 7.2.1 The official contest rules and rule books as published by the listed organization have been approved by the Board of Directors for all interscholastic athletic contests in the following sports. Interscholastic competition shall be conducted using contest rules adopted by the Board of Directors and modifications or changes in sport rules are not permitted except those provided in the current WHSAA Handbook and approved by the Board of Directors.

7.3.0 DEFINITION OF ASSOCIATION CONTEST

Association Contest: An "Association Contest" is an athletic contest between teams representing two high schools which are members of the Association involving any group of students playing under the supervision of the school. All rules and regulations that apply to an Association Contest shall apply to any athletic contest engaged in by a member school. Any game or part of a game (scrimmage, practice, warm-up, tune-up, or similar activity), in which the students participate as a representative team of their school with any other team not a member of their school, shall be counted as a part of the season game limit for the school's athletic classification. The designation of a team/squad is dependent upon the majority of members on that team. For basketball that number is three, for football the number is six, for soccer the number is six, for softball the number is five and for volleyball the number is four.

7.3.1 DISRUPTION OF GAME/CONTEST DUE TO UNSAFE CONDITIONS

Officials and school personnel should always rule on the side of safety and postpone or delay any activity when unsafe conditions arise. If there is any doubt as to whether the contest should be suspended, it is always better to error on the side of safety.

The decision to suspend a contest lies with the game officials and the site administrator. If this involves outdoor weather conditions, teams should be sent to their respective locker rooms or buses and fans should be instructed to leave the stadium.

1. Resume play from the point of interruption at a later date.
2. Declare a winner based on the score at the time of interruption if the event is in the second half or by mutual agreement.
3. In football, if the score is tied, no winner will be declared.
4. In volleyball (games are 1-1 or 2-2) or basketball if the event is tied and it's not possible to complete the contest at a later date, the game or match will be canceled with neither team allowed to schedule a replacement contest.
5. In soccer, the match will go into the books as a tie and be treated accordingly in any tie breaking scenario.

7.3.2 USE OF DRONES DURING ASSOCIATION CONTESTS

The use of drones, in any capacity, is not allowed during any "Association Contest". Member schools may make a local decision as to how they wish to utilize drones during practice situations.

7.3.6 ROSTERS FOR SOCCER TOURNAMENTS

No more than twenty-two (22) players can be in uniform for any post season tournament contest. The twenty-two players whose names are entered on the official scorebook/roster for the first tournament contest, shall be the only players used for the entire tournament. Violation of this provision shall cause forfeiture as per WHSAA Rules 5.0.7 and 1.4.0 (Refer to Rule 7.3.0 for definition of a contest).

7.3.7 ROSTERS FOR SOFTBALL TOURNAMENTS

No more than eighteen (18) players can be in uniform for any post season tournament contest. The eighteen players whose names are entered on the official scorebook/roster for the first tournament contest, shall be the only players used for the entire tournament. Violation of this provision shall cause forfeiture as per WHSAA Rules 5.0.7 and 1.4.0 (Refer to Rule 7.3.0 for definition of a contest).

7.4.0 SEASON STARTING AND ENDING DATES

Each sport's season begins with the starting practice date for that sport and ends on the day following the member schools' involvement in that sport season. For example, if a member school's volleyball team is eliminated during its regional tournament, involvement for that member school in the volleyball season ends on the day following elimination. Students in their eighth semester are allowed to complete the season in which they are currently competing.

7.4.1 CULMINATING EVENTS

The WHSAA has full authority and responsibility for all culminating events. The WHSAA may delegate the administration of said events to other parties but reserves the right to determine the time, site, and other conditions which will be required to conduct the culminating events.

Culminating Event administration shall be subject to the direction of the WHSAA but will generally be delegated to Meet Directors. Issues may develop during the course of the Culminating Events which require actions to be taken to ensure the Mission, Values and Culminating Event Philosophy of the WHSAA is achieved. The WHSAA shall have the authority to take such action as it deems necessary to accomplish its objectives including discipline or ejection of participants, coaches, officials, schools and/or guests.

Coaches, managers, bus drivers, and cheerleaders must show their passes for entry. There will be no exception to this condition for entry at state events. If ribbons/passes are lost, arrangements must be made to purchase additional ribbons/ passes before entry will be allowed. Please do not ask for additional passes.

Students (whether spectators or participants) using an Administrator Pass must be accompanied by the cardholder.

- 7.4.7 By majority consent, regions by classification may decide their representatives to the state tournament in volleyball, wrestling, soccer, softball and basketball by another format. This format must be both on file in the WHSAA office and published in the league or regional by-laws before the start of the season during which that tournament is held.
- 7.4.8 Tie Breaking Procedure - Four teams involved
- Step 1: Do any of the tied teams have an advantage/disadvantage in head to head play. (Example: If two teams are 2-1 and two teams are 1-2, the 2-1 teams have the advantage.) If there is no advantage/disadvantage, then flip one coin per team until there is one odd team and that team is the lowest seed out of the tie.
- Step 2: In football and soccer, we will utilize their respective sports 3-way tie breaking procedures. In the other sports, look at head to head competition of the three remaining schools. Does one team have an advantage/disadvantage? If so, that team is either the top or bottom seed of those remaining three schools. If not, flip one coin per team until there is an odd team and that team is the lowest seed out of the tie.
- Step 3: Look at the head to head competition of the two remaining teams. If one team has an advantage, they are seeded higher. If not, conduct a coin flip with one team calling, and the coin toss winner is the higher seed.

7.5.0 BASKETBALL

Starting in the 2026-27 Season, the WHSAA will be adopting the use of a 35 second shot clock in all contests. In accordance with the NFHS Rule 2-14 (Shot Clock-State Association Adoption). The guidelines would follow the NFHS Rule 2-14.

- 7.5.1 The WHSAA recognizes four classifications in basketball. The schools with the enrollments of 700 and above shall be 4A, schools with enrollments from 210-699 shall be 3A, schools with enrollments from 110-209 shall be 2A, and schools with enrollments of 109 and below shall be 1A.
- 7.5.15 The basketball season begins with the first allowable contact day on Monday of WHSAA calendar week 21. There shall be NO CONTACT Thursday through Sunday of WHSAA Calendar week 21. The first allowable contest date is on Thursday of calendar week 23. The basketball season will end with the 3A/4A State Tournament on Saturday of WHSAA week 36.
- 7.5.2 No game shall be played except those scheduled by and entirely under the control of the competing schools or the WHSAA.

- EXCEPTION: Regular and post-season tournaments. NOTE: A player who participates in more than the limit shall be disqualified from further play that day. Entering a contest for one live ball period counts as a quarter of participation. As per WHSAA Rule 1.4.2. and 5.0.7 the contest in which a participant exceeds the six quarter limitation shall be forfeited.
- 7.5.31 Teams are to conduct pre-game and half-time warm-ups on their half of the court. If jogging or running is part of their warm-up drills, then it is to be confined to their half of the court to warm-up. Teams are not to run under the basket of the opposing team when entering the floor or anytime during warm-ups.
- 7.5.32 In any basketball contest a running clock shall be utilized when one team is 40 or more points ahead at the end of the first half. In all classes, when a team is ahead at half time by 40 points or more, or becomes 40 points or more ahead in the second half, the clock will run continually, except between quarters, time-outs, and when replacing an injured or disqualified player. This means the clock will run during a free throw unless the clock had to be stopped for one of the exceptions. After the aforementioned exceptions, the clock will be restarted when the official signals the clock to restart after a free throw attempt or when play is resumed by a throw-in.
- 7.5.4 REGULATIONS

WHSAA regional and state tournament games shall not be counted in the maximum number of games permitted each school. Participation in regular season tournaments shall count as two contests. Each member school should be limited to three regular season tournaments. To assist in reducing 9th and 10th grade games during the week, the tournament limit will not be imposed to those levels provided their tournaments are conducted on a Saturday. - 7.5.71 No more than twelve players can be in uniform for any tournament contest. The twelve players whose names are entered on the official scorebook for the first tournament contest, shall be the only players used for the entire tournament. - 7.5.80 SEEDING FOR THE REGIONAL TOURNAMENT:
- 7.5.81 All schools are eligible to participate in the regional tournament in order to qualify for the state championship series. When all schools in a regional play each other, the won-loss records will be used to determine the seeding. If this method is not used, item 7.5.82 must be used.
- 7.5.82 By majority consent, regions may seed their representatives to regional tournaments by another method with the prior approval of the Commissioner.
- 7.5.83 Any school that refuses to comply with one of the above methods, will be seeded last in their regional tournament.

7.6.0 CROSS COUNTRY

- 7.6.1 The WHSAA recognizes three classifications in cross country. The schools with the twelve largest enrollments shall be 4A, the next largest sixteen shall be 3A, and the remaining schools shall be 2A.
- 7.6.1.5 The cross country season begins with the first allowable practice on Monday of WHSAA calendar week 7. The first allowable contest date is on Thursday of calendar week 8. Each cross country runner is limited to 8 contest days per season. Cross Country participants will be allowed two (2) extra organized races (fundraisers, triathlons, fun-runs, etc.). These events must not fall under WHSAA sanctioning. These events cannot be mandated by the coach, and the students will be participating on their own and not representing the school. Catastrophic insurance will not cover these events. The State Meet shall not count toward the 8 day contest limit. The cross country season will end with the State Meet on Saturday of week 16.

- 7.6.84 Participants and coaches may walk the course prior to the meet during a time designated by meet management.
- 7.6.85 National Federation Rule 9-2 will be utilized to break team scoring ties.

7.7.0 BOYS FOOTBALL

- 7.7.10 The WHSAA recognizes three classifications of eleven-player football, one classification of nine-player football and one classification of six-player football. The schools with the ten largest enrollments shall be 4A, the next largest twelve shall be 3A, and the next largest fourteen shall be 2A, and the next largest fourteen shall be 1A 9-man. The remaining schools will be in the 1A 6-man classification.
- 7.7.11 Each player must have nine days of practice prior to the first contest.
- 7.7.12 The first three days of football practice for each participant are designed as a conditioning period. The first two days, players may wear helmets, mouth guards, football shoes, shorts, or sweat suits, and contact with football dummies and sleds are allowed, but no student to student contact is allowed. The third day, players may wear shoulder pads and jerseys and contact football dummies and sleds, but no student to student contact are allowed.

Practice Time: No single practice may exceed three hours, and the total practice time for days with multiple practice sessions may not exceed five hours.

***Note: Warm-up, stretching, speed and agility drills and cool down are all considered part of practice.

Meetings, film study, water breaks, rest breaks and injury treatment shall not count against the three- or five- hour limits. Nor shall weight training, voluntary conditioning and teaching period/walk through simulations without equipment, be considered practice for the purposes of the three-or five- hour limits.

With the wide-range of football programs in the state, there are several variables to consider when planning a practice. With player safety being our main emphasis, practice plans should reasonably limit overall exposure to multiple blows to the head and body. Variables to consider are team size and the number of reps in your drills that may affect an athlete's potential for injury. While the current level of knowledge keeps us from making specific and rigid rules concerning contact, there is a consensus that lessening the frequency of contact is likely beneficial to the athlete's overall health.

Practice Contact: Live Action and Thud are limited to no more than 3 practices per week and 90 minutes per week. During pre-season 120 minutes will be allowed.

***Note: When the main focus of a practice is designed as an intra-squad scrimmage, it will not count toward the live action contact time period. Shorter scrimmages incorporated into a regular practice will be counted toward the live action contact time. During pre-season twice-daily practices, only one session per day may include live action or thud.

Actions that require contact limitations:

Live Action: Drill is run in game-like conditions and is the only time that players are taken to the ground.

Thud: Drill is run at competitive speed through the moment of contact; no pre-determined "winner." Contact remains above the waist, players stay on their feet and a quick whistle ends the drill.

Actions that do not require limitations:

Control: Drill is run at assigned speed until the moment of contact; one player is pre-determined the 'winner' by the coach. Contact remains above the waist and players stay on their feet.

Bags: Drill is run against a bag or another soft-contact surface.

Air: Players run a drill unopposed without contact.

7.7.13 A player may participate in no more than eight quarters in a seven day period, nor in more than five quarters a day. Quarters are counted from Sunday to Sunday. Any player who participates in one or more downs in one quarter shall be charged with one quarter of participation. Exception: Quarters that players kick or punt only will not count towards the eight or five quarter limit. As per WHSAA Rules 1.4.1 and 5.0.7 the contest in which a participant exceeds the limitation shall be forfeited.

7.7.14 Summer football camps may be conducted at member school facilities and with member school equipment providing all of the following conditions are satisfied:

1. The camp must be held at a time during the WHSAA calendar weeks of 47 through week 3 for 4A schools and week 4 for 1A, 2A and 3A schools.
2. The camp must be staffed by high school football coaches certified by the Professional Teaching Standards Board. Guest clinicians are allowed but must work under the supervision of the camp director.
3. Medical and liability insurance coverage must be in place either by school, coach or parent or all of the aforementioned.
4. Any student who attends a contact team football camp must have completed three days of full practice (without pads) during the immediate ten days preceding the camp. The first two days, players may wear helmets, mouth guards, football shoes, shorts or sweat suits and contact with football dummies and sleds are allowed, but no student to student contact is allowed. The third day, players may wear previously mentioned items as well as shoulder pads and jerseys and contact football dummies and sleds, but no student to student contact is allowed. Weight room attendance does not meet this requirement. This requirement must be documented in writing by a high school coach certified by the Professional Teaching Standards Board.
5. The camp may only be held for a maximum of three days (excluding the conditioning requirement).
6. The local school district administration must give their approval.
7. A current physical examination form is required to be on file at the school of each student taking part in the camp as a participant. The form must be signed by the appropriate medical personnel and must include a signed parent and student waiver that recognizes the inherent dangers of participating in football.
8. An emergency medical release form must be on file with the camp directors for each participant.

Summer contact team football camps conducted at non-member school facilities are only required to meet conditions #1 and #4 as listed above.

7.7.15 The football season will have a first allowable practice date of the Monday of WHSAA Calendar Week 7 for 1A, 2A and 3A classifications. **4A classification will have a first allowable practice date of the Monday of WHSAA Calendar Week 6.**

1A, 2A, 3A and 4A football teams are allowed to play a zero week contest on or after the **Friday** of WHSAA week 8 and before the Friday of Week 9. A contest is a scrimmage or game between two member schools. If a team chooses to play a game it must meet all NFHS and WHSAA rules of play. This contest will not in anyway affect qualification for the culminating event playoff series for 1A, 2A and 3A, **but all contests in 4A will affect qualification for the culminating event playoff series.**

Scrimmages will be limited to 120 total plays per team. This total will include offense, defense, and special team plays. There may be more than two teams at a scrimmage, however, the 120 total plays is still in effect. A player must have nine (9) days of practice to participate in the scrimmage or game.

1A, 2A, 3A and 4A classifications are limited to one zero week contest and eight regular season contests, excluding the culminating event playoff series. The State Championships will be on the Friday and Saturday of WHSAA Calendar Week 19.

7.7.16 The overtime procedure that will be followed appears in the National Federation Football Rule Book.

7.7.17 In any football contest a running clock shall be utilized when one team is 45 or more points ahead at the end of the first half. In all classes, when a team is ahead at half time by 45 points or more, or becomes 45 points or more ahead in the second half, the clock will not stop on:

1. Out of Bounds
2. Incomplete Passes
3. First Downs
4. Change of Possession (including touchbacks)

The clock will stop as required by rule on:

1. Time-outs
2. Penalties
3. Between Quarters
4. Scoring Plays
5. P.A.T.s
6. All other situations as per rule

If the point differential becomes less than 45 points, continue running clock.

This use of the rule does not eliminate the use of National Federation Football Rule 3-1-3

7.7.20 At the end of each football season, all helmets must be evaluated. Those helmets not in good condition must be reconditioned or replaced.

7.7.21 Each school shall be responsible for providing its own headphones if the host school does not have the equipment for both teams. The VISITING school shall inform the HOST school no later than the Tuesday of the week of the contest whether or not it will NEED HEADPHONES. EITHER TEAM'S DECISION TO NOT USE HEADPHONES WILL NOT AFFECT THE OTHER TEAM'S DECISION.

The host school shall also provide the visiting school with press box/crows nest space if such is being utilized by the host school.

7.7.22 Schools are required to construct a barrier along both sidelines of their football contest field(s) from end zone to end zone.

7.7.30 TIE BREAKING CRITERIA TO DETERMINE STATE PLAYOFF SEEDING

1. Two Way Tie For First Place Or A Seed

- a. If two teams tie for first place or a seed, the winner of the common game will be declared first place or the higher seed.

2. Three Teams Tied For Available Seeds

- a. If one team (A) defeated the other two teams (B and C), team A will be declared highest placed seed.
- b. The winner of the regular season game between B and C will be declared the second highest seed.
- c. If one team (A) lost to both of the other teams (B and C), A will be the lowest seed of the three tied teams. The winner of the regular season game between B and C will be the highest seed of the three tied teams with the loser declared as the second highest seed of the three tied teams.
- d. If the tie still exists, compare the head to head result of the tied teams with the highest-ranking non-tied team. Continue through the league standings until the tie is broken.
- e. If the tie is broken by criteria 2d, the winner of the head to head contest between the two remaining teams is seeded higher.
- f. If a tie still exists, then positive and negative points will be used to determine the seeding (a maximum of 12 positive or negative points may be accumulated in any one contest). Once one team is separated by the points, the winner of the head to head contest between the two remaining teams is the higher seed.

Example:

| Team | Score | Points |
|------|-------|--------|
| A | 42 | = +12 |
| B | 0 | = -12 |
| A | 7 | = -3 |
| C | 10 | = +3 |
| B | 21 | = +7 |
| C | 14 | = -7 |

Final Seeding based on +/- Points

A (+12 -3 = +9) would be the 1 seed, the winner of the head to head contest between B & C will be the next higher seed.

If there is a forfeit, the winner will receive +12 points and the loser will receive -12 points for the contest.

- g. If the tie is still not broken and three seeds remain:

- i. Coin flip - Odd man or team is the lowest seed of the tied teams

- ii. Winner of the common game between the remaining two teams is highest seed and the loser is the second highest seed of the tied teams.

3. Four Teams Tied Seeding – see WHSAA Rule 7.4.8

7.7.40 CULMINATING EVENT SERIES

A culminating event series will start on week 17 of the WHSAA calendar with 3 weeks of playoff competition culminating with the five classification State Championships.

Championship Series by classification:

4A

The top 8 teams will advance and be seeded in the first round of the playoffs based on their regular season records. The higher seed will host the lower seed the first two rounds of the playoffs as shown below.

The Championship game will be played in Laramie at the University of Wyoming's War Memorial Stadium, with the higher seed being the home team. The number one seed is given based on the conference that was the home team in the championship game the previous year. The opposite conference champion of the home team from the previous year will be the number one seed.

7.7.41 All schools will play the schedule set up by the WHSAA Office. Any school that refuses to comply with the schedule will eliminate itself from playoff consideration.

7.7.42 THE FOLLOWING GUIDELINES WILL BE FOLLOWED FOR THE FOOTBALL PLAYOFFS:

7.7.43 Twenty percent of the adjusted gross income will go to the host school, with the balance to the WHSAA. The programs and concessions will be assigned to an organization of the host school. The WHSAA will provide a memorabilia vendor for all state championship football contests.

7.7.44 The WHSAA will provide officials and have full authority and responsibility for the activity.

7.7.45 Baden footballs will be available at all playoff and State Championship Football games. As per past procedure, each team on offense will have their choice of any brand football.

7.7.76 WHSAA - UW FOOTBALL

Purpose

To avoid conflicts between high school football play-offs and the University of Wyoming home football games.

The parties agree to work together to coordinate the three week playoff period. When UW has a home football game during the three week period, the WHSAA will work with the member schools to limit the number of conflicts of playing on the same day.

7.8.0 GOLF

- 7.8.1 The WHSAA recognizes three classifications in golf. The schools with enrollments OF 700 and above shall be 4A, schools with enrollments from 210-699 shall be 3A, and the schools with enrollments from 209 and below shall be 2A.
- 7.8.1.5 The golf season begins with the first allowable practice on Monday of WHSAA calendar week 6. The first allowable contest date is on Wednesday of calendar week 6. Each golfer is limited to 10 contest days per season (fall and spring). A contest is defined as a high school sanctioned event that takes place during the season. Golf participants will be allowed two (2) extra organized events (club championships, fundraisers, regional tournaments, etc.) These events must not fall under WHSAA sanctioning. These events cannot be mandated by the coach, and the students will be participating on their own and not representing the school. Catastrophic insurance will not cover these events. The State Meet shall not count toward the 10 day contest limit. The fall golf season will end with the State Meet on Saturday of week **11**. The spring golf season begins on week 39 and ends on week 46. Member schools may participate in one day golf meets throughout the Spring season. One two-day culminating event is allowed during the Spring season.
- 7.8.2 The coach or school representative shall accompany participants to all meets.
- 7.8.3 Each competitor is expected to be neat in appearance during the entire time of his/her play. Headsets, Walkmen, Ipod and other such paraphernalia will not be allowed during any competition.
- 7.8.4 Students, while members of the golf team, may participate with outside affiliations as long as permission has been given by the local school district.
- 7.8.41 Golf award limits will be the same as those allowed in the rules of the USGA. (No prize money. Merchandise up to a retail value of \$750)
- 7.8.60 GOLF MEETS
- 7.8.61 The USGA rules shall prevail in the state meet, except as modified by local rules.
- 7.8.62 The Commissioner shall assign a Tournament Director who will be responsible for ruling on all disputes. The Tournament Director may appoint a committee of not more than three people to assist.
- 7.8.63 Whenever a school moves into or out of a different classification, the WHSAA Commissioner will adjust the State Site Rotation for the classifications involved. Should a school request to be added to the rotation, the Commissioner will make a recommendation to the WHSAA Board as to where the school should be placed in the rotation.
- State golf site rotations are located on the WHSAA website under "State Events." 3A and 4A state golf requires an 18 hole course. All expenses, **excluding practice round fees**, must be included in the proposal process. Host sites will incur all costs associated with hosting the state golf championship. Schools may not be charged to assist in covering host sites' costs. Host site must provide a minimum of one adult monitor per hole.
- The state meet will consist of 36 holes of medal play; eighteen on Friday and eighteen on Saturday. Should weather become an issue, the WHSAA Commissioner or designee will work with the Tournament Director and/or golf pro of the host site to evaluate options to complete the tournament. The proper action will depend on the circumstances in each case. Depending on the weather forecast, the tournament may be moved to the following week or the practice round may be eliminated and the tournament will start on Thursday, with Saturday being used as a backup in case the tournament could not be finished on the previous two days. Should this option be utilized, no one will be allowed to have a practice round. However, once the schools have all arrived at the site and the weather changes to where 36 holes cannot be completed, a minimum of 18 holes will determine the individual and team placing. If 27 holes can be completed, as long as each gender plays the same nine holes, the 27 hole total will be used.

- 7.8.76 SPECTATORS ON THE COURSE DURING TOURNAMENT PLAY
1. As spectators enter the tournament venue they will be given a list of Wyoming High School golf "spectator guidelines" and be required to sign-in (indicating they understand the rules and risk). **Lanyards will be made available with policy so spectators can visibly display that they have agreed to the guidelines.** This will be done on all tournament days. Coaches are expected to share these guidelines with spectators and fans from their school.
 2. No spectator carts are allowed on the course with the following exception: If a spectator has a disabling condition they may rent a cart from the pro shop but will not be allowed to carry another spectator in that cart. 7.8.78 PLAYING PARTNERS FROM THE SAME SCHOOL

During a state tournament, no two individuals from the same school will be allowed to compete in the same foursome of play. If there is a tie in score from players from the same school, the order in which players will be assigned in the second round will be determined by the coaches seeding them on their team list. This rule does not have to be applied to the golfers in the last ten places or the 2A golfers at the discretion of the tournament director and rules committee.

7.8.80 A golf meet shall not be held during the fall season at the site of the state golf meet for that classification for that year. Exception – The 2A school hosting state golf may host one invitational event during the fall season.

7.8.81 Coaches Supervising On Course of Play

7.10.0 NORDIC SKIING

7.10.11 The WHSAA recognizes one classification in Nordic skiing. The Nordic Ski season begins with the first allowable practice on Monday of WHSAA calendar week 20 and ends with the State Meet on Friday and Saturday of WHSAA calendar week 34.

7.10.12 Students, while members of the high school ski team, may participate with outside affiliations as long as permission has been given by the local school district.

7.10.20 REGULATIONS

7.10.21 Boys will not compete against girls nor will girls compete against boys, with the exception of mixed format for relays.

7.10.22 Each school may enter no more than one Nordic varsity and one Nordic JV team. Moreover, a contestant can only be entered on one team.

7.10.24 Each skier is limited to 12 contest days per season. A contest is defined as any competition, school or non-school, that takes place during the season. Examples are included, but not limited to: USSA Nordic Ski Meets. Athletes may compete in up to four additional race days if they are independent of the WHSAA ski program and require no additional funding from schools. The State Meet shall not count toward the 12 day contest limit. A Nordic Ski meet shall not be held during the season at the site of the State Nordic Ski Meet for that year. If a school is unable to host the meet at their local area, an alternative site may be chosen by the host school. The host school will be responsible for providing meet help, course preparation and medals.

7.10.27 Final team standings may be announced on the basis of combined point totals for each of the following teams:

1. Nordic Boys
2. Nordic Girls

7.10.28 Nordic Meet Format

1. The state meet format shall consist of one classical race and one freestyle race. The distances of these races shall be 5 and 10 kilometers. These distances will be alternated between the classic and freestyle technique on alternating years. This will begin for the 2015 state meet with a 5K Classic and a 10K Freestyle. The 2016 state meet will have a 5K Freestyle and a 10K Classic. This alternating pattern will then be continued with even and odd numbered years. Each race shall be scored separately and the two scores combined to arrive at cumulative team scores.
2. Regular season meets may vary in format, scoring, and technique with these variables being set at the annual scheduling meeting.
3. Race start times will be determined by the Meet Director.

7.10.30 SCORING

1. The Nordic Relay will be scored as follows: score number of varsity teams present times 3 and drop 3 points for each place.
2. In individual races, points will be given each place in descending order by giving first place 30 points.
3. A maximum of 5 finishers from each school will constitute the team score for that school.
4. Places of all individuals of a team over the maximum of 5 shall be disregarded.

7.10.31 SEEDING

1. It is the coach's responsibility to get his/her seeds to the hosting school no later than Wednesday at 12:00 noon for the Friday race. If possible, both seeds should be turned in by the Wednesday deadline. If seeds are not received by the deadline, the team in violation may be placed at the end of the race.
2. Seed run order is to be randomly drawn by host school for each race including the State Meet for both boys and girls. This is to be kept confidential until all seeds have been presented.

7.10.32 POSTING OF RESULTS

1. It is recommended that a blackboard or similar communicating device be used in the finish area to post the results.
2. "Unofficial results" will be posted as soon as possible after each race and marked as such.
3. Results become "official" 30 minutes after the posting of the final race if there are no protests.
4. It is the host schools responsibility to email (provide) results to the WHSAA, the Casper Star-Tribune and wyopreps.com.

7.10.33 PROTESTS

1. All protests will be submitted to the meet director in writing prior to the race being declared official.
2. A designated race jury consisting of three (3) uninvolved high school coaches will meet at a predetermined location to discuss all protests and finalize results.
3. The decision of the jury is final.

7.10.34 NORDIC RACE CRITERIA

1. Total distance for 2-day competition shall not exceed 20km. No race shall exceed 15km.
2. Race distances shall be set at annual scheduling meeting. If race distance must be changed, changes and rationale for change must be posted at least 2 hours before race starts.
3. It is recommended that the classic technique be on the second day of the meet.
4. Bibs will be assigned in numerical order according to the race draw.

7.10.35 DUTIES OF THE JURY

The jury must ensure that the competition is organized and carried out according to the WHSAA rules. The responsibilities begin when the jury is appointed and are ended when protests from the final competition have been decided.

The jury must clarify and decide: whether a competition shall be postponed, interrupted or cancelled. With difficult weather conditions (e.g., strong wind, high air humidity, heavy snowfall, or high temperature) the Jury may, in consultation with the team coaches of the participating teams and the medical authority responsible for the competition, postpone or cancel the competition. Decisions of the Jury are made by a majority vote.

7.10.36 DESCRIPTION OF THE NORDIC COMPETITION COURSES

Nordic courses must be laid out so that they provide a technical, tactical and physical test of the competitor's qualifications. The degree of difficulty should be in accordance with the level of the competition. The course should be laid out as naturally as possible to avoid any monotony, with rolling undulating sections, climbs, and downhill sections. Where possible, the course should be laid out through woodland.

Rhythm should not be broken by too many sharp changes in direction or steep climbs. The downhill sections must be laid out so that they create a challenge to the competitors. At the same time it should be possible to ski the course even under fast conditions.

In principle, the Nordic course should consist of:

- One-third up hills defined as climbs with a gradient between 9% (1:11) and 18% (1:5.5) with height differences over 10 meters plus some short climbs steeper than 18%.
- One-third undulating, rolling terrain, utilizing all terrain features with short climbs and downhills (with height differences of 1-9 meters).
- One-third varied downhills, demanding versatile downhill techniques.

At WHSAA Nordic competitions the courses may only be used in the direction established for the competition.

7.10.37 TECHNIQUE DEFINITIONS

1. Classical technique includes the diagonal techniques, the double poling techniques, herringbone techniques without a gliding phase, downhill techniques and turning techniques. Single or double skating is not allowed. Turning techniques comprise steps and pushes in order to change directions.
2. Free technique includes all Nordic skiing techniques.

7.10.38 PREPARATION OF THE COURSE

The following are recommendations:

1. Pre-Season Preparation

Rocks, stones, roots, stumps, brush and similar obstacles should be removed. The course must be prepared before the winter so that they can be raced even with very little snow. Sections of the course that have drainage problems must be corrected. The summer preparations should be of a standard which allows for carrying out of competitions with approximately 30 cm of snow. Special attention must be given to downhill sections and the need for banking the curves.

2. General Preparation for the competition

The course should be completely prepared with mechanical equipment. If heavy machines are used, they should follow the original configuration of the ground as much as possible in order to preserve the undulations of the terrain.

The course must be prepared to the recommended width according to the format of the competition. The course must be prepared so that competitors can ski and pass unobstructed. On slopes where the trails traverse, they must be wide enough to allow for good preparation.

The course must be completely prepared before the official training, correctly marked and with the kilometer signs in place. The testing tracks should have the same preparation as the competition course.

The same conditions must be ensured for all competitors during the competition. If it is snowing or blowing hard, a sufficient number of qualified forerunners and/or course-preparing equipment must be available and utilized in order to maintain constant conditions. This can also include a cooperation between the organizer and coaches from the participating schools in order to utilize qualified forerunners. An action plan has to be prepared.

All use of artificial means in order to improve the glide on the snow are forbidden. In special cases, use of chemicals to preserve a solid surface is allowed.

3. Preparation for Classical Technique

For individual competitions in classical technique a single track should be set along the ideal skiing line of the competition course. The track is normally set in the middle of the course except through curves. In curves there should only be set track where the skis can glide unrestrained in the set track. Where the curves are too sharp and the speed is considered to be too high to stay in the track, the track should be removed. To decide the proper course preparation and track setting, the best competitors and highest possible speed must be taken into consideration.

In curves, the track is to be set close to the fence to avoid the possibility of skiing between the track and the fence.

The ski tracks must be prepared so that ski control and gliding are possible without a lateral braking effect by any parts of the bindings. The two tracks should be set 17-30 cm apart, measured from the middle of each track. The depth of the track should be 2-5 cm, even in hard or frozen snow.

Where two tracks are used, they should be 1.00-1.20 meters apart measured from the middle of each pair of tracks.

The last straight 100 m will be the finish zone. The beginning of this zone must be clearly marked with a colored line. This zone is normally separated into 3 corridors with set tracks. They must be clearly marked and highly visible but not interfering with the skis.

4. Preparation for Free Technique

For individual competitions in free technique, the course must be well packed for a width of at least 4 meters. On downhill sections where the tracks are set they must follow the ideal line of the course.

The last straight 100 m will be the finish zone. The beginning of this zone must be clearly marked with a colored line. This zone is a minimum of 9 meters wide and is separated into 3 corridors that must be clearly marked and highly visible but not interfering with the skis.

5. Preparation for Pursuit Competition

For Pursuit competitions the course must be well packed for a width of at least 6 meters. The start area must be organized using 2-5 start lanes. The width of each lane must be a minimum of 2 meters.

6. Preparation for Mass Start Competitions

The Mass Start should have 100 meters of parallel tracks where the competitors are forbidden to leave their tracks. Then there will be a zone where the course converges into a course width allowing three competitors to ski side by side without interference over major parts of the course. There must be no factors along the course that cause congestion.

The marking of the course must be so clear that the competitor is never in doubt where the course goes.

Forks and intersections on the course must be clearly marked by visible signage, and fences must be placed across unused parts of the course.

On courses up to 15 km one refreshment station must be provided.

Toilets must be installed for competitors near the stadium. They must be easily reached from the stadium.

Notice boards must be used for race information and unofficial results.

7.10.39 RELAY EXCHANGE ZONE

The relay exchange zone should be a rectangle 30 meters long and sufficiently wide, clearly marked and roped off and located on flat or smoothly rising ground near to the start and finish.

7.10.40 COLD WEATHER PRECAUTIONS

There are three main factors to be considered by the jury regarding cold weather safety: the temperature, the duration of the exposure and the clothing and other protection against cold weather. These factors, together with any other relevant information such as the wind chill factor, must be taken into consideration when a decision is made regarding cold weather.

Between minus 15 and minus 25 C

If the temperature level is forecast to be between minus 15 and minus 25 C at any point on the course, recommendations regarding cold weather protection should be made available to the participants. Under such conditions it is the responsibility of the participants to seek the information and to follow the recommendations given by the organizer.

Minus 25 C and below

If the temperature in a major portion of the course is minus 25 C or below, the competition shall be delayed or cancelled.

Warm Weather Precautions

If the temperature is forecasted to rise above 5 degrees C during the course of the competition and exposure to sunshine is expected, recommendations must be given to competitors concerning clothing, skin protection and the need to consume adequate liquid before and during the competition.

7.10.45 STATE MEET CONSIDERATIONS

1. Qualifications for participation in the state meet:
 - a. Finish the season in good standing as a member of the affiliated school team.
 - b. Student participants earn 1 point per day for starting a WHSAA regular season race. Students must earn 6 points to qualify for participation at the State meet.
 - c. Students with extraordinary circumstances such as serious injury may petition the Commissioner for waiver of the rule.
2. Training Opportunities
3. Timing at State Meet should be a fully automated format.

7.10.46 COMPETITORS DURING THE COMPETITION

Responsibilities

Skiers are expected to race in school approved uniforms in point and qualifying races to reflect the appropriate spirit of competition. Athletes will be expected to conduct themselves in a sportsmanlike manner.

The competitor is responsible for arriving at the start and starting at the correct time. Competitors must follow the marked course from start to finish and must pass all controllers and behave in a fair manner towards other competitors. They have to cover the whole distance on their skis using only their own means of propulsion. Help from pacemakers or pushing is not allowed.

In all competitions poles may be changed. One ski may be changed if the ski or the binding is broken or damaged. The equipment failure must be proven to the Jury after the competition. Waxing, scraping or cleaning of the competitor's skis during the competition is forbidden. Exception: in classical technique, competitors may scrape their skis to remove snow and ice, and add wax if necessary. The competitor must do this outside the track without help from any other people.

A competitor who is overtaken must give way on the first demand, except in sprint competitions and in marked zones. This applies in classical technique courses even when there are two tracks and in free technique courses when the skier being overtaken may have to restrict his skating action. When overtaken, competitors must not obstruct each other.

Once the competitors enter a zone where corridors are marked they must remain in their chosen corridor unless they are overtaking another competitor.

In Pursuit, Mass start and Relay competitions, competitors or teams, who are lapped, have to abandon the competition, but will be ranked in the results. The competitors must comply with the instructions of competition officials.

7.10.47 OFFICIALS AND OTHERS DURING THE COMPETITION

For order and control on the courses the following principles apply:

1. While giving intermediate times and information to competitors, officials coaches and others are not allowed to run more than 30 meters beside the competitors
2. While doing this work, officials and others can not obstruct competitors

Wax testing and warming up on the ski competition course must always be done in the competition course direction. Anyone testing skis on the competition course must consider the safety of others on the course and the course preparation. Electronic timing devices used for testing skis will not be allowed on the course during the competition.

7.10.48 MARKING OF SKIS (OPTIONAL AT STATE MEET)

Procedure

For purposes of control, both skis are marked immediately before the start. The competitor must come to the official marking place in person and in due time wearing his starting bib.

7.10.49 STARTS, TIMING, FINISH & RESULTS

Starts

A competitor who starts late must not interfere with the start of others.

Mass Start Procedure

Starting positions will be determined by a draw. Each school will draw one lane. Skiers must stay in their lane through the end of the start zone.

Timing

Times will be measured in full tenths of a second. For example, 38:24.38 becomes 38:24.3.

Finish

When using hand timing, the time is taken when the competitor's first foot crosses the finish line.

In case of electronic timing, the time is taken when the contact is broken. The measuring point of the light or photo barrier must be at a height of 25 cm above the snow surface.

The finish referee is responsible for keeping a list of the order in which the competitors cross the finish line. He/she gives this list to the chief of timekeeping.

Results

The results are calculated by taking the difference between the finish and start times. If two or more competitors have the same time, they shall have the same placing on the result list.

The unofficial result list will be distributed and posted on the official notice board as soon as possible after the completion, with the time of its publication noted. The Jury must deal with any infractions or protests within 30 minutes of the posting of the 2nd race. The result list becomes official immediately following the Jury's decision.

7.10.49.5 Whenever a school moves into or out of a different classification, the WHSAA Commissioner will adjust the State Site Rotation for the classifications involved. Should a school request to be added to the rotation, the Commissioner will make a recommendation to the WHSAA Board as to where the school should be placed in the rotation.

The State Nordic State Site Rotations may be found on the WHSAA web site under "State Events".

7.10.5 ALPINE SKIING

7.10.50 The WHSAA recognizes one classification in Alpine skiing. Alpine Skiing starts with the first practice on Monday of WHSAA Calendar Week 21 and ends with the State Meet on Friday and Saturday of WHSAA Calendar Week 35.

7.10.51 Students, while members of the high school ski team, may participate with outside affiliations as long as permission has been given by the local school district.

7.10.58 Each skier is limited to 12 contest days per season. A contest is defined as any competition, school or non-school, that takes place during the season. Examples are included, but not limited to: USSA Ski Meets. Athletes may compete in up to four additional race days if they are independent of the high school racing program and require no additional funding from schools. The State Meet shall not count toward the 12 day contest limit. Each school may host one meet during the competitive season. If a school is unable to host the meet at their local area due to snow conditions or other extenuating circumstances, that school which is involved can either:

1. trade dates with another school
2. host at another site
3. reschedule the meet
4. cancel the meet as a last option.

In the event the meet is postponed, a first and second make-up date will be built into the schedule and the postponed meet changed to the first available date. All coaches and athletic directors of the competing schools will be notified at the earliest possible time.

7.10.69 RERUNS

1. Prerequisites

A competitor who is obstructed while racing must stop immediately after the incident takes place and apply to any race jury member or course official for a rerun. The competitor must make his/her way to the finish area along the side of the course. In special situations (e.g., in case of missing gates or other technical failures), the jury and/or race official may order a rerun.

2. Grounds for Interference

Grounds for interference may include:

- a. blocking of the course by an official, spectator, animal, or other obstruction
- b. blocking of the course by a fallen competitor who did not clear the course soon enough
- c. objects in the course such as a lost ski pole or ski of previous competitor
- d. activities of the first-aid service that obstruct the racer
- e. absence of a gate knocked down by a previous competitor and not promptly replaced
- f. malfunction of the timing equipment

3. Validity of a rerun

In the case where a jury member or course official is unable to judge the justification for a requested rerun, they may grant a provisional rerun so as to avoid a delay for the competitor. This rerun will be valid only if it is confirmed by the jury.

If the competitor was already disqualified before the incident entitling him/her to a rerun, the rerun is not valid.

The definitively approved run remains valid even if it proves faster or slower.

If the claim for the rerun is shown to be unjustified, the competitor is disqualified.

4. Start time of a rerun

The competitor should immediately report to the assistant starter and be placed in the start sequence at the earliest possible time.

7.10.70 PROTESTS

- 3. In addition, any other requested or offered evidence, such as videotape, photos, films, etc., should be checked.
- 4. At the vote on protest, only the Jury members are to be present. The Chief of Race chairs the proceeding. Protest forms are to be signed by all voting members of the Jury. The decision requires a majority of all voting members of the Jury, not just of those present. In the case of a tie, the Chief of Race's vote is decisive.
- 5. The decision of the Jury will be final.
- 6. There will be no further appeal.

- b. Loss of a ski will result in immediate disqualification for both slalom and giant slalom, with the exception of the last two gates, which may be finished on one ski, or with both feet in case of a fall in the immediate finish area.

7.10.74 COURSES

1. SLALOM

COURSE SETTINGS

Vertical drops should be between 100 meters and 200 meters.

GATES

Single pole slalom must be used. Single pole slalom has no outside pole, except for the first and the last gate, a delay gate and combinations (hairpin, vertical). Where there is not outside pole, both feet and ski tips must have passed the turning pole on the same side, following the natural race line of the slalom. The natural race line is an imaginary line from turning pole to turning pole, which the racer has to cross. If the racer has not correctly passed the natural race line, then he/she has to climb back up and pass around the missed turning pole.

Consecutive gates must alternate in color (red and blue).

Maximum distance between turning gates: 12m

Recommended distance between turning gates: 8.5 – 10.5m

Recommended distance between poles in combinations: 4.5 – 6m

Recommended course length: 40 – 60 direction changes

COURSE:

The ideal slalom course must include a series of turns designed to allow the competitors to combine speed with neat execution and precision of turns.

The slalom course should permit the rapid completion of all turns. The course should not require acrobatics incompatible with normal ski technique. It should be a technically clever composition of figures suited to the terrain, linked by single and multiple gates, allowing a fluent run, but testing the widest variety of ski techniques, including changes of direction with very different radii.

Gates should never be set only down the fall line, but so that some full turns are required, interspersed with traverses.

PREPARATION OF THE COURSE:

Slalom competitions must be raced on a slope that is as hard as possible.

WIDTH

The course should normally be 40 meters wide if two runs are set on the same terrain.

NUMBER OF GATES AND COMBINATIONS OF GATES:

Slalom must contain horizontal (open) and vertical (closed) gates as well as vertical combinations consisting of three to four gates and at least two hairpin combinations.

SETTING

In setting a slalom, the following principles should be observed:

- Avoid monotonous series of standardized combinations of gates
- Gates that impose too sudden, sharp braking should be avoided, as they spoil the fluency of the run without increasing the difficulty a modern slalom should have
- Before difficult combinations of gates, it is advisable to set at least one gate which allows the competitor to ski through the difficult combination under control
- It is not advisable to set difficult figures, either right at the beginning or end of the course. The last gates should be rather fast, so that the competitor passes the finish at a good speed
- The last gate should not be too close to the finish. It should direct competitors toward the middle part of the finish.

2. GIANT SLALOM

COURSE SETTINGS

Vertical drop should be between 200 meters and 450 meters.

GATES

A giant slalom gate consists of 1 single GS gate/panel.

The banners are to be approximately 75 cm wide and 50 cm high. They are fastened between the poles so that the lower edge of the flag is approximately 1 meter above the snow and must be capable of tearing or breaking away from the pole.

Single Gate Giant Slalom must be used. Single gate giant slalom has no outside gate, except for the first and the last gate, and delayed gates. Where there is no outside gate, both feet and ski tips must have passed the turning pole of the turning gate on the same side, following the natural race line of the Giant Slalom. The natural race line is an imaginary line from turning pole to turning pole, which the racer has to cross. If the racer has not correctly passed the natural race line, then he/she has to climb back up and pass around the missed turning pole.

Consecutive gates must alternate in color (red and blue)

Maximum distance between turning gates: 30m

Recommended distance between turning gates: 22 – 26m

Recommended course length: 30 – 40 direction changes

The giant slalom should be set so that the number of gates is equal to 11-15% of the vertical drop in meters. A slope of 300 meters should have from 36 to 45 gates.

COURSE

The terrain should preferably be undulating and hilly. The course should normally have a width of approximately 30 meters.

SETTING

In setting a giant slalom, the following principles should be observed:

- Both runs can be set on the same course, but the second run must be re-set
- The skillful use of the ground when setting a giant slalom is, in most cases, even more important than for slalom, since combinations play a less important role owing to the prescribed width of the gates and the greater distances between them. Therefore, it is better to set mainly single gates, while exploiting the ground to the utmost. Combinations can be set, but mainly on uninteresting terrain
- A giant slalom consists of a variety of long, medium and small turns. The competitor should be free to choose his own line between the gates. The full width of a hill should be used whenever possible.

3. USE OF SLALOM POLES

- All poles used in the alpine disciplines are described as slalom poles and are subdivided into rigid poles (bamboo or polycarbonates) and polycarbonate (plastic) flex poles.
- A slalom gate consists of two slalom poles, flex poles must be used for turning gates, flex poles are suggested to be used for target gates, rigid (bamboo or polycarbonate) poles may be used.
- A giant slalom gate consists of 4 slalom poles and 2 flags, 2 flex poles may be used for the turning gates, but a flex and a fixed polycarbonate pole combination is acceptable. Flex poles are suggested for the target gates, rigid (bamboo) poles may be used.
- Dye, chalk, or other marking substance will be used to give visible reference of a gate in snow, due to gate loss or breakage.

4. COURSE SETTERS

- All courses must be set by a USSCA certified course setter or certified high school coaches and accepted by the jury.
- It is required, that a host school coach will set only one course per day. It is necessary that other qualified setters are utilized to vary setting styles and challenge multiple skier abilities.

5. INSPECTION OF COURSES

- Competitors are allowed to study the course after its final setting, either by climbing on skis or by slowly skiing down alongside of the course. The Jury decides the method of inspection. Skiing through a gate or practicing turns parallel with the course may result in disqualification. Linking two or more turns within the race arena will result in disqualification.
- Competitors must visibly carry their start bibs.
- Competitors will be given one hour for inspection of courses which may be cut to no less than 30 minutes upon jury approval.

7.10.75 PASSAGE OF GATES; CORRECT PASSAGE:

A gate has been passed correctly when both the competitor's ski tips and boots have passed across the gate line. If a competitor loses a ski without committing a fault within two gates of the finish, the tip of the remaining ski and both boots must have passed the gate line. This rule is also valid when a competitor has to climb back up to a gate.

The gate line in slalom and giant slalom is the imaginary shortest line between the turning gate and the outside gate.

In the event that competitor removes a pole from its vertical position before both the competitor's ski tips and boots have passed the gate line, the ski tips and boots must still pass the original gate line (marking in the snow). Once a competitor crosses the finish line in any manner the run is finished.

7.10.76 STATE MEET REGULATIONS

- No JV competition at State Meet.
- 6 entries from each school (girls and boys), plus 1 alternate per gender.
- The host school will determine the number of extras to be run.
- The top 5 skiers from each school will be scored for team points.

- Boys and Girls State Team Champions will be determined as a result of the points accumulated during the State Meet.
- It is recommended that a Technical Delegate be used at the State Meet.

7.11.0 SOCCER

7.11.0 The WHSAA recognizes two classifications in soccer. The schools with enrollments of 700 and above shall be 4A, schools with enrollments from 699 and below will be 3A.

7.11.2 Soccer matches may be played on a regulation football field.

7.11.25 The soccer season begins with the first allowable practice on Monday of WHSAA calendar week 36. The first allowable contest date is on Thursday of calendar week 37. The WHSAA State Tournament will be Thursday, Friday and Saturday of WHSAA week 46.

7.11.3 Soccer Team and participant limitations:

Teams shall be limited to fourteen regular season contests. A 160 minute jamboree shall count as two contests and regular matches involving two teams shall count as one. Participation in regular season tournaments shall count as two contests. Each member school should be limited to one regular season tournament. A player may not participate in more than three halves per day. Exception: When two contests at the same level are scheduled in one day, then four halves are permitted. Overtimes are considered part of the second half. Entering a contest for one live ball period counts as a half of participation. As per WHSAA rule 1.4.2, the contest in which a participant exceeds the limitation shall be forfeited.

7.11.31 Soccer Showcase

A player may participate in a college showcase tournament during the first week of practice (week 36). If a player participates in the showcase, those days will not count toward the 9-day practice rule. This is the only time during the soccer season that a college showcase will be allowed. Attendance at any other showcase during the soccer season will be in violation of Rule 5.8.0 and the player will become immediately ineligible.

7.11.35 Soccer Jamboree

Soccer teams are allowed to participate in a soccer jamboree with a limit of 160 minutes of playing time during the jamboree for each team. A jamboree counts as two contests towards the fourteen game limit.

7.11.36 Scoreboard Clock

Soccer will utilize a scoreboard clock on-site when available. The official time for all varsity soccer matches will be kept on the clock. Schools should have a clock operator trained on NFHS Soccer signals for stopping/starting the clock.

7.11.40 Regular Season Overtime Procedures

4A Procedure

When a regular season game ends in regulation with a tied score, that shall be the end of the contest. It does not matter if the game is a conference game or non-conference game. Points will be awarded according to 7.11.42 to seed the Regional Tournament.

3A Procedure

1. A representative from the coaching staff of each team, officials and team captains shall assemble at the halfway line to review the procedure as outlined below:
 - a. The head referee shall choose the goal at which all of the kicks from the penalty line shall be taken.
 - b. Each coach will select and identify to the officials any five players, including the goalkeeper, on or off the field (except those who may have been disqualified) to take the kicks.
 - c. A coin toss shall be held as in Rule 5-2-2 (e). The team winning the toss shall have the choice of kicking first or second.
 - d. Teams will alternate kickers. There is no follow-up on the kick.
 - e. The defending team may change the goalkeeper prior to each penalty kick.
 - f. Following five kicks for each team, the team scoring on the greatest number of these kicks shall be declared the winner.
 - g. Add one goal to the winning team score and credit the team with a victory.
2. If the score remains tied after each team has had five kicks:
 - a. Each coach will select five different players than the first five who already kicked to take the kicks in a sudden victory situation, wherein, if one team scores and the other team does not score, the game is ended without more kicks being taken.
 - b. If the score remains tied, continue the sudden victory kicks with the coach selecting any five players other than the previous five to take the next set of alternating kicks. If a tie still remains, repeat 3-a.
3. This would eliminate ties during the regular season. The winning team would get three points for the win and the losing team will get 1 point for tying in regular time.

7.11.41 The official WHSAA tournament ball will be provided by Baden.

7.11.41.5 WHSAA Regional/State Soccer Tie Game Procedure

When the score is tied at the end of the regulation time, the referee will instruct both teams to return to their respective team boxes. There will be five minutes during which both teams may confer with their coaches. The head referee will instruct both teams as to proper procedure:

1. There shall be two full ten-minute overtime periods (note - not sudden victory):
 - a. A coin toss shall be held as in Rule 5.2.2 (e).
 - b. At the end of the first ten-minute overtime period, teams shall change ends.
2. If the score still remains tied, a representative from the coaching staff of each team, officials and team captains shall assemble at the halfway line to review the procedure as outlined below:
 - a. The head referee shall choose the goal at which all of the kicks from the penalty line shall be taken.
 - b. Each coach will select and identify to the officials any five players, including the goalkeeper, on or off the field (except those who may have been disqualified) to take the kicks.
 - c. A coin toss shall be held as in Rule 5-2-2 (e). The team winning the toss shall have the choice of kicking first or second.
 - d. Teams will alternate kickers. There is no follow-up on the kick.
 - e. The defending team may change the goal keeper prior to each penalty kick.
 - f. Following five kicks for each team, the team scoring on the greatest number of these kicks shall be declared the winner.
 - g. Add one goal to the winning team score and credit the team with a victory. An asterisk (*) may be placed by the team advancing to indicate the advancement was the result of a tie breaker system.
3. If the score remains tied after each team has had five kicks:
 - a. Each coach will select five different players than the first five who already kicked to take the kicks in a sudden victory situation, wherein, if one team scores and the other team does not score, the game is ended without more kicks being taken.
 - b. If the score remains tied, continue the sudden victory kicks with the coach selecting any five players other than the previous five to take the next set of alternating kicks. If a tie still remains, repeat 3-a.

7.11.42 Conference Standings

The following criteria will be used to determine conference standings:

- 3 points will be given for each win, 1 point for each tie, and 0 points for each loss in division play.
- If two teams tie, the team with the better head to head record is declared the winner. If a tie still exists, compare the records of the tied teams against the record of the highest ranking non-tied division team. Continue through the Division Standings until the tie is broken. If a tie still exists, compare the tied teams records against non-division opponents. This criteria is to be used only if the site of the competition was at home for all the tied teams or at the common opponent's home site for all tied teams. If a tie still exists, the team with the fewest goals allowed during divisional play will gain the advantage. Should the tie remain after this consideration, the WHSAA Commissioner will flip a coin.
- If three teams tie in the league standings and one did not lose to the other two teams, it would be given the advantage. If one team lost to both of the other teams involved, it would lose the advantage. At this point, apply the tie breaking procedures outlined in 'b' above.
- If any other multiple tie exists, the WHSAA Commissioner will resolve the conflict.

7.11.44 Non-Conference Schedule

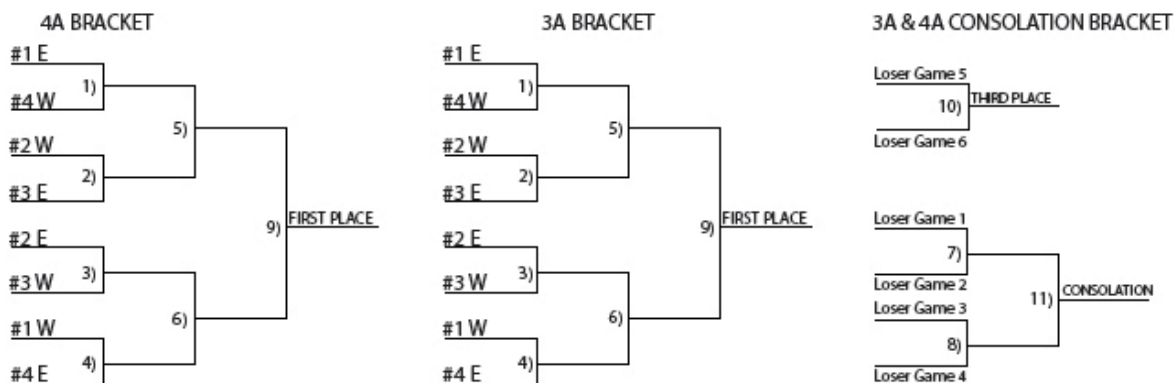

Teams are free to schedule non-conference games and jamborees up to a limit of fourteen contests including conference matches.

Scheduling, especially non-conference events, is accomplished at the November WHSAA Scheduling Meeting and would be finalized upon the approval of all soccer schools.

7.11.45 Roster Limits

No more than twenty-two (22) players can be in uniform for any post season tournament contest. The twenty-two players whose names are entered on the official scorebook/roster for the first tournament contest, shall be the only players used for the entire tournament. Violation of this provision shall cause forfeiture as per WHSAA Rules 5.0.7 and 1.4.0 (Refer to Rule 7.3.0 for definition of a contest).

 - a. When a team is ahead by 15 runs after three innings of play.
 - b. When a game exceeds the time limit of 1 ½ hours.
3. **Called Game:** If weather or darkness causes a tied game to be called, such game shall be considered a suspended game and shall be continued from the point of suspension at a later time.
 - a. If a game is called before five full innings have been played and the score is not tied, such game shall also be considered a suspended game, unless the home team has scored the greater number of runs in four or four-and-a-fraction turns at bat than the visiting team has scored in five turns at bat, in which case it is a regulation game.

- 7.11.57.6 Inclement weather procedure for State Tournament. In the event the State Tournament cannot take place in its scheduled format, the following procedure will be used:
 1. The WHSAA representative and tournament director will evaluate all possible modifications.
 2. Games will be shortened to 5 innings until original game schedule can be resumed.
 3. All games on the consolation side of the bracket will be cancelled. Championship semifinal games will be 5 innings.

7.13.0 TENNIS

- 7.13.1 The WHSAA recognizes one classification in tennis. The tennis season begins with the first allowable practice on Monday of WHSAA calendar week 6. The first allowable contest date is on Saturday of calendar week 6. Each tennis player is limited to 10 contest days per season (fall and spring). A contest is defined as any competition, school or non-school, that takes place during the season. Examples are included, but not limited to: USTA Tournaments. The Regional and State Tournaments shall not count toward the 10 day contest limit. The tennis season will end with the State Tournament on Saturday of week 12.
- 7.13.2 Dual tennis matches should be played with two singles and three doubles teams. No player will be able to participate in both.
- 7.13.11 Member schools may participate in one-day tennis matches throughout the Spring season. One two-day culminating event is allowed during the Spring season. The Spring tennis season begins on week 39 and ends on week 46. The 10-day contest limit applies to the spring season as well.
- 7.13.2 The following format will be used throughout the season for all varsity tennis matches. No player will be able to participate in both singles and doubles.
- | | |
|-----------------|-------------------|
| Boys #1 singles | Girls #1 singles |

- 7.13.21 The coach shall play the best tennis player on the team at the number one singles position. The coach then has the option of placing, at the number two singles and number one doubles positions, the next best three tennis players. The coach will then fill in the two and three doubles positions with the remaining four players according to the player's ability. Best tennis player's rankings will be determined by inter squad match play.
- 7.13.3 Students, while members of the high school tennis team, may participate with an outside affiliation as long as permission has been given by the local school district.
- 7.13.15 Member schools may participate in one-day tennis matches throughout the Spring season. One two-day culminating event is allowed during the Spring season. The Spring tennis season begins on week 39 and ends on week 46.
- 7.13.31 Substitutions: During season play, direct substitution may be allowed by a lesser ranked player if the original player becomes unavailable.

Improper language or other acts that detract from the game of tennis will be dealt with by the two coaches or the tournament directors. Disciplinary action could result in forfeiture of a game, set, match, or ejection.
- 7.13.32.1 Proper tennis attire, which exclude jeans, cut-off jeans, and the like is mandatory. Team shirts will be worn that are appropriate as a member of a school team uniform. In doubles, uniform tops must match for both players.

- 7.13.33 During the regular season, coaches can coach between points and any breaks of play so long as the coaching does not interfere with play. Coaches comments can only be directed at their players and not at the opposing player when the coach is on the same end as their player. Also, coaching by the coach or designee may take place during the changeovers, not to exceed the 90 second limit. Coaching may also take place before the match or within the ten (10) minutes between the second and third set of split sets. Coaches are reminded that they are responsible for their team's actions on and around the court and the actions of any spectators from their respective schools. Do not intentionally interrupt concentration or play in any way.

During Regional and State Tournaments, coaches can only coach before the match and at the end of each set (up to one minute at the end of set 1, and up to 10 minutes at the end of set 2, if split set). Players may receive coaching from their coaches and/or teammates with the number of persons coaching limited to two per visit.

- 7.13.34 Maximum time for rest between split sets is ten (10) minutes.
- 7.13.35 Warm-up time for the start of a match will be ten (10) minutes from the time the match director presents the players with the new balls.

In regional track meets, in the following field events (shot, discus, long jump, triple jump), nine athletes qualify for the finals, eight advancing to state.
- 7.14.48 During the scratch session at the regional meet, a participant may be replaced by a participant from the same school; however, additions to the original entries may not be made. If qualifiers for the state meet are unable to attend, an alternate may be named by the region, however, that individual must either have participated in the finals at the regional meet or have met the qualifying standard.

- 7.14.51 Heat and lane assignment and schedule for regional meets.
Heats and lanes will be assigned by the meet director for the preliminaries. For the finals, lanes will be assigned according to the state meet guidelines. The first place finisher from each heat and the next fastest times (regardless of heat) to fill a field of eight will qualify for the finals. Regions may determine the order of events or follow the state meet schedule.
- 7.14.52 Heat and lane assignment at State
Heats and lanes for the preliminaries of running events and relays at the state meet for all classes will be seeded from regional by both place and time, and then those who qualified by standard will be heated. The first place finisher from each heat and the next fastest times (regardless of heat) to fill a field of eight will qualify to the finals.

The 800, 1600 and 3200 meter runs will start in alleys and runners will be required to remain in alleys through a one turn stagger. In all classes, there will be no preliminaries in the 800, 1600, 3200 meter runs. All semifinal and final races, except the distances and relays, will be run in lanes.
The 400 meter relay will be run with a 400 meter stagger. In the 1600 meter relay and 1600 medley relay runners will be required to remain in lanes through a three turn stagger.
In the 3200 meter relay, runners will be required to remain in lanes or alleys through a one turn stagger. At regional and the state meet in the 4 x 800 relay when there are eight or fewer teams, the alley start should be waived, and each team assigned a lane.
- 7.14.53 QUALIFIERS TO THE STATE TRACK MEET
- 7.14.55 1A, 2A, 3A and 4A Regions will qualify eight (8) individuals and four (4) relay teams by place from the regional meet per event.
- 7.14.56 Athletes will also be allowed to qualify for State Track by meeting qualifying standards during the regular season. Hand held times will not be used as state qualifying times. To be qualified to compete in an event at the state track meet, the athlete must be entered in that event at a WHSAA regional track meet. All athletes that meet qualifying standards at WHSAA approved qualifying meets will be allowed to compete and score at the regional and state track meets provided all other WHSAA and National Federation rules are followed. NOTE: Each school may have only one relay team per relay event at the regional and state meet.
- Qualifying standards are determined by multiplying the old standard by three and adding the sixth place finishing mark from the immediate past state track meet and dividing by four.
- 7.14.57 Relay teams that surpass the qualifying mark at regional meets but who do not advance to the State Meet by place shall be eligible to advance by mark. The members of a relay team that advances in this manner shall be the same at the State Track Meet. In case of injury, the Commissioner of the WHSAA will make the final decision concerning substitution, and the injured athlete will not be allowed to participate in any other event in the State Track Meet. NOTE: Each school may have only one relay team per relay event at the regional and state meet.
- 7.14.58 Relay teams can also qualify during the season by meeting the qualifying standard. The following stipulations apply:
1. All qualifying marks must be attained at a state qualifying meet or in an out-of-state meet approved by the Commissioner of the WHSAA.
 2. At the beginning of the season, each head coach will be given State Meet Relay Qualifying forms. These forms will be for the purpose of declaring a school's relay team as meeting the qualifying standard and for the purpose of entering that relay team in the Wyoming State Track Meet.
 3. A school may submit only ONE qualifying form to the WHSAA. That form must be submitted with the team's entries for the Regional Track Meets.

4. A school submitting a relay qualifying form at the Regional Meets must submit that form to the meet director of the Regional Meet in order that he may forward that form with the other official entries from the meet to the WHSAA.
5. Once a relay qualifying form is submitted, it is official and that exact relay team must compete at the State Meet. (Exception see number 9)
 - a. If a runner is injured, a replacement may be entered with approval of the Commissioner of the WHSAA.
 - b. If an athlete is injured and an alternate replaces him, the injured athlete will not be allowed to participate in the State Meet.
 - c. If an athlete is injured during the State Meet, he/she will not be allowed further participation.
6. Relay qualifying forms must include each athlete who runs; the time that the relay team ran; type of timing system used; a signature by the Meet Director.
7. All state qualifying meets should require relay cards.
8. A relay team who has met the qualifying standard is not required to run at the Regional Meet; however, they must be officially entered.
An official entry by that relay team counts as one of the four events in which a participant may compete.
9. A pre-qualified relay team that is entered in the Regional Track Meet, and that qualifies by place at the Regional Meet shall be allowed to substitute relay participants at the State Track Meet.

7.14.6 INDOOR TRACK

- 7.14.60 The WHSAA recognizes two classifications in Indoor Track. The schools with the enrollments of 700 and above shall be 4A, schools with enrollments from 699 and below shall be 3A.
- 7.14.61 A student may not participate in two sports at the same time during the Indoor Track season. Concurrent sport rule does apply (5.1.1 & 5.10.3).
- 7.14.62 Due to the fact that no surrounding NFHS member states sanction indoor track, the following exception will be in place for indoor track only.

Exception: Coaches and athletes will be allowed to attend out-of-state indoor track meets in the surrounding states where their state association does not offer Indoor Track to their member schools. Permission must be given by the WHSAA member school's local school district to attend. All other WHSAA rules and regulations must be followed.

- 7.14.63 Only schools with proper sanctioning from an NFHS member state association may participate at indoor track meets hosted by Wyoming member schools. Unattached individuals would not be allowed to participate.

7.14.70 CALENDAR

The Indoor Track season begins with a first allowable practice date on the Monday of WHSAA calendar week 27. The first allowable contest date is on Thursday of calendar week 28. Entries will be limited to 4 individuals per event. Each school will be allowed to enter one relay team. NOTE: A "no time" will be given to an athlete unless they have a current season recorded competition time in their entered event. Times must be verified by the school at the state meet coaches meeting if questioned.
- 7.14.81.5 Athletes will also be allowed to qualify for the State Meet by meeting qualifying standards during the regular season. Should a school have more than four (4) prequalified athletes for an event, they may enter all prequalified athletes. NOTE: Each school may have only one relay team per relay event at the State Meet. An official entry on a relay team counts as one of the four events in which a participant may compete.

Qualifying standards are determined by multiplying the old standard by three and adding the sixth place finishing mark from the immediate past state track meet and dividing by four.

- 7.14.81.6 Use open 400 meter times to determine 4x400 relay seeding times and open 800 meter times to determine 4x800 relay seeding times for the State Indoor meet with verified 400 and 800 meter times from previous meets.

- 7.16.44 As per National Federation Rule 2-4-2, the accuracy of wrestling scales shall be certified annually by the WHSAA.
- 7.16.5 NUMBER OF ALLOWABLE EVENTS

During the regular season, wrestlers may compete in up to seven tournaments which will count as one event. There is no minimum or maximum number of teams in a tournament.

As per National Federation rules, each state association shall develop and utilize a weight-management program that includes:

- 1) A specific gravity not to exceed 1.025
- 2) A body fat assessment no lower than 7% for males / 12% for females
- 3) A monitored weekly weight loss plan not to exceed 1.5% a week

The details of the WHSAA Weight Management Program are located on the WHSAA web site at www.whsaa.org

7.16.7 REGIONAL TOURNAMENTS

1. Head to head competition
2. Record against common opponents
3. Returning state placers at any weight (order of place)
4. Best overall record (minimum of ten varsity matches)
5. Coin flip
6. Wrestlers that are not seeded will be randomly drawn into the bracket.
7. Once seeding begins for each weight class, a wrestler may not be taken off the board for consideration.

- 7.16.72 Either a one day or two day Regional qualifying tournament will be conducted by the WHSAA with each school allowed to enter two wrestlers per weight class. Only one wrestler per weight class per school will be scored. Eight wrestlers will advance to the State

Tournament from each Regional Tournament. Whenever two wrestlers from the same school wrestle a match, pin points will automatically be awarded to the winner, regardless of the outcome of the match. The official entry deadline for the WHSAA Regional Tournament is the seeding meeting or completion of tournament weigh-ins whichever occurs first. If the seeding meeting is first, substitutions may be made up until the end of weigh-ins under the following conditions:

1. If for injury or illness, the substitution will be permitted only with a doctor's written excuse submitted to the tournament director
2. If for disciplinary action, the substitution will be permitted only if the reasons are verified in writing by the school's administration to the tournament director. Wrestlers not making weight may be moved to replace an entered teammate or fill a team's unused entry slot. If a substitution is allowed, the substitute designated to replace his teammate will do so in the position of the original draw unless the substitute is replacing a "seeded" wrestler, whereby there shall be a re-seeding and re-drawing of that weight class. If a change in weight class is made for an entered participant, then the above shall apply; or if the change adds a participant to a weight class then that weight class shall be re-drawn.
3. If less than 8 competitors in the weight class, the possibility of taking more than 8 from the opposite region exists.
 - a. After all weights have been seeded in each region, the regional directors or designated persons will contact each other and exchange numbers in each weight class. Wherever a region has less than 8 wrestlers in a weight class, the opposite region shall wrestle to qualify any number of wrestlers available at that weight to reach a maximum of 16 wrestlers in each weight class. ALL of these matches would be non-team scoring matches. All Wrestlers involved in these matches must make weight each day of the regional tournament.
 - b. A wrestler that has qualified for the state meet on day one of a regional and still has a match on day two, but does not make weight on day 2, CAN NOT be replaced by a wrestler from the opposite region or from his own. A bye would represent him/her in the state bracket

7.16.8 WRESTLER'S APPEARANCE DURING CULMINATING EVENTS AWARDS CEREMONIES

Coaches are asked to remind wrestlers that they should be dressed in appropriate attire when receiving awards. Wrestlers should be wearing either their wrestling uniform, sweat suit, or neat street apparel. T-shirts with inappropriate designs or language should not be worn.

7.16.9 STATE TOURNAMENT

- 7.16.91 A wrestler must participate in the regional meet and qualify by placing in the top eight to be eligible for state competition. No substitution is allowed. If a qualifier fails to make weight or for any other reason is unable to wrestle in the state tournament, a forfeit will be declared.

The wrestler must compete in the same weight class at regional and state. Only one wrestler per weight class per school will be scored. Whenever two wrestlers from the same school wrestle a match, pin points will automatically be awarded to the winner, regardless of the outcome of the match.

- 7.16.92 In 4A, the top four wrestlers from each regional will be seeded at State. The first place wrestler from the East Conference will be in the same quarter bracket as the fourth place finisher in the West Conference. The third place wrestler from the East Conference will be in the same quarter bracket as the second place finisher in the West Conference. The other half bracket would have the same place winners with the conference reversed. The other wrestlers shall be drawn in after byes are placed as evenly per team as possible. When a wrestler who was drawn or seeded from regional withdraws, a forfeit is granted and the bracket is not redrawn. The opposing wrestler receives points for this forfeit. In 3A and 2A, the same process will be used for East and West Regional placers.

The diagram illustrates a 25-player tournament bracket. The top half of the bracket (players 1-12) leads to a 'Champion' and a 'Loser 2nd Place' (player 29). The bottom half (players 13-25) leads to a '3rd' place finisher (player 28), a '5th' place finisher (player 27), and several 'Loser' positions (Loser #1, #2, #3, #4, #5, #6, #7, #8, #9, #10, #11, #12, #21, #22, #25, #26).

Days of the convention are designated as Monday and Tuesday. This is to allow student athletes and others with weekend commitments the opportunity to attend the convention without missing football/volleyball games, homecoming events, etc.

Format of the convention allows for workshop/learning sessions planned for both novice and advanced high school journalists. These sessions are in the form of short course lectures, panel discussions, individual seminars, hands-on workshops and other such methods as deemed appropriate for teaching journalistic techniques to students. Separate sessions will be designed to provide newspaper emphasis and yearbook emphasis; other workshops may be planned to meet identified needs of the group. Contests will be planned for convention participants in writing and other contests as are appropriate for high school journalists.

Awards will be given for winners of the contests during the awards assembly at the convention. In addition, winning newspapers and yearbooks are also announced. Pony Express Awards are to be given as certificates of appreciation and to be presented to those individuals and groups who contribute to the success of the WHSSPA. Pony Express Awards may be given at the convention, or they may be announced at a business meeting of advisers of the association and awarded in an appropriate manner at the discretion of the executive board.

8.2.0 MUSIC

8.2.1 CLASSIFICATION

The WHSAA classifies schools into four classes for interscholastic music purposes. This classification is the same as used for basketball.

No group from a given school may compete in more than one class. A school may advance in classification, but may not under any circumstance, compete in a lower classification than the one in which its enrollment places it. Summer music activities are neither approved nor disapproved by the Board of Directors.

8.2.2 DISTRICT ORGANIZATION

Each district organization is responsible for conducting the musical activities within its own district according to the rules set forth in this publication. It shall also be each district's responsibility to finance its own musical activities. Each district organization is responsible for the election of a president who shall serve on the WMEA Executive Board. The President should be elected at one of the following: All-State or Spring Music Festival. The name of the District President must be reported to the State President by April 1. The term of District President is two years and elections will take place every other year. District Presidents may hold successive terms.

The state is divided into six districts. Schools may not participate in any district music festival other than the one held in the district in which they have been assigned. The districts are as follows:

Each District President should call a meeting in the fall, in conjunction with the regular district activities meeting, to confirm all host-sites and a host-site chair for district events. Dates for the year's music activities should also be discussed and confirmed. In the event any school becomes the substitute host, that school's personnel will automatically assume all clinic/festival responsibilities. It

is recommended that each district elect or appoint a Vice President who could assume the duties of the President should an emergency arise.

8.2.3 ELIGIBILITY

All students participating in interscholastic musical activities will meet the following eligibility requirements:

1. The student must be academically eligible according to the guidelines set forth by the WHSAA Rule 6.2.0 as well as by semester Rule 6.5.0.

These are minimum rules, which must be adhered to by all pupils in interscholastic activities. A school may adopt more stringent requirements at its discretion provided students are treated equally.

8.2.4 SPECIAL MUSIC ACTIVITIES

District clinics are typically held within 10 days prior to Thanksgiving. Each district should set a rotation schedule to determine the site of the host school. The district festivals are organized to provide music students an opportunity, as individuals and members of an ensemble, to perform and be evaluated by a music educator other than their own. It enables students to compare their performances with that of other area schools and provide incentive for improvement and continued participation. District Festivals may be held during weeks 37 through 42 of the WHSAA calendar. Festivals serve as opportunities for assessment on the state or district standards based upon a common rubric score.

1. **Site Selection/Host-Site Chair Selection**
It is suggested that districts set up a rotation system so that festival sites can be designated well in advance. The Host-Site Chair should be elected or appointed at festival, one year in advance. Such planning can be tentative in nature and can, if necessary, be changed at the fall meeting.
2. **Duties of Host School/Host-Site Chair**
 - a. Procure certified adjudicators.
 - b. Schedule events and facilities and supply schedules to participating schools at least five days before the festival.

Local expenses of festivals, such as janitorial services, furnishing ticket takers and other officials should be paid by the host school in lieu of travel expense that the school would have incurred had the festival been held in another community.

 - e. Provide for each adjudicator, a copy of "Instructions to Adjudicators."

Each district festival shall contract only adjudicators who have successfully completed a WHSAA/WMEA adjudication certification clinic and are certified by the WHSAA/WMEA.

- b. The amount of the fee has been set by the WHSAA/WMEA and the standardized contract available through the WHSAA office MUST be used.
- c. Each district festival shall adhere to the following principles when employing adjudicators:

 - 2) Shall be required to be thoroughly familiar with the "Instructions to Adjudicators".

5. Instructions to Adjudicators

- a. Each judge is employed to aid in a program of music education. The results of this judging can either be a help or a hindrance. Care should be exercised in the wording of both oral and written comments in order that they may be detailed, constructive and helpful. Judges shall avoid the use of sarcastic remarks.
- b. The judges must keep in mind that they are judging secondary school students, and not college, university or professional groups. Judging should be strict but fair.
- c. Judges should note particularly the quality of music selected for performance as well as the appropriateness of each selection so far as its technical and musical demands are concerned in relation to the student's length of study.
- d. The time allowances for individual events should be sufficient to enable the judges to orally discuss various aspects of the performance in order to assure that the student and/or director understands the criticisms and suggestions as well as commendations.

It is the responsibility of the elected WMEA Marching Band Chair to organize the event with a consistent approach in mind to help students demonstrate their best!

PURPOSE

Bands should expect consistent procedures to exist in all the sponsored Festivals and Competitions. From the moment students and staff get off the bus to re-boarding their buses at the end of the event they should be treated with respect and provided with the very best and consistent warm-up procedure, performance opportunity, judging equality and overall educational experience possible.

The Wyoming State Marching Band Festival is open to all Wyoming high school bands through grade 12. Classifications, as recognized by the WHSAA shall be utilized. An entry fee of \$100.00 per band will be assessed to defray expenses.

8.2.62 DEFINITIONS

PERFORMERS

1. All performers must be students of the band program.

Open division bands must be conducted by students or omit a conductor entirely. No directors or staff members are permitted to conduct in the open division.

1B. Bands are allowed to include homeschooled students and students from schools that don't offer marching bands so long as an official Combination School Agreement has been made with the administrators of each school filed with the WHSAA.

1C. Band programs may include students that are not enrolled in the class so long as the proper arrangements are made with administrators of each school. (examples might include; color guard members, students enrolled in another music class strings/choir, guitar, or similar)

2. Adults are permitted in the performance area to assist student performers with mobility limitations.

3. Directors and Staff are permitted to enter the performance area to troubleshoot electronic or prop malfunctions during the performance but should not directly contribute to the performance from inside the performance area.

4. In the event of a student safety concern or injury, adults may enter the performance area to assist as necessary.

5. Volunteers are allowed to assist in the process of moving equipment on or off the field but must vacate the performance area between drum major salutes.

PERFORMANCE REGULATIONS

8.2.63 COMPETITIVE AREA

The performance area inside the Casper Events Center will be smaller than a regulation size football field. Length of the field will be 180 feet (60 yards or 20 yard line to 20 yard line) and the width will be 107 feet (front sideline to back hash-marks). Distances from the front side line to the near hash marks and from the near hash-marks to the far hash marks will be the same as on a regulation size football field 53'4".

Special considerations - The front sideline is approximately 8 and one-half feet from the seating area wall and the back hash is approximately two and one-half feet from the back wall, a curtain runs the length of the 15 yard line on side one, and the horseshoe seating area cuts off the back portion of the 20 yard line approximately halfway between the hashes extending backfield on side two.

Power is available at the 50 yard line along the front wall.

Staging and Warm-up Areas

Parking lots

Warming up outside of the venue is permitted so long as traffic flow is not impeded.
Bands should refrain from the use of wireless microphone systems in the warm up area.

Pre-Warm Up Room

This area on the 2nd floor of the events center is open to the concourse so please do not play or manipulate color guard equipment. Only the band scheduled for the pre-warm up room may be in the room. You can see from the back lot through the window when a band leaves. That is your cue to take the room.

Warm-Up Room

Please have the door closed.

Staging Area (Tunnel/Backstage Area)

Bands should position themselves to take the field in the tunnel to enter on side two and/or the area on side one behind the curtain on side one while the band before them is performing on the floor.

This area is SILENT... not quiet. Please be respectful of the performing band while in this tunnel area.

Prop/Front Ensemble Staging

Due to limited space backstage on side one, props and front ensemble equipment is not permitted inside the building until your band enters to go to the pre-warm up room.

Each band must designate a student or adult to stay with equipment once it is inside the building.

Any props or equipment larger than a double door has the option of using roll up garage doors on side one operated by event volunteers.

At the conclusion of the performance, all bands must remove all equipment and props from the building completely. No equipment is allowed to be stored in the building before or after the performance. This includes storing instruments in the concourses of the events center.

8.2.64 FIELD ENTRANCE/EXIT

Performance Procedure

Times established on the schedule will be strictly followed. Bands will not be allowed to encroach on another bands time before or after the performance. All members of the band must wait for their performance window to enter the performance area. This includes front ensemble, props, and color guards needing additional time to set equipment.

Bands may enter the performance area when the event announcer introduces the group. "Please welcome to the field _insert band name here_" A field entrance may be made from the tunnel on side two, backfield side one, or front field side one.

As part of the registration process, bands will provide a script to the event coordinator for the announcer to read before each performance. Bands may opt to include their musical selections, show theme, student leaders, soloists, etc in this script. or have nothing announced as they take the field.

The event announcer will wait to see the drum majors in position before making the next statement

"Drum majors; _insert drum majors names here_, is your band ready?" - this statement may be omitted if desired.

Announcer awaits the salute

"Presenting their ___insert year here___ production, ___insert show title here___, the Wyoming High School Activities Association is proud to present drum majors _insert drum majors names here_ and the ___insert school and band name here___"

At the conclusion of the show

The ___insert band name here___ is under the direction of _insert directors and staff; names here_ Drum majors; _insert drum major names here_. "Join us in celebrating the year these students have had." (Or similar celebratory statement added to the script)

Bands exiting the field must follow the event flow designated by the event coordinator. Bands should exit the performance area expeditiously at the end of their performance so as to not delay the event or interfere with the next band. The band may elect to exit the field using a percussion cadence.

Award Retreat

Following the performance schedule, each band must have a student representative such as drum major, color guard captain, and/or student leaders, report to the floor for the awards retreat. Please limit the number of representative leadership to five students or less to make enough space for all the bands.

8.2.65 TIMING

All bands must report to the designated reporting location at their reporting time so that they will be ready to step off at their starting time. All bands must be on and off the floor within their 15 minute time slot. This time may include an on field warm-up or concert selection(s). Judging will begin with the salute from the drum major and conclude with a final salute when the band finishes their performance.

PENALTIES

Expenses for the above participants are the responsibility of the individual(s) involved and/or their local school district.

8.3.0 SPEECH

8.3.1 PHILOSOPHY

The Wyoming Speech and Debate Association and The Wyoming High School Activities Association believe that speech, as an activity, offers an unexcelled potential for promoting the democratic ideal. It follows that speech activities programs should be broad enough to provide adequate areas for maximum student participation. Furthermore, opportunities should be provided for each student to take an active part at the level of his or her ability to communicate.

An effective speech training program is designed to create a responsible citizen by offering realistic situations requiring judicious listening, intelligent speaking, and mature patterns of behavior. With proper guidance and motivation, a student, through the many speech activities, soon begins to develop leadership abilities and express ideas reasonably and persuasively. Through various speech experiences, a student should become more confident and poised.

By competing with contemporaries in the areas of communication, a student soon learns the value of careful preparation, disciplined rehearsal, and appreciation for excellence. It is necessary that everyone visualizes speech tournaments and interscholastic meets not as ends in themselves, but as important teaching devices. They provide the means by which students and teachers can evaluate the strengths and weaknesses of presentations. By correcting weaknesses and by capitalizing on strengths, students are guided into self-improvement programs.

8.3.2 GENERAL RULES

These are the expectations for all WHSAA High School Speech and Debate competitions held in the State of Wyoming. Rules specifically governing the State Tournament may differ and are articulated in section 8.3.3. Programs and/or individuals found in violation of these rules will be reported to the WHSAA for appropriate actions toward the school/program.

1) The Number of Allowable Speech and Debate Tournaments:

Each high school student is allowed seventeen preliminary meets a year. Of those meets, a maximum of twelve meets may be in person, plus the State Speech and Debate Tournament and National Speech and Debate Association (NSDA) National Qualifying Tournament (Districts). Competing as a novice (a novice competitor is similar to a junior varsity competitor in other activities) counts toward this total. Out-of-state tournaments count toward this total.

- a) This means each individual competitor is allowed to attend seventeen tournaments, plus the State Tournament and NSDA National Qualifying Tournament. Out-of-state tournaments also count toward these totals.
- b) Schools that violate this rule will not be eligible for team Sweepstakes awards at the season's State Tournament and will be reported to the WHSAA for appropriate actions.

2) The Speech and Debate Season:

The speech and debate tournament season will run from the Friday of WHSAA calendar week 17 through the NSDA National Qualifying Tournament or the State Tournament, whichever is later. Workshop events may be held at any time. A "workshop" is an event primarily educational in nature, intended to give students a feel for how tournaments are run, and where no final individual or team placings are tabulated or NSDA points entered for the student, other than service points.

3) Wyoming Speech and Debate Association Membership (WSDA):

Any interested Wyoming school may become a voting member of the Wyoming Speech and Debate Association by paying an annual fee of \$35.00. Any individual person may become a member by paying their \$35.00 fee.

4) Participating and Voting:

Each school in good standing may exercise a vote on matters coming before the WSDA and fully participate at the State Tournament. Each voting member school is allowed only one vote per school. Schools must be members in good standing prior to the State Tournament meeting. "In good standing" means:

- a) The school has paid its fees to WSDA before the first coaches meeting at the state tournament.
- b) Schools have not had students who have attended more than the maximum number of allowed tournaments.
- c) Schools have not knowingly entered varsity competitors into junior varsity competition.
- d) Any individual person may become a member by paying their \$35 fee, entitling them to attend all meetings and conferences, voice their positions and ideas, but may not vote on issues put before the voting membership.

5) Novice Competitor Definition:

A novice is a student who is in their first year of competition of their high school career. They will be considered novice for any October, November or December tournaments of their first season of high school competition. After Jan. 1 of any high school season, all competitors become varsity. A student will be considered varsity if they competed in any tournament in any portion of any previous high school competitive season. During the novice season, novice competitors in CX Debate will use the novice case limits as provided by NSDA. In all other debate events, Novice competitors will use the same topics Varsity competitors use. Tournament Directors hosting tournaments resolve to follow this definition.

6) Lincoln-Douglas Debate Topics:

Bi-monthly the Lincoln-Douglas debate topic is designated by the NSDA as posted on their website and will be used at all Wyoming tournaments for those months. In late February, tournament hosts are encouraged to use the March/April topic at their tournaments.

7) Cross-Examination Debate Topic:

Each year the Policy Debate topic designated by the National Federation of High School Activities (NFHS) and the NSDA will be used at all Wyoming tournaments for the entire season.

8) Public Forum Debate Topics:

Each month the public forum debate topic is designated by the NSDA as posted on their website and will be used at all Wyoming tournaments for that month. In late February, tournament hosts are encouraged to use the March topic at their tournaments.

9) Congressional Debate:

- a) Any WSDA member school hosting an event should be resolved to publish legislation used in Congressional Debate competition at their competition no later than the Sunday evening prior to the start of their event.
- b) All legislation should be submitted to the point person assigned by the Fall Coaches Conference, who will place the legislation into the Google Drive folder shared by the point person in PDF format prior to the deadline given by the Tournament Director.

10) WHSAA Obscenity Clause:

- a) CHOICE OF MATERIAL:
 - i) It is strongly recommended that coaches use good judgment in selection of the material that is high school appropriate. Judges and community members may be offended, the reputation of the team may be tarnished and competitors may be ranked lower because of their choice in selections.
- b) Obscenity Clause and Procedure for Grievance:
 - i) It is up to each school's coaching staff to determine that each piece brought to Wyoming high school competitions is not significantly offensive and that the obscenity, as defined by the Supreme Court of the United States of America, has been eliminated. Any incident of obscenity clause violation must be reported to a member of the WSDA executive committee as soon as reasonably possible.
 - ii) In the event of a reported incident, the WSDA Executive Committee will:
 - (1) Contact the coach to investigate the reported violation and to advise the coach about appropriate action. It will then be decided to move forward or to drop the grievance. Students performing material against their coach's advice and approval should be removed from competition.
 - (2) In the event that a resolution is not attained, the Executive Committee may choose to contact the administration of the school to discuss the incident and decide what further action needs to occur at that level.
 - (3) If the Executive Committee and administration of the offending school deem it appropriate, the WSDA Executive Committee officers will provide a written statement to WHSAA regarding the conditions and pertinent information about the infraction.
 - (4) WHSAA will review written statements and decide what further actions are necessary:
 - (a) Charges dropped
 - (b) Meeting with coach and administrative representative and WHSAA Board
 - (c) Removal of WHSAA placing or All-State accolades
 - (d) Warning/Probation (if persistent complaints possible suspension from competition)

11) Public Observation

All speech and debate performances that are part of regular tournament competition are open to public observation and, with the exception of legal limitations, there shall be no restriction as to who may watch, take notes, or “flow” the round. Audio and video recording, or internet streaming is not allowed unless approved in advance by the WSDA officer body.

12) Artificial Intelligence:

- a) In Wyoming Speech and Debate, generative artificial intelligence should not be cited as a source; while something like ChatGPT may be used to guide students to articles, ideas, and sources, the original source of any quoted or paraphrased evidence must be available if requested.
- b) Students are prohibited from quoting or paraphrasing text directly from generative AI sources like ChatGPT in events in which speeches must be the original created work of a competitor.

13) Tournament Hosting:

In order for a school to be eligible for sweepstakes at the Wyoming State Tournament, a team must have hosted or co-hosted a regular season tournament within that competitive season. Head coaches can apply for exemptions. The exemption process would be determined and enforced by WSDA and WHSAA.

14) Tournament Schedule:

Tournament schedules will be set for the following competitive season by the end of May in the school year prior. This means that each team hosting a tournament will have their tournaments locked in for the upcoming year by June 1st.

15) Intent to Attend:

Individual teams will finalize and communicate intended tournament attendance for the upcoming year at the Fall Coaches Conference.

16) Sweepstakes Eligibility:

In order to compete for sweepstakes at the Wyoming State Tournament, a school must show they have attended at least 51% of their tournaments in Wyoming. This would be determined and enforced by WSDA and WHSAA. A section will be added to the registration process for State where schools would fill out their tournaments attended that season.

17) School Classification:

Active Speech and Debate programs will be split into three classifications 4A, 3A, 1A/2A. Active will be defined as a program that has paid WHSAA dues & has hired (or is in the process of hiring as confirmed by the AD for the school) a coach for the season. All programs will be defined as active or non active as of October 15 of the current season. Active programs will then be split into thirds based on school population size (numbers released by WHSAA based on a rolling average). These are released at the beginning of the school year every two years. More information can be found [here](#). If there is an uneven number, the extra spots will be filled from the bottom up. After this date, the classifications will be frozen for the season, meaning no program will move into another classification category for the remainder of the year. If a program joins after October 15, they will be placed into the appropriate category based on their school population size for the current season. This system will be reviewed each year. The classification system for the season will be released by the coaching body and to WHSAA by the WSDA state officers by Nov. 1.

Coaches should be generally available for standby purposes, also.
 - xv. If an "accompanying" judge should, on a flagrant basis, fail to show up and fulfill standby responsibilities or should fail to perform judging responsibilities in a professional manner, then a conference shall be called involving officials of the WHSAA, the WSDA, the Tournament Director, and the coach of the school which brought the "accompanying" judge.

xvi. JUDGE USE PROCESS

- During preliminary rounds, an attempt will be made to balance the mix of judges to maximize the probability that every student will be judged by a judge from each of the pools.
- During out rounds, panels will be balanced by using one judge from each of the four pools when four judges are used; and three from differing pools when three judges are used.
- No judge that judges an out round of a given event will judge an out round in the same event unless the tournament director is able to have them judge entries they have not judged before in out rounds.
- In Congress, to the extent possible, the parliamentarian and the judges in that house will come from different pools.

xvii. Judge pools will be defined as:

- **Hired:** Those paid judges hired by the tournament director. No more than one-third ($\frac{1}{3}$) of the pool of hired judges will be affiliated with any single college or institution; or be graduates from the same high school.
- **Local:** These judges are provided by the tournament host. No local judges will be assigned to judge students from the hosting school or institution.

xviii. Hired Guest Judges

- The WHSAA shall determine the payment amounts and the payment system for all hired judges.
- The Tournament Director shall send pertinent information from the State Tournament Rules to all hired-guest judges in advance of the tournament. This data shall include payment information, event and tournament rules, judging instructions, the tournament schedule, and sample ballots.
- Former Wyoming high school students who are one year out of high school and who were active participants in competitive speech activities shall not be permitted to serve as hired-guest judges. No single college campus should provide more than one-third of the hired judges.
- Alumni of a particular high school shall not be permitted to judge that school unless three (3) years have elapsed since graduation.
- If a hired-guest judge should, on a flagrant basis, fail to fulfill judging responsibilities in a professional manner, then payment (per round, mileage, per diem) from the WHSAA could be in jeopardy. This is a determination to be made by the Tournament Committee.

xix. "Walk-On" Judges

- "Walk-On" judges are those individuals whom the Tournament Director did not expect to attend the State Tournament. As a general rule, the reliance on "walk-on" judges shall be discouraged by every means possible in advance of the tournament.
- However, should "walk-ons" materialize, the following procedures and rules shall apply:
 - a. "Walk-ons" shall be held in abeyance so that they are not permitted to judge for a period of at least 2 hours after arrival.
 - b. During this 2 hour period, the "walk-on" judges must confer with the President of WSDA as to judging procedures and criteria.
 - c. During this 2 hour period, the "walk-on" judges' names and prospective events to be judged will be posted on the posting boards in the coaches' lounges;
 - d. It is the responsibility of each coach to check the posting board for this data. Coaches who are judging will be notified concerning "walk-ons".
 - e. Coaches must contact the Tournament Director if the coach wishes to revise his or her judge strike sheets (by adding the "walk-on" and deleting a previously struck judge if applicable). This revision of the strike sheets must occur at least 45 minutes before the beginning of the round in which the "walk-on" is to be used as a judge.
 - f. "Walk-on" judges who are one year out of a Wyoming high school and who were active participants in competitive speech activities shall not be permitted to serve as judges.
 - g. "Walk-on" judges who are alumni of a particular school shall not be permitted to judge that school unless three (3) years have elapsed since graduation.
 - h. "Walk-on" judges, if utilized, are not eligible to receive payment per round, mileage, nor per diem.
 - i. "Walk-on" judges must fill out required judges' information.

xx. Judge Strikes

Each school is allowed three overall individual judge strikes. This means the individual judge will be struck against all entries from the school making the strike. This will apply to all events except Congress. For Congress, tab staff **will attempt to honor strikes but will reserve the right to override a strike if needed due to a shortage of judges.** Strike sheets will be made available to coaches 48 hours before the start of registration. Strikes must be completed by coaches 24 hours prior to the start of registration. If additional judges are added during this 48 hour window, additional strike sheets will be made available at registration. If a school would like to "swap" one of their original strikes in order to strike one of these new judges, they may do so at registration, in which case strikes for the first round may not be guaranteed.

13. Entry Deadline

- i. The entry deadline will be stipulated in the State Tournament Brochure which will be available online five weeks in advance of the tournament.
- ii. After the expiration of the entry deadline, schools who are entered in the State Tournament will be allowed to change, correct, update, or otherwise modify their State Tournament entry form provided that they promptly notify the Tournament Director by email, phone or in writing two days prior to the State Tournament. Two days prior to and through the day of registration, only name changes or substitutions will be allowed. It is the

responsibility of the high school coach to update any corresponding fee assessment, based on changes made after the entry deadline, with the Wyoming High School Activities Association office.

- iii. Any "drops" occurring at registration will be charged the appropriate cancellation fee as indicated in Section 8.3.3.A.3. No "additional" entries will be permitted at registration.
- iv. In general, high school coaches are expected to be extremely conscientious in regard to the State Tournament entry forms and the additional information which they are required to submit. They should ensure the accuracy of their school's entry in the State Tournament.

14. Sweepstakes

- i. The high school with the largest accumulated total of sweepstakes points in each class is the winner of that class.
- ii. The point system to determine the sweepstakes winners in each class is as follows:

| | | |
|-----------------------------------|-------------------------------------|----------|
| Debate & Interp & Congress | 1st place | 9 points |
| Debate & Interp & Congress | 2nd place | 8 points |
| Debate & Interp & Congress | 3rd place (semifinalists in debate) | 7 points |
| Interp & Congress | 4th place | 6 points |
| Interp & Congress | 5th place | 5 points |
| Interp & Congress | 6th place | 4 points |
| Interp & Congress | 7th place | 3 points |
| Non-advancing Interp and Congress | Semis & Supers | 2 points |
| Non-advancing Interp | Quarters | 1 point |
| Non-advancing Debate | Quarters | 3 points |
| Non-advancing Debate | Octafinals | 1 point |

*In the case that we need to break 8 to finals in an event, the 8th place will earn 2.5 points

15. Harassment and Discrimination Policy

- i. WSDA Harassment and Discrimination policy: The Wyoming Speech and Debate Association is committed to providing its participants, judges, and coaches the opportunity to pursue excellence in their endeavors. This opportunity can exist only when each member of our community is assured an atmosphere of mutual respect. The WSDA Prohibits all forms of harassment and discrimination. Accordingly, all forms of harassment and discrimination, whether written or oral, based on race, color, religion, sex, gender identity or expression, sexual orientation, marital status, citizenship, national origin, age, disability, neurodivergence, genetic information, or any other characteristic protected by any applicable federal, state, or local law are prohibited, whether committed by participants, judges, coaches, or observers. Individuals who are found to have violated this policy will be subject to the full range of sanctions, up to and including removal from the tournament premises. WSDA will highlight, continue to refine, and promote best practices for diversity, equity, and inclusion within the speech and debate community.
- ii. The State Tournament will provide and staff an equity office.

B. Individual Events

- 1. There will be four preliminary rounds, a possible quarterfinal, and a semifinal round, and a final round in all individual events at the State Tournament.
 - 2. Individual events which have 60 or more competitors, will break to quarterfinals. The first priority will be to break closest to 24. Secondly, to the extent that multiple options in break points are available, the second priority will be to advance more rather than fewer students. A minimum of 20 and a maximum of 32 May Advance into quarterfinals, depending on where the clean break occurs.
 - 3. For the preliminary rounds, the low "rank/points" (with rank having priority) will not be cumulated. The low score will not figure into the determination of student qualification for subsequent qualifying rounds. This "dropped" low score will be identified at the ballot verification period for individual events. A special note: a "no show" is indicated by a rank of 9 and 0 speaker points (rating). This "no show" designation is not dropped as the low score.
 - 4. For the elimination rounds, there will be three (3) judges in any subsequent qualifying rounds for the individual events. Only ranks in the round will be tabulated; speaker points will not be used. Should ties have to be broken, the "judge preference" system of tiebreaking shall be employed. If ties cannot be broken, tied speakers will advance or place.
 - 5. Judge Preference System: To the extent that any two speakers are tied on total ranks (with three judges), then an examination/analysis of those tied will reveal who was "preferred" by the judges in terms of a comparison only between those who tied.
- For example:

| | Judge X | Judge Y | Judge Z | Total | Place |
|-----------|---------|---------|---------|-------|-------|
| Speaker A | 1 | 6 | 3 | 10 | 4th |
| Speaker B | 4 | 4 | 6 | 14 | 6th |
| Speaker C | 3 | 5 | 1 | 9 | 2nd |
| Speaker D | 5 | 2 | 2 | 9 | 3rd |
| Speaker E | 2 | 1 | 4 | 7 | 1st |
| Speaker F | 6 | 3 | 5 | 14 | 5th |

In the tie between speakers C and D:

Judge X prefers C over D

Judge Y prefers D over C

Judge Z prefers C over D

therefore, Speaker C is preferred over D by 2 out of 3 judges and should receive the higher placement.

In the tie between speakers B and F:

Judge X prefers B over F

Judge Y prefers F over B

Judge Z prefers F over B

therefore, Speaker F is preferred over B by 2 out of 3 judges and should receive the higher placement.

The following schematic illustrates the system to be employed:

| # of students | Students per panel | Semifinal system |
|---------------|--------------------|--|
| 10 | 5 each | |
| 11 | 5 & 6 | 2 panels per semifinal advance 3 from each panel into finals |
| 12 | 6 each | |
| 13 | 6 & 7 | |
| 14 | 7 each | |
| 15 | 5 each | |
| 16 | 5 & 5 & 6 | 3 panels per semifinal advance 2 from each panel into finals |
| 17 | 5 & 6 & 6 | |
| 18 | 6 each | |
| 19 | 6 & 6 & 7 | |
| 20 | 6 & 7 & 7 | |
| 21 | 7 each | |

6. In the interpretation of events of Poetry, Drama, Humor, POI, and Duet the following provision shall apply: individual events cuttings/ material must be from sources of literary merit.
7. Any source material is permitted as long as it meets the standards outlined below:
 - i. Original source material must not be written by the competitor who is performing it.
 - ii. Original source material must be publicly accessible throughout the duration of the tournament. Digital printed publications such as web pages and PDFs retrieved or purchased from web pages are permitted as long as the web page is publicly accessible throughout the duration of the tournament. Digital unprinted publications such as videos, audio files, and films are permitted as long as the original source is publicly accessible throughout the duration of the tournament and the competitor can obtain an official transcript of the original source. (See ii.d for official transcript details.)
 - a. For print publications such as novels, short stories, plays, or poetry, the original source is the physical book or e-book. Photocopies of original literature are not acceptable. Presenting the physical book or e-book is sufficient to prove that a printed publication is publicly accessible.
 - b. For digital printed publications such as web pages, original source material is no longer required to come from online publishing sources listed on the NSDA Approved Websites List. The original source

- must be publicly accessible for viewing or purchase by a simple internet search or by a URL not requiring passwords or access codes. Competitors must also present a printed manuscript to be used in the case of a protest, but presenting a printed copy of a website is not alone sufficient to prove that a digital printed publication is publicly accessible.
- c. PDFs are permitted as long as the website from which the PDF is retrieved or purchased is publicly accessible for viewing or purchase by a simple internet search or by a URL not requiring passwords or access codes. Competitors must also present a printed copy of the PDF to be used in the case of a protest, but presenting a printed copy of the PDF is not alone sufficient to prove that a PDF is publicly accessible.
 - d. For digital unprinted publications such as videos, audio files, and films, the original source must be publicly accessible for viewing or purchase by a simple internet search or by a URL not requiring passwords or access codes. Competitors must also present a printed official transcript of the original source to be used in the case of a protest, but presenting an official transcript is not alone sufficient to prove that the original source is publicly accessible. An official transcript is one approved by the original source's producer, licensing agent, or copyright holder. As long as approval has been granted, an official transcript may be obtained through the aforementioned parties or through an official transcription service such as TranscribeMe, Scribie, or iScribed, which use non-automated, manual transcription.
8. In the prepared individual events of Oratory, Poetry, Drama, Duet, POI, Informative, and Humor the following provisions shall apply: **A contestant may not use the same cuttings/material or any portion of that content, in more than one prepared event at the State Tournament.** A contestant may not substantially change cuttings/material content in subsequent rounds at the State Tournament.
 9. No student may use an interpretive selection that he/she has used in any previous competitive season if the selection has two of the following three aspects: Author, Title or Source.
 10. Presentations shall be without the use of visual aids or costume, with the exception of Informative which allows visual aids.
 11. Literature Interpretation Events: All interpretation competitors must have immediately available either (1) a photocopy of the title page (author, title, source and copyright date) as well as the performed-portion of the original script, or (2) the original edition of the unedited literature being used in competition.
 12. Online sources may be accepted if they fulfill the requirements of printed sources. Published sources may not include work created in part or in whole by the student. Online sources must include a printed copy of the script as published online including the web address and clear evidence that the source is copyrighted on this site, from which it is taken.
 13. Either must also include: 1. Any words/terms spoken must be highlighted. Lines not mentioned should be left unmarked. 2. Any changes and/or additions must be indicated clearly in ink. Transitional material spoken by the student should be clearly indicated on the script.
 14. Please see section 8.3.3.12.xx for information concerning the "Judge Strike System" for interpretation and public speaking events.
 15. Please see section 8.3.2.10 for choice of material, obscenity clause and procedure for grievance.
 16. Extemporaneous Speaking
 - i. Time Limits
Extemporaneous speeches must not be less than five (5) nor more than seven (7) minutes. A 30 second grace period is allowed. Timers will show time to each speaker, from seven minutes down, changing the displayed time card as each minute elapses. If the speaker's time expires, the timer will stand. In rounds where no timer is present, the judge will show the extemper by some cue or hand signal when five minutes of speaking has elapsed. The judge may provide additional time cues, but the judge may not penalize a speaker for being overtime without having provided the five minute signal. Extemporaneous may use their own timer, or the judge may provide one for the extemper.
 - ii. Topics
All extemporaneous questions should be taken from the past three months of NFHS and NSDA extemporaneous practice topics.
 - iii. Procedures
Each participant, thirty minutes prior to his or her speaking assignment, will draw three topics. The participant will select one topic and prepare the speech. Judges will have copies of the questions labeled by speaker number. It is the responsibility of the student to adhere to the time limits. Timekeepers in extemporaneous speaking and debate will be instructed to notify the judge as to the actual speaking time for each speech.
 - iv. The following formatting for extemporaneous questions should be used instead of the draw of three pieces of paper with three questions on them, and these questions will be placed in the judges' ballot envelopes. Thus, all first speakers will have the same three choices for questions, for example.

EXAMPLE:

Round One

Speaker One

1. Was the federal government's decision to lift restrictions on manufacturing lethal viruses in a laboratory setting wrong?
2. Who is ultimately responsible for the resignation of Lebanon's Prime Minister?
3. What long-term steps must the International Olympic Committee take to prevent a repeat of the Russian doping scandal?

Speaker Two

1. How will the GOP tax cuts impact the unemployment rate in the United States?
2. In the wake of the FCC's decision on net neutrality, what steps can industry take to reassure the public of continued access to the resources of the Internet?
3. How will new sanctions against Russia impact the relationship between Russia and the United States?

Speaker Three

1. What steps must congressional leaders take to protect congressional employees from sexual harassment and assault at work?
 2. What is the appropriate role of the federal government in protecting consumers from identity theft?
 3. How will the new government of Zimbabwe differ from that led by Robert Mugabe?
- ETC.
- v. During the final extemporaneous round, each speaker will be asked one question by the previous speaker at the conclusion of the speech. First speaker will take a question from last speaker - who will watch the first speaker and, then after the cross-examination, will retire to prepare his or her own speech. The questioner is allowed to take notes during the speech, but he or she may not use those notes during the cross-examination. The questioner has up to one minute to ask a question; the speaker has up to two minutes to respond to the question. The quality of the question asked and the quality of the answer given are a part of the total presentation and should be considered with the ranking of the speakers. No one from the same school can question a teammate if there are 2 from the same team in finals, unless it is unavoidable because a team has more than half the people in the finals.
 - vi. Preparation
 - a. The speaker may bring files of notes or clippings on various subjects to assist in the 30 minute preparation period.
 - b. An adult supervisor shall remain in the extemporaneous speaking preparation room until each round is completed. This supervisor shall be responsible for the topic draw process and for maintaining decorum. Extemporaneous speakers must not be "coached" by any person during this preparation period. Coaching by anyone constitutes grounds for disqualification.
 - c. Students may consult published books, magazines, newspapers and journals or articles provided:
 1. The materials are either the originals or xeroxed copies of the originals.
 2. That the text of the original article or copy is intact and uncut.
 3. There are no additional written comments on the original or copy.

Violations of this section constitute grounds for disqualification.
 - iii. Submission of Copies
Copies of orations to be entered in the State Tournament must be in the hands of the Tournament Director by the close of registration, or the student will not be allowed to compete in this event.
 - iv. Standards and Delivery
 - a. Orations are to be delivered entirely from memory, but an oration is to be evaluated by the same standards that apply to any oral communication, with a slight shift of emphasis. Since the wording and delivery of an oration are presumed to have been carefully worked out and practiced well in advance, more polished results will be expected in both of these aspects than would be expected of the same speaker in, for example, debate or extemporaneous speaking.
 - b. Any oration used in a previous school year is not acceptable. A contestant may not use material from Oratory in any other prepared event at the State Tournament. A contestant may not substantially change the content of the Oratory in subsequent rounds at the State Tournament.

- i. Time Limit

The maximum time limit is 7 minutes with a 30-second "grace period," which includes both preparation and speaking. If there are multiple judges in the round, all must agree that the student has gone beyond the grace period. Should a student go beyond the grace period, the student may not be ranked 1st. There is no other prescribed penalty for going over the grace period. The ranking is up to each individual judge's discretion. Judges who choose to time are to use accurate (stopwatch function) timing devices. No minimum time is mandated.
- ii. Topics

Topics will include proverbs, abstract words, events, quotations, and famous people. It is the responsibility of the student to adhere to the time limits.
- iii. Drawing

A judge in each section/room shall be provided an envelope containing a uniform set of topics, with a different subject area used for each round. Once the first speaker is called, the other speakers shall leave the room, and wait outside the door. Each speaker will draw three topics, choose one, and return the other two to the envelope.
- iv. Preparation and Delivery

The speaker has seven minutes in which to prepare a response and present a speech without consultation of prepared notes. Students may consult published books, magazines, newspapers, and journals or articles therform, provided:

 - A. They are original or photocopies of originals.
 - B. That original article is intact and uncut.
 - C. There is no written material on original or copy.
 - D. Topical index without annotation is allowed.
- v. No other material shall be allowed in the room other than stated above. Speeches, handbooks, briefs, and outlines shall be barred. Underlining or highlighting in materials will be allowed if done in one color on each article or copy. No electronic retrieval device may be used, but printed materials from online computer services may be used.
- vi. Recuse Once a speaker has spoken, they may listen to the other speakers in that round.
- vii. Notes No notes shall be used during presentation.

C. Debate

- 1. Preliminary Round Pairings
 - i. Cross Examination, Lincoln Douglas and Public Forum Debate. Note: Sides debated will not be a criterion for pairing Public Forum Debate.
 - ii. Preliminary Round Pairings -- Rounds 1, 2: These rounds will be "preset", completely at random. No attempt will be made to avoid intra-district pairings. Competitors from the same school will not meet each other. Within any given debate division, no school shall meet the same school twice during the first two rounds, whenever possible. As a general rule, each CX team and LD debater will end the second round having had one affirmative and one negative. Byes, if necessary, will be at random.
 - iii. Preliminary Round Pairings -- Round 3: This round will be power-matched high-high (similar records insofar as possible) based on the results of the first two rounds. A CX team or LD debater may debate any side in round three. Byes, if necessary, will go at random to a CX or PF team or LD debater in the lower one-third of the field from a school not having previously received a bye.
 - iv. Preliminary Round Pairings -- Round 4: This round will be power-matched high-low within brackets based on the results of the first three rounds. A bracket is operationally defined as the win-loss record as apportioned into approximately one-quarter, or one-third, or one-half the field. Side constraints apply to this round so that, as a general rule, each CX team or LD debater will end the fourth round having had two affirmatives and two

negatives. Byes, if necessary, will go at random to a CX or PF team or LD debater in the lower one-third of the field from a school not having previously received a bye.

- v. Preliminary Round Pairings -- Round 5: This round will be power-matched high-high, based on the results of the first four rounds, using the same parameters as Round 3.
 - vi. Preliminary Round Pairings -- Round 6: This round will be power-matched high-low within brackets based on the results of the first five rounds, using the same parameters as round 4.
 - vii. In addition to the above, the following rules shall apply for the preliminary rounds:
 - a. During the preliminary rounds, no CX or PF teams or LD debaters from the same school shall compete against each other.
 - b. During the preliminary rounds, no CX or PF team or LD debater shall compete against a team or debater which it has competed against in previous preliminary rounds at this tournament.
2. Elimination Round Pairings
- i. Teams will advance to octafinals or quarterfinals based on the results of the six preliminary rounds. These criteria will determine, in rank order, which teams shall advance to qualifying rounds:
 - a. won-loss record
 - b. strength of opposition throughout all preliminary rounds (total wins of opposition)
 - c. Cross Examination Debate- cumulative team ranks (low is best)
Public Forum Debate- ranking points of all four debaters
Lincoln-Douglas Debate- cumulative speaker points (high is best, drop high-low)
 - d. Cross Examination Debate- cumulative team speaker points (high is best, drop high-low)
Public Forum Debate- quality rating of the two teams
 - ii. The break-point for qualifying for subsequent qualifying rounds will be announced at the ballot verification period for debate; the teams qualifying for quarter finals will also be announced at that time.
 - iii. The number of entries in Cross-Examination Debate teams, Public Forum Debate teams or Lincoln Douglas will determine the appropriate out rounds. With 12 or fewer entries, elimination rounds will begin with Semi-finals. With more than 12 but less than 44 elimination rounds will begin with quarterfinals. With more than 44 teams/competitors, elimination rounds will begin with octafinals, allowing 12 teams/competitors bracketed high-low in eight brackets. In all cases, partial elimination rounds at the next level will be required to assure that all teams/competitors with a 4-2 record could advance.
 - iv. The following schematic is the bracket for quarterfinals:

This bracket may be broken if two teams from the same school are scheduled to meet in the quarterfinals. Should the bracket have to be broken, the smallest possible shift in relative position should occur. Should three teams (or more) from the same high school advance to the semifinal rounds, then a conference shall be held with the coach involved to determine the best way to proceed.

- 3. Responsibilities of debaters reading evidence
 - i. Each debater is responsible for the validity of all evidence they read in the debate.
 - ii. In all rounds debaters shall orally deliver during each round for each piece of evidence introduced the name or the author and date. The team reading the evidence must have along with the information delivered orally the author's qualifications, complete source, date accessed, and the complete url and/or hyperlink available (Full Citation). Lack of an available full citation shall void any effect of that piece of evidence in the round.
 - iii. Either no internal ellipsis (ellipses occur after the first word of the quotation and before the final word) may be used in evidence cited on a card, or ellipsis may be shown on cards if the original source or a photo copy is present. The evidence may be read in ellipses form, but the entirety of the evidence must be available in one of the two ways cited.
 - iv. Personal letters or telegrams shall not be admissible as evidence.
 - v. All evidence must be read aloud to be considered in a decision. The use of visual aids, charts, handouts, etc. shall not be allowed in Policy, LD or PF.
 - vi. All evidence delivered orally in each round must be made available to the opposing debaters for inspection and review immediately before or immediately after the speech in which it was delivered. Debaters can accomplish the exchange of evidence either by giving the opposing debaters a physical or electronic copy of the evidence or by allowing the opposing debaters to inspect and review the evidence on whatever medium upon which it was read.
- 4. Responsibilities of debaters challenging evidence
 - i. Indictments or protests of the validity of evidence must be made on substantive grounds. A challenger must have either the original source or a photocopy of the source being cited, or:

- ii. A challenger must demonstrate that reasonable search has not been able to locate the source - photocopies of relevant pages in Book in Print, Reader's Guide, or P.A.I.S.
 - or:
 - iii. A challenger must prove that they have not been able to locate an electronic source, service, publication, etc.
- 5. Use of laptop computers
 - i. The use of laptop computers shall be allowed in Public Forum, Lincoln Douglas, and Policy debate as outlined in the latest NSDA National Tournament Manual.
 - ii. Computers or other electronic devices may not be used to receive information from any person (coaches or assistants included) inside or outside the room in which the competition occurs.
 - iii. Internet access, use of e-mail, instant messaging, or other means of receiving information from persons inside or outside the competition room are prohibited. (This does not prohibit communication between debate partners during prep time.)
 - a. Sanction: Contestants found to have violated this provision shall be disqualified from the tournament and shall forfeit all rounds.
 - b. At the Wyoming State Tournament the Executive Committee shall make the final decision concerning disqualification.
 - c. At local tournaments using the state rules, the tournament director may disqualify a team for such violation.
 - iv. The use of the internet during rounds shall only be permitted if there is public internet available to all at the competition site.
 - a. Contestants found to have violated this provision (for example : using a hotspot if public internet is not available) shall forfeit the round of competition and receive zero points.
 - v. Contestants electing to use computers are responsible for providing their own computers, batteries, extension cords and all other necessary accessories.
 - a. Tournament hosts shall not be responsible for providing computers, printers, software, paper, or extension cords for contestants.
 - vi. Contestants choosing to use computers and related equipment accept the risk of equipment failure.
 - a. No special consideration or accommodations, including no additional prep time or speech time, will be given by judges or contest directors should equipment failure occur.
- 6. Availability of Evidence
 - i. Contestants electing to use computers shall have the responsibility to promptly provide a copy of any evidence read in a speech for inspection by the judge or opponent.
 - ii. Printers may be used. Evidence may be printed in the round or produced electronically, but must be provided in a format readable by the opposing team and the judge.
- 7. Because public speaking decorum remains an important element of debate, all debaters are expected to stand (if physically able) at the front of the room facing the judge while speaking.
- 8. Definitions
 - i. A "Serious distortion" exists when evidence itself contains added or deleted word(s) which do not clarify, but - in fact –change the position of the author with respect to the issues in question.
 - ii. "Nonexistent evidence" means that:
 - a. Reasonable search is unable to produce the original source and/or the team reading the evidence is unable to provide the original source or a photocopy of the relevant pages during the round should the opposing debaters challenge the validity of evidence.
 - b. A failure to have available a Full Citation, as defined above, when requested by the opposing debaters.
 - c. The evidence cited is not located in the original source cited. Typographical errors in citation will not automatically result in the evidence being labeled nonexistent, if the debater(s) reading the evidence can produce the correct information.
- 9. Penalties
 - i. Penalties for use of nonexistent evidence or evidence which seriously distorts the intention of the original source.
 - a. An infraction of serious distortion or nonexistent evidence rules as defined in section C.8.i, C.8.ii.a, and C.8.ii.c shall result in the disqualification of the offending debater(s) from the tournament.
 - b. Any debater(s) found by the State Officers to be using nonexistent evidence as defined in C.8.ii.b shall forfeit the round in which the evidence was challenged but will not be disqualified from the tournament unless the forfeiture of the round results in a forfeiture of an elimination round.
- 10. Cross-Examination Debate
 - i. Entries and General Procedures
 - a. A cross-examination debate team consists of two members. Each team shall be prepared to debate both negative and affirmative sides of the resolution.
 - b. Each debate team will debate six preliminary rounds, generally three affirmative and three negative (although not necessarily in alternating order).
 - c. All debates at the State Tournament will be judged on a win-loss basis and all debaters will be rated on a speaker-point scale.
 - d. Team members may switch cross-exam periods or rebuttal speeches, but not both.
 - e. Please see Section 8.3.3.12.xx for information concerning the "Judge Strike System" for Cross-Examination Debate.
 - f. Debate postings and ballots shall not show the school name.
 - ii. Standards

Debate is regarded as competitive oral persuasion. Debaters are not attempting to solve a social problem, but rather to convince the judge of the desirability or undesirability of the particular solution set forth in the proposition debated.

iii. Time Limits

Cross-Examination Debate:

| | |

It is the responsibility of the student to adhere to the time limits.

11. Lincoln-Douglas Debate

i. Entries and General Procedures

- A Lincoln-Douglas "team" shall consist of one member prepared to debate both negative and affirmative sides of the resolution.
- Each L-D debater will debate six preliminary rounds, generally three affirmative and three negative (although not necessarily in alternating order).
- All L-D debates at the State Tournament will be judged on a win-loss basis and all L-D debaters will be rated on a speaker point scale.
- Please see Section 8.3.3.12.xx for information concerning the "Judge Strike System" for Lincoln-Douglas Debate.
- Debate postings and ballots shall not show that school name.

ii. Time Limits

| | |

| Aff. | 6 minutes. constructive speech |
| Neg. | 3 minutes cross-x period |
| Neg. | 7 minutes constructive speech |
| Aff. | 3 minutes cross-x period |

| Each Lincoln-Douglas debater will be allowed four (4) minutes of accumulated preparation time without penalty. | |

It is the responsibility of the student to adhere to the time limits.

12. Public Forum Debate

i. Entries and General Procedures

- a. A Public Forum Debate team shall consist of two members. Each team shall be prepared to debate both pro and con sides of the resolution.
 - b. Each public forum debate team will debate six preliminary rounds. Sides for all rounds will be determined by the flip of a coin with the winning side determining either which side of the resolution they will defend, or whether they will go first or last in speaking order. The other team will then choose from the remaining option of its side or whether to go first or last. In no instance, including the meeting of two teams for the second time, will sides be determined by any other method than by the flip of a coin between the two teams debating.
 - c. Please see Section 8.3.3.12.xx for information concerning the "Judge Strike System" for Public Forum Debate.
- ii. Standards
Debate is regarded as competitive oral persuasion. Public Forum debaters are encouraged to focus upon a social problem defined monthly by the NSDA. Because this event attempts to model media debate, judges may be active coaches who teach in a classroom or are community judges.
- iii. Time Limits
Public Forum Debate:

| | |
|--|-------------------------------|
| Speaker 1 Team A | 4 minutes constructive speech |
| Speaker 1 Team B | 4 minutes constructive speech |
| Crossfire | 3 minutes |
| Speaker 2 Team A | 4 minutes rebuttal speech |
| Speaker 2 Team B | 4 minutes rebuttal speech |
| Crossfire | 3 minutes |
| Speaker 1 Team A | 3 minutes summary speech |
| Speaker 1 Team B | 3 minutes summary speech |
| Grand Crossfire | 3 minutes |
| Speaker 2 Team A | 2 minutes final focus speech |
| Speaker 2 Team B | 2 minutes final focus speech |
| Each Public Forum debate team will be allowed three (3) minutes of accumulated preparation time without penalty. | |

It is the responsibility of the student to adhere to the time limits.

Procedure and Order of Speeches:

Prior to EVERY round and in the presence of the judge(s), a coin is tossed by one team and called by the other team. The team that wins the flip may choose one of two options: EITHER the SIDE of the topic they wish to defend (pro or con) OR the SPEAKING POSITION they wish to have (begin the debate or end the debate). The remaining option (SIDE OR SPEAKING POSITION) is the choice of the team that loses the flip. Once the speaking positions and sides have been determined, the debate begins (the con team may lead, depending on the coin flip results). Following the first two constructive speeches, the two debaters who have just given speeches will stand and participate in a three-minute "crossfire". In "crossfire" both debaters "hold the floor". However, the speaker who spoke first must ask the first question. After that question, either debater may question and/or answer at will. At the conclusion of the summary speeches, all four debaters will remain seated and participate in a three-minute "Grand Crossfire" in which all four debaters are allowed to cross-examine one another. The speaker who gave the first summary speech must ask the first question. Teams should alternate asking and answering questions rather than allowing one team to dominate so that a balance between teams is achieved. All speakers are encouraged to participate in the Grand Crossfire. Speakers should listen respectfully to opponents' questions and answers.

Paraphrasing: authoritative source versus general understanding. If paraphrasing is used in a debate, the debater will be held to the same standard of citation and accuracy as if the entire text of the evidence was read. Paraphrasing may be used to shorten or clarify one specific portion of an original source. It should not be confused with a general summary of an entire book, chapter, study, etc., which may only be used for information that is widely considered to be common knowledge. Paraphrasing focuses on a single idea, while summary focuses on a general concept. For example, if a debater references a specific theory by a specific author, the debater must also be able to provide an original source. If a debater were to reference social contract theory in general, that would not be an authoritative source that would require citation. However, if the debater references "John Locke's Social Contract," evidence would need to be available.

- 13. Congressional Debate
 - i. General Philosophical Statement

- a. Congressional Debate combines the very best of debate, extemporaneous speaking, and oratory. As well, it is desirable to maintain much of the decision-making processes in the hands of the competitors while continuing to ensure a high degree of competition.
 - b. The setting, as the dialogue between the participants, should be as formal as possible to maintain the demeanor of the house. Dress, actions, and conversation, therefore, should be consistent with and conducted as if it were taking place in the Congress of the United States.
 - c. Congressional Debate as in any democratic society, finds parliamentary procedure rooted in three principles: 1) the will of the plurality decides action and procedure; 2) the rights of the minority to address the assembly and otherwise participate are to be protected; and 3) the rules exist to serve the organization and are equally applicable to all of the membership.
- ii. Entries
 - a. Congressional Debate participants may double enter in any other event at the State Tournament so long as the other event is not in the same time schedule conflict pattern.
 - b. Procedure and guidelines for the participation in this event can be found in the NSDA handbook, including time limits. No NSDA procedures or guidelines will be used at the State Tournament if they are in conflict with Congressional Debate procedures specifically stated in this document.
- iii. Number of Sessions
There will be one (1) organizational session, four (4) preliminary sessions and two (2) super congress sessions at the State Tournament.
- iv. Structure
 - a. Experience has demonstrated that a house with too many members will be unmanageable and not provide students the opportunity to fully participate. Conversely, a house with too few students will not offer sufficient interaction to make the competition worthwhile. NSDA advises that the optimum membership in a house of a student congress is 20. Whenever possible during the course of the year but particularly during the State meet, this rule should be considered as inviolate as practical.
 - b. Congressional Debate participants will be informed as to which legislation will be debated in their house as soon as possible after the final split is determined
 - c. The formula Base of Three will be used. Coaches will be able to place up to three of their competitors within a given house, depending on the number of houses needed for Congressional Debate.
- v. Organization
 - a. Each participant entered in Congressional Debate may submit one, and only one, Bill or Resolution. The Bill or Resolution must be properly typed on 8 1/2" x 11" white paper. All Bills and Resolutions received electronically at registration returned via email by the Tournament Director (or his/her staff) to all schools entered in Congressional Debate.
 - b. Bills or Resolutions which are not electronically submitted with the official entry forms and which are "late," i.e. submitted after the entry deadline, will not be accepted for duplication or distribution by the Tournament Director. If "late" bills or resolutions are accepted for addition to the agenda order, they may be added only to the bottom of the agenda order, after all the pre-submitted bills have been debated. Sufficient copies of "late" Bills and Resolutions must be provided by each school. The tournament staff will not duplicate "late" Bills or Resolutions at the site of the State Tournament.
 - c. Students who pre-submit Congressional Debate legislation with their State Tournament Registration will be guaranteed an authorship speech when the legislation comes to the floor, prior to the application of other parliamentary or procedural rules.
 - d. A Bill is an enumeration of specific provisions which, if enacted, will have the force of law. A Resolution is simply a generalized statement expressing a conviction. A Resolution will generally center debate on the broad principles of the concept; A bill is more apt to concentrate on the merits of the specific provisions it contains. Although they are not necessary, a Resolution may have "Whereas" clauses, but a Bill never has them.
 - e. The most repetitive offenses in legislation are the lack of line numbers, lack of penalties when required, initiation date, and the misunderstanding of the intent of what a bill and resolution does and doesn't do and confusing the two.
- vi. Parliamentarian's Duties and Obligations
 - a. A parliamentarian shall be used for all sessions of an assigned house. That Parliamentarian may not have students from his or her school as members of that given house.
 - b. All houses will operate much more effectively and efficiently if the Parliamentarian does not fear to intervene in order to head off potential problems. This should not be construed to mean that the parliamentarian should run the session, rather that he/she should have a firm hand on the reins to avoid a runaway congress. The parliamentarian should not be "rushed" into making a hasty or improper decision. After all, his/her decisions are final and should be made after due deliberation. The parliamentarian's guide should be the NSDA Handbook and Robert's Rules of Order, tempered by common sense and a desire to see the session run as an orderly function. When the Parliamentarian is in doubt or the issues are clouded to the degree resolution cannot be attained without undue delay in the proceeding, the issue should be resolved by unrestrained debate of the participants; however, the Parliamentarian shall make this decision at his/her sole discretion and may elect to hear arguments from both sides of the issue for so long as it may take him/her to make a decision. Addresses to the problem by the members to the Parliamentarian shall not be counted as a speech and shall be considered by neither the judges nor the Parliamentarian in ranking the student.
 - c. Each school, which has congress competitors, will be allowed one parliamentarian strike. If not possible to honor all the strikes, the parliamentarian with the fewest strikes shall be used.
- vii. Judging Criteria in General
 - Evidence
 - Logic
 - Parliamentary Procedure

Public Speaking

- a. As the figure above would indicate, there is a hierarchy of criteria upon which to help in the selection of the best legislator. Evidence to substantiate the assertions of the speaker or questioner, for instance, has a greater primacy over analogy, and much more than mere opinion. In like manner, discernible flaws in logic during debate and the use of parliamentary procedure are also distinguishing features.
 - b. One should clearly see the relationship of a superior speaker and his/her ability as related to the legislation within a structural framework of evidence, analysis and logic, extension and development of the issues, speaking ability, and leadership. Speakers who do nothing more than state the obvious or offer redundant arguments should be discouraged, although this should not preclude development of the issues. As well, one should not neglect assaults and justifications during the two-minute examination period which tests the extent of the speaker's knowledge and the questioner's ability to construct a foundation for later speeches or to later denigrate the position of the author or speaker. Elections of the best speakers, legislation and chair by the membership of the houses are done in conjunction with an independent parliamentarian and judges, however, this does not obviate the need for "political" activities and interaction of the members; indeed, it enhances this necessity. The officials should be acutely aware and sensitive to the "floor work" occurring in the chambers during the session.
- viii. Judges Duties and Obligations
- a. One judge will be assigned for each session for each house that has fewer than 14 members. Two judges will be assigned for each session for each house that has 14 or more members.
 - b. Individual judges will consider the results of one or two rounds as the needs of the congress and the availability of a judging pool dictates. A ballot should be completed by the judge for all members of the given house judged, whether the participants spoke during the session or not. Judges are requested not to confer with others about their decisions, reasons for ranking, individual likes or dislikes, or reasons for decisions with students, coaches, or each other until all rounds of congress have been completed. Completed scoring sheets by the judges will be given only to the congressional monitor to avoid an impression of collusion.
 - c. The judges will rank the highest scoring or the best participants. The ranks given will be one through seven (one being first place) at the end of each session. All other members of the session shall receive an eighth place.
 - d. Each School which has congress competitors will be allowed one Congress judge strike. If it is not possible to honor all these strikes, a preferential system will be used. That is, the judges with the least number of strikes will be used.
 - e. All Congressional Debate judge strike sheets will be held in confidence by the tournament staff.
- ix. Tabulation
- a. At the end of all preliminary sessions, the judges' rankings from each session will be added together, and the parliamentarian ranking will be included.. Final placement will be determined by the lowest total cumulative score receiving first place, etc., on to the highest total receiving last place. In the event of a tie, the parliamentarian's preference will prevail. When only one house is in session during the preliminary rounds, the top twenty legislators will advance to super congress. If two houses are in session during the preliminary rounds, the top ten legislators will advance to super congress from each house. If three houses are in session during the preliminary, the top six legislators will advance to super congress from each house.
 - b. **Mandatory ranking of chair:** Any student chairing a minimum of 1 hour at a Wyoming Speech and Debate event shall automatically earn a rank of 1st, 2nd, 3rd, 4th, or 5th place in that competitive round. A judge may choose to not rank a chair due to misconduct or poor performance but must clearly state on the ballot the reason for the non- ranking. Any ballot where the judge fails to rank a chair who has met the time requirement or where the judge has not clearly given the reason for non-ranking shall be audited by tab room personnel to note a 3rd place ranking (for the chair) in that round, thus moving all subsequent ranked students on that ballot one rank lower.
- x. Tabulation- Super Congress
- The same procedure in 8.3.3.C.13.ix. Tabulation will be used to determine the top six legislators in Super Congress.
- xi. Best Legislation
- a. Nominations for Best Legislation will be taken from the floor at the end of the last session by the Parliamentarian, but will not number more than five. After balloting, the top two will be selected by the body.
 - b. The tab room will tabulate the top winners of best legislation from each house. The authors of the best legislation from each house will be recognized during the awards program.
- xii. Best Chair
- a. The Parliamentarian will nominate not more than three exceptional members of the congress for Best Chair. The body shall then make their will known by ballot.
 - b. The tab room will tabulate the top winner of best chair from each house. The best chair from each house, including super congress, will be recognized during the awards program.
- xiii. Super Congress

8.3.4 GENERAL SUGGESTIONS

A. Extemporaneous Speaking

1. It is suggested that students expecting to participate in this event become familiar with the technique of writing a statement of purpose, a statement of central idea, and an outline in complete sentences of the main heading and supporting material. In reading and studying magazines, the extemporaneous speaker should try to trace and evaluate developments, trends, tendencies and relationships of current events.
2. An extemporaneous speaker is not expected to display the preparation and polish of a debater or orator. The student is supposed to have gathered a considerable fund of information relevant to the topic selected and the

extemporaneous speech should test the ability to quickly select, organize and present those ideas in a unified, significant communication.

- B. Original Oratory
 - 1. Subject Matter: Theoretically, an orator may have any purpose. Students should be encouraged to deal with problems and subjects which concern them directly and of which they have personal knowledge and experience.
 - 2. Although emotional appeals are suitable in an oration, students should always support their main statements by evidence, explanation, comparison, factual or hypothetical illustrations, specific instances, testimony, or logical reasoning.
- C. Memorized Dramatic Interpretation
 - 1. It is recommended that all selections should be obtained from the works of a writer of recognized stature, NOT from a "declamation agency" or a recording. It is recommended that overly dramatic or emotional material be avoided.
 - 2. Videos of previous final round performances are intended to provide educational examples for coaches and students. They are not intended to serve as a model to directly imitate or duplicate in performance. The wholesale interpretation of final round performances is strongly discouraged.
 - 3. Focus: In dramatic interpretation, use of focal points and/or direct contact with the audience should be determined by the requirements of the literature being interpreted.
 - 4. The interpreter of memorized dramatic literature should preface the interpretation by a few brief remarks to establish a personal contact with the audience and to help them achieve a receptive mood and frame of mind for the material to be presented. A dry, formal statement of biographical data should be avoided.
 - 5. Material should be thoroughly studied and analyzed, carefully practiced and prepared. The interpreter should remember, however, that the student is interpreting the author's work to the audience, not impersonating or directly presenting it.
- D. Memorized Duet Interpretation
 - 1. The interpreters should preface their Memorized Duet Interpretation presentation by a few brief, informal extemporaneous remarks to establish a personal contact with the audience and to help them achieve a receptive mood and frame of mind for the material to be presented. A dry, formal statement of biographical data should be avoided.
 - 2. Material should be thoroughly studied and analyzed, carefully practiced and prepared. Thinterpreters should remember, however, that students are interpreting the author's work to the audience, not impersonating or directly presenting it.
 - 3. Videos of previous final round performances are intended to provide educational examples for coaches and students. They are not intended to serve as a model to directly imitate or duplicate in performance. The wholesale interpretation of final round performances is strongly discouraged.
- E. Manuscript Poetry Interpretation
 - 1. Introduction. The interpreter in manuscript poetry interpretation should preface the reading by a few brief remarks to establish a personal contact with the audience and to help them achieve a receptive mood and frame of mind for the material to be read. A dry, formal statement of biographical data should be avoided.
 - 2. It is suggested that the reader have the materials to be read in a neat folder or notebook, easy to hold and handle, or a book, provided it can be easily handled. Loose paper, clippings, etc. should be avoided.
 - 3. Videos of previous final round performances are intended to provide educational examples for coaches and students. They are not intended to serve as a model to directly imitate or duplicate in performance. The wholesale interpretation of final round performances is strongly discouraged.
 - 4. Focus: In manuscript poetry, use of focal points and/or direct contact with the audience should be determined by the requirements of the literature being interpreted.
- F. Memorized Humorous Interpretation
 - 1. Material should be thoroughly studied and analyzed, carefully practiced and prepared. The interpreter should remember, however, that the student is interpreting the author's work to the audience not impersonating or directly presenting it.
 - 2. Videos of previous final round performances are intended to provide educational examples for coaches and students. They are not intended to serve as a model to directly imitate or duplicate in performance. The wholesale interpretation of final round performances is strongly discouraged.
 - 3. Focus: In humorous interpretation, use of focal points and/or direct contact with the audience should be determined by the requirements of the literature being interpreted.
 - 4. The interpreter in memorized humorous interpretation should preface the presentation by a few brief remarks to establish a personal contact with the audience and to help them achieve a receptive mood and frame of mind for the material to be presented. A dry, formal statement of biographical data should be avoided.
- G. Program Oral Interpretation

8.4.3 CHOICE OF MATERIAL:

- It is strongly recommended that Directors use good judgment in selection of the play or material that is high school appropriate. Judges may be offended and students may pay a consequence for this choice.
- Obscenity Clause and Procedure for Grievance It is up to each school's administration to determine that each production brought to the Wyoming State Drama Competition does not offend the moral standards of their community and that obscenity has been eliminated. If the script has been read and the staged production viewed and approved by the administrator of the producing school, the production is eligible for presentation at any contest site.
 - Each school's administrative team* must affirm this review when they sign the "Community Standards Compliance Form." If the play cannot be cut to meet community standards, then the play should not be selected for contest use. It is the duty of each director and their administrator to make a responsible selection for the students you work with and the community you represent. Make sure that you discuss the choice of script and questionable language and business with your administrators.
*administrative team may include principal, activity directors, and/or school board. Because schools differ in size and personnel, we have left this term unspecified. However, this term usually applies to principals, superintendents, activity directors, and/or school board.
 - Directors who have secured approval from their administration as specified on their "Community Standards Compliance Form" may also choose to submit an e-mail WEST if they feel their material requires a preface or caution to viewers. This will be added to the list serve as a way for other directors to decide if such material is something they wish their students to attend. Although such disclosures are NOT required, establishing communication among directors is appreciated in an attempt to create a safe and educational environment for all schools and guests.
 - In the event that WEST or WHSAA is contacted regarding "obscene material," it is proposed that the following procedure be followed. Complaints must be submitted via e-mail to the WEST Board within two (2) weeks of the State Competition. If outside of that window, the grievance will be dropped.
 - WEST will:
 - Contact the administrative team listed on the compliance form
 - Review complaints against the school with administrative team member/s
 - Administrative team will provide a written statement to WEST regarding said complaint
 - WEST Board will pass both written grievance and administrative statement on to WHSAA
 - WHSAA will review written statements and decide what further actions are necessary:
 - Charges dropped
 - Meeting with director and administrative representative and WHSAA Board
 - Removal of WHSAA placing or All-State accolades
 - Warning/Probation (If persistent complaints possible suspension from competition possible)
- Plays presented may be either a one-act play or a scene or scenes from a longer play. If a cutting from a longer play is used, the selection should be relatively self-contained and self-explanatory and should not require either knowledge of the entire play or an extended narrative introduction.

9.15.0 APPEARANCE

Today, many people judge a person by the way he/she looks. First impressions are becoming more and more important. As an official you want to make a good first impression.

BEFORE THE CONTEST

When traveling to the game site, you should be neat and clean, properly dressed, clean-shaven, hair or beards neatly trimmed, to present the impression of one who takes pride in his/her appearance. Remember, you are a representative of the WHSAA/WSOA.

DURING THE CONTEST

The official's appearance will affect the conduct of the game to a great degree. A poorly dressed official will find he/she has difficulty in having his/her decision accepted. On the other hand, an official who wears the proper uniform and is neat, will foster proper attitudes from all concerned. The physical condition of an official is definitely a part of his appearance. One who carries himself/herself in a professional manner, moves quickly, and has stamina will have more success than the official who does not possess these qualities. The official who is out of condition, more often than not, does a poor job of officiating simply because he/she is unable to cover the play. The appearance of this type of official on the field or court detracts from the coaches, players, and fan's confidence in the officiating team. Officiating is strenuous and exhausting work. In order to meet the challenge an official must be in good physical condition.

AFTER THE CONTEST

Take care of equipment and leave the field together. Do not seek out coaches nor avoid them. Make no statements or offer comments concerning the game to other than WHSAA/WSOA members. Your best bet is to shower, dress, collect your gear and head for home. The game is over and your job has been completed.

Be supportive of fellow officials and do not criticize another's officiating to any other individuals. The observation and/or evaluation process should be used to address any need for another official's improvement. See section 9.9.0 regarding public criticism of officials.

9.16.0 REQUIREMENTS OF THE WHSAA/WSOA

WSOA Members are required to wear the uniform specified in the National Federation Rules Book and Officials Manual for their respective sport. The WHSAA may approve an alternative uniform.

The WHSAA/WSOA officials patch MUST be displayed on the upper left sleeve (left breast pocket in soccer) for all officials representing the WHSAA/WSOA. The patch should be placed two fingers from the top seam.

If worn, the 307 Way patch (or its successor) MUST be displayed on the upper right sleeve. The patch should be placed two fingers from the top of the seam.

In softball, a WHSAA/WSOA patch is optional on the cap. If worn, it must either be sewn or embroidered in the center front of the cap.

In sports where more than one official is required, the crew should be dressed in identical attire.

9.17.0 ADDRESSING VIOLATIONS

9.17.1 PROCEDURE

- 9.17.2 The WHSAA Board of Directors, through its Commissioner, will investigate all alleged violations of the rules or constitution when:
1. Board members, or their Commissioner, have either personally or through written documentation gained knowledge of a violation.

2. The Board of Directors, or the Commissioner, have received a written protest by a member school, official, or officials group/association.
- 9.17.3 The Commissioner shall have the authority to take disciplinary action against an offending official of the WHSAA. Any disciplinary action taken shall be reviewed by the WHSAA Board of Directors.
 - 9.17.4 Disciplinary action in the form of suspension or expulsion shall be limited to not more than one calendar year.
 - 9.17.5 Review procedure to be followed.
 1. By the WHSAA:
 - a. The Commissioner shall obtain written statements from any available witnesses.
 - b. Said statements will be studied by the Commissioner and reported to the WHSAA Board of Directors.
 - c. If, in the opinion of the WHSAA Board of Directors, further investigation is necessary, the Commissioner or the WHSAA Board of Directors may meet with the agent or the official.
 - d. If further disciplinary action of any type is deemed necessary, the WHSAA Board of Directors or Commissioner will take such action and communicate it to the offending official.
 2. By member officials:
 - a. File the complaint with the Commissioner.
 - b. If the initial complaint is not filed in writing, then it must be filed in writing within seven days of the initial complaint.
 - c. Furnish affidavits if deemed necessary by the Commissioner or WHSAA Board of Directors.
 - d. Attend the hearing if deemed necessary by the Commissioner or WHSAA Board of Directors.

9.18.0 DISCIPLINARY ACTION

- 9.18.1 **WARNING**
A warning is official, written notice that an inexcusable, unethical, or unsportsmanlike action is a matter of record and that such an action must not occur again.
- 9.18.2 **PROBATION**
This is a more severe type of (written) warning. An official on probation may be restricted from officiating in any regional or state level activity.
This also implies that a repeat offense would mean automatic suspension.
- 9.18.3 **SUSPENSION**
Any official suspended from the WSOA may not officiate an association contest at any level. No official may be suspended from the WHSAA for more than one calendar year. Notification of suspension shall be in writing.

9.19.0 HEARINGS

Aggrieved Parties May Appeal Decision

If a contest official is dissatisfied with a decision of the WHSAA Board of Directors or the Commissioner's interpretation of a provision or provisions of the Constitution, Bylaws, or rules and regulations of the WHSAA and such individual or school is an aggrieved and affected party, such a party may within 15 days of the receipt of the decision, submit in writing by certified mail, return receipt requested, a notice of appeal of the decision and a request for a formal hearing.

Investigation

The Commissioner or his staff, or such representative of the WHSAA designated by the Board of Directors shall investigate all matters upon which the appeal is based. Investigations shall be performed so as to bring the matter to hearing, unless for cause otherwise shown, no later than the next regularly scheduled meeting of the Board.

Notice

After completion of the investigation, the Commissioner shall notify the appealing party, by certified mail, return receipt requested, of the time and place set for a hearing on the appeal. The notice shall be given at least seven days in advance of the time set for the hearing.

The hearing shall be conducted in conjunction with a regularly scheduled meeting of the Board provided that the matter may be heard at a special meeting of the Board in the event that the appealing party agrees to pay all the costs incidental to such a special meeting.

Attendance at the Hearing

Contest officials who are appealing parties are entitled to attend hearings. Any person entitled to be in attendance at such hearing may represent themselves. Such persons are also entitled to be represented by counsel, provided that they notify all other parties involved in the appeal of the name, address, and telephone number of such counsel at least three days in advance of the hearing.

Board of Directors to Hear Appeals

The Board of Directors of the WHSAA shall hear all appeals brought under the provisions of these rules. The President of the WHSAA Board of Directors may appoint a Hearing Officer to preside over the hearing or he may act as the Hearing Officer himself/herself. The Hearing Officer may, at the beginning of the hearing, ask for statements clarifying the issues involved or upon which factual matters the appealing party will stipulate and agree to.

The Commissioner shall make available written copies of his/her investigation and may give testimony relative thereto. The appealing party shall present its defense and proofs. The parties may offer such evidence, including the testimony of witnesses, as they desire and which is relative to the proceedings. All testimony shall be given under oath. The hearing officer will have the authority to administer the oaths. Each party shall have the right to cross examine witnesses of the adverse party. All parties shall

be afforded the opportunity to examine all documents introduced. Upon request of any party, the proceedings of the hearing may be reported stenographically or by any other appropriate means as determined by the hearing officer. The party requesting that the proceedings be reported, shall pay the cost thereof and shall also pay for the cost of transcription.

Closing of Hearing

The Hearing Officer shall specifically inquire of all parties whether they have further evidence. Upon receiving negative replies, the Hearing Officer shall declare the hearing closed.

Hearing in Absence of a Member

The hearing may proceed in the absence of any party, who after it is shown has received due notice thereof, fails to be present or fails to request an adjournment. Adjournments may be requested of the Hearing Officer upon the request of a party or upon the initiative of the Hearing Officer. However, a decision shall not be made solely upon the default of a party, but shall be based upon the evidence in the matter before the Board.

Decision of Board

The decision of the WHSAA Board of Directors shall be made within seven days of the closing of the hearing. The decision shall be in writing, signed by the Commissioner, and shall state the findings and conclusions of the Board. It shall be mailed to the appealing party by certified mail, return receipt requested.
